SOFTSEA B0CRCWZLN1

SOFTSEA Twin Size Wood Murphy Bed with Built-in Wardrobe

MODEL: B0CRCWZLN1

Introduction

Thank you for choosing the SOFTSEA Twin Size Wood Murphy Bed with Built-in Wardrobe. This innovative furniture piece is designed to maximize space in your home by combining a comfortable twin bed with extensive storage solutions, including open shelves, closed cabinets, and drawers. When not in use, the bed folds neatly into a stylish cabinet, transforming your room into a versatile living area. This manual provides detailed instructions for assembly, operation, maintenance, and important safety information to ensure proper use and longevity of your product.

Safety Information

- Read all instructions carefully before assembly and use. Keep this manual for future reference.
- **Wall Anchoring is Mandatory:** This Murphy bed unit **must** be securely anchored to a wall to prevent tipping. Failure to do so can result in serious injury or death. Use appropriate hardware for your wall type.
- Ensure all hardware is tightened securely during assembly. Periodically check and re-tighten all connections.
- Do not exceed the recommended weight capacity of 800 lbs for the bed.
- Keep children and pets away from the unit during assembly and when operating the folding mechanism.
- Use only the recommended mattress thickness (6 inches) to ensure proper folding and safety.
- Do not place heavy objects on the bed when it is in the folded position, as this may interfere with the mechanism or cause damage.
- Always ensure the area around the bed is clear before folding or unfolding.

Package Contents

Verify that all components are present before beginning assembly. If any parts are missing or damaged, contact customer support immediately.

- Murphy Bed Frame (Metal and Wood Slats)
- Integrated Wardrobe Unit (Left Side)
- Upper Storage Cabinets and Open Shelves
- Built-in Desk Panel
- Storage Drawers (2 units)
- Assembly Hardware Kit (screws, bolts, cam locks, etc.)
- Assembly Instructions Manual

Assembly Instructions

Assembly requires at least two adults. Clear a large, open workspace. Tools required (not included): Phillips head screwdriver, hammer, measuring tape, level, stud finder (for wall anchoring).

1. **Unpack and Organize:** Carefully unpack all boxes. Identify and separate all wooden panels, metal parts, and hardware. Refer to the parts list in your included manual to ensure all pieces are present.
2. **Assemble Wardrobe Unit:** Begin by assembling the main wardrobe unit (left side). Follow the step-by-step diagrams in the provided manual to connect the side panels, back panel, shelves, and drawer slides using the specified hardware.
3. **Assemble Upper Storage Units:** Construct the upper storage cabinets and open shelves. These units will be mounted above the bed frame.
4. **Assemble Bed Frame:** Assemble the metal bed frame and attach the wooden slats. Ensure all connections

are tight and secure.

5. **Integrate Bed Frame with Cabinet:** Attach the assembled bed frame mechanism to the main cabinet structure. This step often involves spring or piston mechanisms; exercise caution and follow instructions precisely.
6. **Attach Upper Units:** Securely attach the assembled upper storage cabinets and shelves to the main unit, ensuring they are level and aligned.
7. **Install Drawers and Doors:** Assemble the two storage drawers and install them into the wardrobe unit. Attach doors to the wardrobe and upper cabinets.
8. **Wall Anchoring:** Position the fully assembled unit against the desired wall. Using a stud finder, locate wall studs. Mark and drill pilot holes. Securely attach the unit to the wall studs using the provided anti-tip hardware. This step is critical for safety.
9. **Final Checks:** Ensure all screws and bolts are tightened. Test the folding mechanism several times to ensure smooth operation.

Operating Instructions

The SOFTSEA Murphy Bed is designed for easy and safe operation. Always ensure the area is clear before folding or unfolding the bed.

Image: The Murphy bed in its closed position, appearing as a compact cabinet unit with integrated storage.

Image: The Murphy bed in its open position, revealing the twin-size bed frame ready for use.

1. To Unfold the Bed:

- Ensure the area in front of the cabinet is clear of obstructions.
- Grasp the handle on the front panel of the bed.
- Gently pull the bed downwards. The mechanism will assist in lowering the bed smoothly to the floor.
- Ensure the support legs are fully extended and locked into place for stability.

2. To Fold the Bed:

- Remove all bedding, pillows, and mattress from the bed frame. (Note: Some Murphy beds allow thin bedding to remain; refer to specific product guidelines if applicable).
- Ensure the support legs are disengaged and can fold back into the frame.
- Grasp the handle on the front panel of the bed.
- Gently lift the bed upwards. The mechanism will assist in raising the bed smoothly back into the cabinet.
- Push firmly until the bed is fully recessed and securely latched in the upright position.

Maintenance

- **Cleaning:** Wipe surfaces with a dry, soft cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Hardware Check:** Periodically inspect all screws, bolts, and connections. Re-tighten any loose hardware to maintain stability and safety.
- **Mechanism Inspection:** Check the folding mechanism for any signs of wear or damage. Ensure it operates smoothly. Do not attempt to lubricate or repair the mechanism unless specifically instructed by the manufacturer.
- **Wall Anchors:** Regularly check the wall anchors to ensure they remain secure.

Troubleshooting

- **Bed does not fold/unfold smoothly:**
 - Check for obstructions around the bed frame.
 - Ensure all assembly hardware is properly tightened.
 - Verify that the mattress is the correct size and thickness (6 inches recommended).
- **Drawers are sticking or difficult to open/close:**
 - Ensure the drawer slides are properly aligned and free of debris.
 - Check that the drawer is not overloaded.
 - Verify that the wardrobe unit is level.
- **Unit feels unstable:**
 - **Immediately check wall anchoring.** Ensure the unit is securely fastened to wall studs.
 - Re-tighten all assembly hardware throughout the entire unit.
 - Ensure the unit is placed on a flat, level surface.
