MENATT Stainless Steel Shower Panel Tower System

Model: MTT50908623 | **Brand:** MENATT

1. PRODUCT OVERVIEW

The MENATT 4-in-1 Stainless Steel Shower Panel Tower System is designed to enhance your showering experience with multiple integrated functions. This system features a height-adjustable rainfall shower head, six massage body jets, a convenient handheld shower, and a functional tub spout. Constructed from durable SUS304 stainless steel with a fingerprint-free brushed finish, it offers both reliability and a modern aesthetic for your bathroom.

Key Features:

- **Multi-Function System:** Integrates a height-adjustable rainfall shower head, 6 body jets, a waterfall tub spout, and a handheld shower.
- **Height Adjustable Rainfall Shower:** Features a 9-inch wide shower head with 144 nozzles, adjustable vertically to suit various user heights, providing broad water coverage.
- **6 Body Massage Jets:** Angle-adjustable body sprays deliver a powerful, massaging experience, allowing targeted relief.
- **Durable Construction:** Crafted with a robust 304 stainless steel frame and brass valve, ensuring longevity and secure operation.
- **Temperature Display:** Equipped with a digital display to assist in selecting the desired water temperature.

2. SAFETY INFORMATION

Please read and understand all instructions before installation and operation. Failure to follow these guidelines may result in property damage, personal injury, or product malfunction.

- Ensure all water connections are properly sealed to prevent leaks.
- Do not use abrasive cleaners or harsh chemicals on the product surface, as this may damage the finish.
- Verify water pressure is within acceptable limits for residential plumbing systems before installation.
- For any electrical components (e.g., temperature display), ensure proper battery installation and avoid water exposure to non-waterproof parts.

3. PACKAGE CONTENTS

Carefully unpack the product and verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

- 1 x Shower Panel
- 1 x Height Adjustable Arm
- 1 x 9" Top Shower Head
- 1 x 150cm Hose
- 2 x Screw Accessory Kit
- 1 x Hand Shower Head
- 1 x Hand Spray Bracket
- 2 x Connector

4. SETUP AND INSTALLATION

The MENATT Shower Panel Tower System is designed for wall-mount installation and features a standard NPT 1/2" water line connection. Professional installation is recommended for optimal performance and safety.

Installation Steps:

1. **Prepare the Installation Area:** Ensure the wall surface is clean, dry, and structurally sound to support the shower panel's weight. Turn off the main water supply.
2. **Mark Mounting Points:** Use the provided mounting brackets and a level to mark the drilling locations on the wall. Refer to the dimensions diagram for proper placement.
3. **Drill Holes and Install Anchors:** Drill holes at the marked points and insert appropriate wall anchors suitable for your wall type.
4. **Mount Brackets:** Securely attach the mounting brackets to the wall using the provided screws.

5. **Connect Water Lines:** Connect the hot and cold water supply lines to the NPT 1/2" inlets on the back of the shower panel. Ensure all connections are tight and leak-free.
6. **Hang the Shower Panel:** Carefully lift the shower panel and align it with the mounted brackets, securing it in place.
7. **Install Shower Head and Handheld Shower:** Attach the 9-inch top shower head to the adjustable arm and connect the handheld shower and its bracket.
8. **Test for Leaks:** Slowly turn on the main water supply and check all connections for any leaks.

5. OPERATING INSTRUCTIONS

The MENATT Shower Panel offers multiple functions for a customized showering experience. To ensure sufficient water pressure, only one function can be used at a time.

Function Selection:

Use the control knobs on the panel to select your desired water outlet. Rotate the knobs to switch between the following functions:

- **Rainfall Shower Head:** Provides a wide, drenching shower experience from above. The shower arm can be vertically adjusted for height.
- **Body Massage Jets:** Six adjustable jets deliver a powerful, targeted massage. Rotate the individual jet nozzles to adjust the spray direction.
- **Handheld Shower:** Ideal for focused rinsing or cleaning. Detach from its bracket for flexible use.

- **Tub Spout:** Located at the bottom of the panel, used for filling a bathtub or bucket.

Temperature Control:

Use the main mixing valve knob to adjust the water temperature to your preference. The integrated digital display provides a real-time temperature reading to help you achieve the desired comfort level.

6. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your MENATT Shower Panel Tower System.

Cleaning the Surface:

- Clean the stainless steel surface with a soft cloth and mild soap or a non-abrasive stainless steel cleaner.
- Wipe dry immediately after cleaning to prevent water spots.

- Avoid using abrasive sponges, harsh chemicals, or acidic cleaners, as these can damage the brushed finish.

Nozzle Maintenance:

- Periodically inspect the nozzles on the shower head and body jets for mineral buildup.
- Gently rub the rubber nozzles to dislodge any mineral deposits. For stubborn buildup, a solution of white vinegar and water can be applied, then rinsed thoroughly.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your shower panel. For problems not listed here, please contact customer support.

Problem	Possible Cause	Solution
Low Water Pressure from a specific function	Multiple functions are active simultaneously; kinked hose; mineral buildup in nozzles.	Ensure only one function is selected at a time. Check for kinks in the hose. Clean shower head and jet nozzles as per maintenance instructions.
Temperature display is dim or not working	Battery issue; internal connection problem.	Check battery installation and replace if necessary. If the issue persists, contact customer support.
Water leaks from connections	Loose connections; damaged seals/washers.	Ensure all NPT 1/2" connections are tightened securely. Inspect and replace any damaged washers or seals.
Rainfall shower head sprinkles or has uneven flow	Mineral buildup in nozzles; low water pressure.	Clean the nozzles of the rainfall shower head. Verify adequate water pressure to the unit.

8. SPECIFICATIONS

Detailed technical specifications for the MENATT Shower Panel Tower System.

Feature	Specification
Model Number	MTT50908623
Panel Material	SUS304 Stainless Steel
Faucet Body Material	Brass
Finish Type	Brushed (Fingerprint-free)
Color	Matte Black
Mounting Type	Wall Mount
Tube Connection	NPT 1/2"
Rainfall Shower Head Size	9 inches
