SAFETY WARNINGS

This desk is electric and height-adjustable. Follow all assembly and usage instructions carefully.

- Do not overload the desk. The maximum load capacity is 70 kg.
- Keep the desk away from excessive heat and moisture sources.
- Do not use the desk if you find any defects or damage to the structure or electrical components.
- Ensure all cables are properly managed to prevent tripping hazards or damage.
- Keep children and pets away from the desk during operation.

SETUP AND ASSEMBLY

The assembly process for your SANODESK electric standing desk is designed to be straightforward and can typically be completed in about thirty minutes.

Quick Assembly

Montaje Rápido

Image: The desk in both sitting and standing configurations, highlighting its ergonomic flexibility.

Control Panel and Memory Function

The intuitive control panel allows you to effortlessly modify and store your preferred desk height settings.

- **LED Display:** Shows the current desk height.
- **Up/Down Arrows:** Adjust the desk height manually.
- **Sit/Stand Buttons:** Quickly switch between pre-set sitting and standing heights.
- **Memory Function (1-4):** Store up to four preferred height settings for quick recall.

MAINTENANCE

To ensure the longevity and optimal performance of your SANODESK electric standing desk, follow these maintenance guidelines:

- **Cleaning:** Wipe the desk surface and frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cable Inspection:** Periodically check all cables for wear, fraying, or damage. Ensure they are securely connected and properly managed.
- **Motor Care:** The electric motor is designed for durability. Avoid obstructing the desk's movement or placing excessive weight on it, which could strain the motor.
- **Environmental Conditions:** Keep the desk in a dry environment and avoid direct exposure to sunlight or extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your SANODESK electric standing desk, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Desk does not move.	Power cable disconnected, overload, motor error.	Check power connection. Reduce weight on desk. Perform a reset (see below).
Uneven movement or shaking.	Uneven load, loose screws, floor instability.	Distribute weight evenly. Check and tighten all assembly screws. Ensure desk is on a flat surface.
Memory function not working.	Incorrect programming, power interruption.	Reprogram the memory settings according to the operating instructions.

Reset Procedure

If the desk encounters an error or stops responding, a reset may resolve the issue.

1. Unplug the power cord from the wall outlet.

2. Wait for at least 30 seconds.
3. Plug the power cord back into the wall outlet.
4. Press and hold the "Down" arrow button until the desk reaches its lowest position and slightly rebounds. Release the button.
5. If the issue persists, contact customer support.
