

Brigii ice cube tray IC01

Brigii Ice Cube Tray with Lid & Bin User Manual

Model: ice cube tray IC01

1. PRODUCT OVERVIEW

The Brigii Ice Cube Tray system is designed for convenient ice making and storage. It includes two stackable ice trays with easy-release silicone bottoms and a transparent ice storage container with a dustproof lid. An ice scoop is also provided for hygienic ice retrieval. This compact system efficiently utilizes freezer space and is made from food-grade, BPA-free materials.

Figure 1: Overview of the Brigii Ice Cube Tray system, showing the lid, two ice trays, and the storage bin with ice cubes.

2. COMPONENTS

The Brigii Ice Cube Tray system consists of the following parts:

- **Ice Tray Lid:** Made from PET, designed to cover the ice trays.
- **Ice Trays (x2):** Made from PP+TPE, each with 56 compartments and a silicone bottom for easy release.
- **Ice Storage Box:** Made from PET, a transparent container for collecting and storing ice cubes.
- **Ice Scoop:** Made from PP, for convenient and hygienic ice retrieval.

Safe Food-Grade Materials

Ice Tray Lid: PET

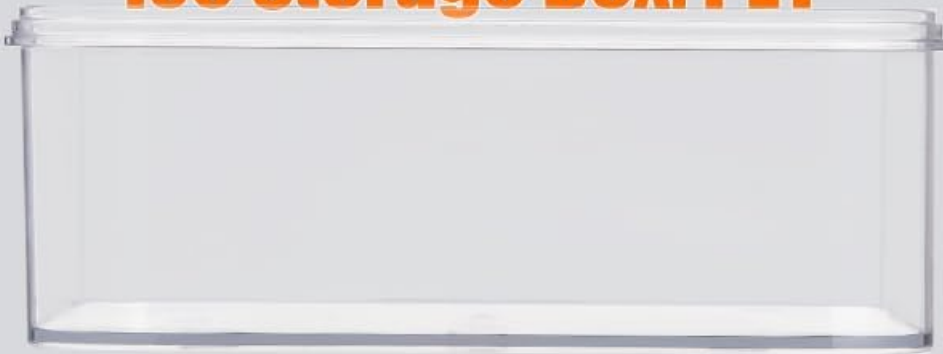

BPA FREE

Ice Tray: PP+TPE ↑↓

Ice Storage Box: PET

Ice Scoop: PP

Figure 2: Breakdown of components and their respective food-grade materials, including PET, PP, and TPE.

3. SETUP

Before first use, wash all components with warm water and mild soap. Rinse thoroughly and dry. Ensure all parts are completely dry before assembly and use.

1. Place one ice tray onto the ice storage box.
2. Fill the ice tray with water or your desired beverage. Do not overfill to prevent spillage and allow for ice expansion.
3. Place the second ice tray on top of the first, aligning it properly.
4. Cover the top ice tray with the provided lid.

- Carefully place the assembled unit into your freezer.

Brigii Ice Cube Tray vs Traditional Ice Grid

Figure 3: Visual guide for the initial setup process, including filling the tray, covering, and placing in the freezer.

4. OPERATING INSTRUCTIONS

Follow these steps to efficiently make and release ice cubes:

- Ensure the ice is fully frozen. Freezing overnight is recommended for optimal results.
- Remove the ice cube tray assembly from the freezer.
- Remove the lid.
- Invert the frozen ice tray directly onto the ice storage box.
- Apply firm, even pressure downwards on the top of the inverted tray. The silicone bottom will flex, releasing the ice cubes into the storage box below. *(Tip: Gently twist the ice tray slightly before pressing to facilitate easier release.)*
- Repeat for the second tray if desired.
- Use the provided ice scoop to retrieve ice cubes from the storage box.

Zero Contact with Ice Cubes

Press for instant ice cube release

Figure 4: Demonstration of the easy-release mechanism, showing how to press the tray to drop ice cubes into the bin.

Figure 5: Using the ice scoop to transfer ice cubes from the storage bin to a beverage glass.

5. MAINTENANCE AND CARE

Proper care will extend the life of your Brigii Ice Cube Tray system:

- **Cleaning:** Hand wash all components with warm water and mild dish soap. Rinse thoroughly to remove all soap residue.
- **Drying:** Ensure all parts are completely dry before reassembling or storing to prevent water spots or odors.
- **Dishwasher Safety:** This product is **not** dishwasher safe. Hand washing is required.
- **Storage:** Store the components stacked neatly in the freezer or a cabinet when not in use. The stackable design

helps save space.

- **Material Care:** Avoid using abrasive cleaners or scouring pads, as these can scratch the surfaces of the trays and bin.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Ice cubes are difficult to release.	<ul style="list-style-type: none">◦ Tray might be slightly overfilled.◦ Not enough pressure applied during release.◦ Tray not twisted before pressing.	<ul style="list-style-type: none">◦ Ensure not to overfill the compartments.◦ Apply firm, even pressure across the entire surface of the inverted tray.◦ Gently twist the tray before pressing down to loosen the cubes.
Ice cubes stick together in the storage bin.	<ul style="list-style-type: none">◦ Residual water on cubes or in bin.◦ High humidity in freezer.	<ul style="list-style-type: none">◦ Ensure cubes are fully frozen and dry before releasing.◦ Ensure the lid is properly sealed on the storage bin.
Unpleasant odor from trays.	<ul style="list-style-type: none">◦ Improper cleaning or storage.◦ Absorption of freezer odors.	<ul style="list-style-type: none">◦ Wash thoroughly with warm soapy water and rinse well.◦ Store with the lid on to prevent odor absorption.◦ Consider placing an open box of baking soda in your freezer to absorb odors.

7. SPECIFICATIONS

Brigii Mini Vacuum User Guide Y120 Pro

Before using the product, please read the user guide carefully, and strictly follow the requirements of the user guide. After reading, please keep it properly for future reference.

Brigii

Important safety instructions

TO AVOID SAFETY ACCIDENTS OR MACHINE FAILURE, BASIC SAFETY PRECAUTIONS SHOULD ALWAYS BE FOLLOWED WHEN USING YOUR BRIGII CORDLESS VACUUM CLEANER, INCLUDING THE FOLLOWING:

1. Please use the product as a toy. Be sure to pay attention when it is used or stored. Please do not allow the children and make sure they follow the instructions as they.
2. Keep your hair, loose clothing, fingers and body parts away from the rotating brush. Do not operate or store and make sure to use and put it in the mouth.
3. Do not put hands in the machine or inside. Never use the machine when the power cable is plugged, remove dust, cord, hair, or other items that may block the flow.
4. Turn off the vacuum cleaner before removal or installation of the filter.
5. The filter should be cleaned at least once a month, and should be replaced in a year when there is obvious dust on the filter.
6. The vacuum cleaner shall not be operated when the filter is not installed properly.
7. Before use, check the filter for proper installation or damage.
8. Avoid use, approaching high temperature objects, and disassemble the weight.
9. Do not use with any flammable particles.
10. It is forbidden to smoke, charge objects, burning or spray objects (such as guns, paint, etc.) directly at the machine.
11. Please do not use the machine when the power cable is plugged in.

Brigii

Main Usage

3

Brigii

Function Description

1. Power switch: Press and hold to turn on, and press it again to turn off.
2. Handle: Three modes are available for replacement.
3. Handle maintenance: Handle to open the dust cap and take out the dust with water and dry it naturally.
4. When it is working or charging, it displays a red light. When it is fully charged, it shows a green light.

Troubleshooting

(Turn off the power before troubleshooting)

1. If the battery level is low, please charge the battery. If the battery is not charged, please check the battery status and replace the battery.
2. In case of reduced suction, check if the suction port/filter is clogged.
3. If the motor fails to operate, check if the switch is pressed or there is no power.
