Aechonow 24-inch Cat Tree Tower User Manual

Model: CTT00749A100

1. PRODUCT OVERVIEW

The Aechonow 24-inch Cat Tree Tower is designed to provide a comfortable and engaging space for cats of all sizes, from playful kittens to large adult cats. It features multiple levels, including spacious condos and a high perch, along with a durable scratching post to satisfy natural instincts.

2.2 Step-by-Step Assembly

- 1. Unpack Components:** Carefully remove all parts from the packaging. Verify all components listed in the instruction manual are present.
- 2. Assemble Base Structure:** Connect the base platforms and support posts using the provided screws and wrench. Ensure all connections are secure.

3. **Install Cat Condos:** Attach the two spacious cat condos to the main structure. These provide private resting areas for your cats.
4. **Attach Scratching Post:** Secure the 24-inch natural sisal scratching post to the designated area. This allows cats to stretch and scratch comfortably.
5. **Place Top Perch:** Position the large 19" x 16.5" top perch at the highest point of the tower. This offers a high-rise view for your cat.
6. **Add Plush Ball Toy:** Attach the spring-loaded plush ball toy to the base for added entertainment.

Assembly is typically completed within 30 minutes.

3. OPERATING AND USAGE

The Aecheonow Cat Tree Tower is designed for indoor use and offers multiple features to enhance your cat's environment.

- **High Perch:** The 19" x 16.5" top perch, located at 28 inches high, is ideal for large cats to stretch, nap, and observe their surroundings, especially near a window.

Large Platform for Large Cat 🐱

The top platform measures 19*16.5 inches, providing ample space for a large cat or 2 small cats

Image: A close-up of the spacious top platform, measuring 19 by 16.5 inches, designed to comfortably accommodate large cats or two small cats.

- **Spacious Condos:** Two 11.4"W x 15"D x 11.8"H cat condos provide private, secure hideaways where cats can rest and feel safe. These are sized to allow larger cats to turn around comfortably.

2 Large Cat Condos

Image: The cat tree featuring two large cat condos, each with dimensions of 11.4 inches wide, 15 inches deep, and 11.8 inches high, providing ample space for cats.

- **Scratching Post:** The 24-inch tall scratching post, made from 100% natural sisal, encourages healthy scratching habits, protecting your furniture.

Extra Long Cat Scratching Post

for longer-bodied felines to stretch out and scratch in absolute bliss

24 inch

Image: A cat actively using the 24-inch extra-long scratching post, demonstrating its suitability for full-body stretching and scratching.

- **Plush Ball Toy:** A spring-mounted plush ball provides an interactive element for playful cats.

More Fun-Spring Plush Ball

Image: A cat engaging with the spring-loaded plush ball toy attached to the base of the cat tree, highlighting an interactive play feature.

- **Stability:** The 18" x 15.7" base ensures stability, supporting cats weighing 20 lbs or more without tipping.

Large & Stable Base

Image: A cat jumping on the cat tree, illustrating the large and stable base (18" x 15.7") that prevents tipping during active play.

4. MAINTENANCE

Proper maintenance will extend the life of your Aechonow Cat Tree Tower.

- **Cleaning:** The plush material should be **hand washed only**. Use a mild detergent and cold water. Do not machine wash or tumble dry.
- **Spot Cleaning:** For small spills or stains, use a damp cloth with a pet-safe cleaner. Blot the area gently and allow

it to air dry completely.

- **Vacuuming:** Regularly vacuum the plush surfaces to remove loose fur and dust.
- **Inspect for Wear:** Periodically check all connections and components for any signs of wear or loosening. Tighten screws as needed to maintain stability.

5. TROUBLESHOOTING

If you encounter any issues with your cat tree, consider the following common solutions:

Problem	Possible Cause	Solution
Cat tree feels wobbly.	Loose connections or uneven placement.	Ensure all screws are tightened securely. Place the cat tree on a flat, stable surface.
Cat is not using the scratching post.	Prefers other scratching surfaces or needs encouragement.	Sprinkle catnip on the scratching post. Gently guide your cat's paws to the post. Place the tree in a prominent area your cat frequents.
Cat is not using the condos/perch.	Unfamiliarity or preference for other resting spots.	Place familiar blankets or toys inside the condos. Use treats to encourage exploration. Ensure the location is quiet and feels safe for your cat.

6. SPECIFICATIONS
