## SHA CERLIN XH-8931-OGQ

# SHA CERLIN Queen Platform Bed Frame Instruction Manual

Model: XH-8931-OGQ

## INTRODUCTION

Thank you for choosing the SHA CERLIN Queen Platform Bed Frame. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## SAFETY INFORMATION

- Always assemble the bed frame on a soft, clean surface to prevent damage.
- Ensure all parts are present and undamaged before assembly. Do not use if any parts are missing or broken.
- It is recommended that two adults assemble this bed frame.
- Do not overtighten screws during initial assembly; finger-tighten first, then fully tighten once all components are aligned.
- Ensure all bolts are securely tightened before using the bed. Periodically check and retighten all connections.
- Do not exceed the maximum weight capacity of 1000 pounds.
- Keep small parts away from children during assembly to prevent choking hazards.

## PACKAGE CONTENTS

The SHA CERLIN Queen Platform Bed Frame is designed for convenient shipping, with all components packed in a single box. Please verify that all items listed below are present:

- Headboard
- Side Panels (Left and Right)
- Footboard
- Center Support Beam

- Wooden Slats
- Support Legs
- Hardware Pack (screws, bolts, Allen key)

## SETUP AND ASSEMBLY

Follow these steps for a smooth assembly process. A clear, open space is recommended.

1. **Unpack Components:** Carefully remove all components and tools from the box. Lay them out on a soft surface to prevent scratches.
2. **Attach Side Panels to Headboard:** Connect the left and right side panels to the headboard using the provided screws and tools. *Important: Finger-tighten all bolts initially to allow for adjustments.*
3. **Assemble Frame:** Attach the footboard to the side panels, forming the complete bed frame. Again, finger-tighten all bolts.
4. **Install Center Support:** Secure the center support beam to the frame.
5. **Place Slats:** Lay the wooden slats across the frame. Many slats feature Velcro strips for secure attachment to the frame.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts using the provided Allen key or an electric drill (use caution not to overtighten).
7. **Attach Support Legs:** Screw in the support legs to the designated points on the frame.
8. **Final Checks:** Ensure the bed frame is stable and level.

Video: An assembly tip demonstrating how to finger-tighten bolts first for proper alignment before fully securing them.

## OPERATING INSTRUCTIONS

This platform bed frame is designed to support your mattress directly, eliminating the need for a box spring. Simply place your Queen size mattress (recommended 10-14 inches in height) onto the secured wooden slats.

Image: Recommended mattress height for optimal comfort and aesthetic.

## MAINTENANCE

- **Cleaning:** For the upholstered headboard and frame, gently spot clean with a damp cloth and mild detergent if necessary. Avoid harsh chemicals.
- **Regular Checks:** Periodically inspect all bolts and connections to ensure they remain tight. Retighten as needed to maintain stability and prevent squeaking.
- **Avoid Excessive Force:** Do not jump on the bed or apply excessive force, as this can damage the frame and slats.

## TROUBLESHOOTING

- **Squeaking/Wobbling:** This is most commonly caused by loose bolts. Re-check and tighten all connections, especially those connecting the headboard, side rails, and center support.
- **Slats Shifting:** Ensure the Velcro strips on the slats are properly aligned and adhered to the frame. If slats are

damaged, contact customer support for replacements.

- **Difficulty Aligning Parts:** If parts are not aligning, loosen all bolts slightly, adjust the components until they fit correctly, then fully tighten. Refer to the assembly video for a visual guide.

## SPECIFICATIONS

Feature	Detail
Brand	SHA CERLIN
Model Number	XH-8931-OGQ
Size	Queen
Product Dimensions	81.7"L x 63.4"W x 44.9"H
Material	Linen Fabric, Metal Frame, Wooden Slats
Color	Orange
Weight Capacity	1000 lbs
Ground to Item Distance	6.3 Inches
Assembly Required	Yes
Box Spring Needed	No (Optional)
Special Features	Fade Resistant, Squeak Resistant

# PRODUCT INFORMATION

## Material

Linen Fabric  
Metal Frame  
Wooden Slats

## Dimensions

L x W x H  
81.7" x 63.4" x 44.9"
