SETUP & ASSEMBLY

Assembly of the SHA CERLIN bed frame is designed to be straightforward. Follow the included instructions carefully. It is recommended to finger-tighten all bolts first before fully securing them to ensure proper alignment of all parts.

Key Assembly Features:

- **Sturdy Construction:** The bed frame features a thick metal frame and solid wood slats for enhanced support and durability.
- **Noise-Free Design:** Metal beam support with EVA foam padding minimizes friction and prevents noise.
- **Powerful Velcro:** Slats are secured with powerful Velcro for easy and stable installation.

USAGE & CARE

This bed frame is compatible with King size mattresses measuring 80"L x 76"W. A box spring is optional as the solid wooden slats provide ample support for latex, memory foam, or hybrid mattresses.

Recommended Mattress Height:

- For optimal aesthetic and comfort, a mattress height of 10-14 inches is recommended.
- If using a box spring, ensure the combined height of the mattress and box spring is within 10-14 inches.

TROUBLESHOOTING

- **Squeaking Noises:** Ensure all bolts are fully tightened. The bed frame is designed with EVA foam padding to prevent squeaking. If noises persist, re-check all connections.
- **Parts Not Aligning During Assembly:** If parts do not align, loosen all bolts slightly, adjust the components to fit, and then fully tighten all bolts. Avoid overtightening any single bolt before all parts are in place.
- **Mattress Shifting:** The bed frame includes powerful Velcro to help secure the slats and prevent mattress movement. Ensure the mattress is properly seated on the slats.
