### 3. SETUP

1. **Initial Placement:** Before using the refrigerator for the first time, leave it standing upright for at least 12 hours. This allows the compressor fluids to settle, ensuring proper operation.
2. **Cleaning:** Clean the inner compartment with a damp cloth before first use. Do not use corrosive liquids.
3. **Power Connection:**
  - **For Vehicle Use (12/24V DC):** Connect the DC power cable to the refrigerator's DC input port. Insert the cigarette lighter plug into your vehicle's 12V or 24V outlet.
  - **For Home/Outdoor Use (100-240V AC):** Connect the AC power cable to the refrigerator's AC input port. Plug the other end into a standard wall outlet.
4. **Power On:** Long-press the power button for 3 seconds to start the refrigerator.

## 8. TROUBLESHOOTING

---

If you encounter any issues with your EKOJUCE Portable Refrigerator, please refer to the following common problems and solutions:

- **Refrigerator does not work:**

- Check if the power is connected properly (ensure plug is secure and positive/negative poles are reversed if using DC).
- Check that the power button on the control panel is turned ON.
- Check if the fuse is blown.
- Check that the cooling ventilation is normal (not blocked).

- **Poor cooling performance:**

- Check that the lid is closed properly and the seal is not damaged or deformed.
- Check if there is poor ventilation around the fridge.
- Check that the temperature is set properly.

- **Abnormal noise:**

- Ensure the refrigerator is set on a flat, level surface.
- Check for vibrations in surrounding objects.
- Ensure parts inside the refrigerator have not come loose or fallen off.

- **Refrigerator condensation:**

- It is normal for some condensation to collect on the surface of the refrigerator when humidity is more than 75%.

## 9. MAINTENANCE

---

- **Regular Cleaning:** Clean the inner compartment regularly to prevent bacteria and odors from forming, and to ensure food safety.
- **Long-Term Storage:** When the refrigerator will not be used for a long time, please disconnect the power supply and keep the refrigerator dry.
