MVTAG B0CRKBPBW3

MVTAG Tag Bluetooth Tracker User Manual

Model: B0CRKBPBW3

INTRODUCTION

The MVTAG Tag is a compact and efficient Bluetooth tracker designed to help you keep track of your valuable items. Utilizing the Find My app, it provides real-time location tracking, instant disconnection notifications, and NFC capabilities for easy retrieval. This manual provides comprehensive instructions for setting up, operating, maintaining, and troubleshooting your MVTAG Tag.

Image: The MVTAG Tag in both black and white colors, showcasing its sleek, circular design with a small loop for attachment. The "MVTAG" logo and "OPEN" indicator are visible on the front surface.

SAFETY INFORMATION

- Keep the device away from extreme temperatures and direct sunlight.
- Do not attempt to disassemble or modify the MVTAG Tag, as this will void the warranty and may cause damage.
- Ensure the battery compartment is securely closed to maintain water resistance.
- Dispose of batteries responsibly according to local regulations.
- This device is not a toy and should be kept out of reach of small children.

PACKAGE CONTENTS

Please check the package for the following items:

- 1 x MVTAG Tag Bluetooth Tracker (White)
- 1 x CR2032 Battery (pre-installed or included separately)
- 1 x User Manual (this document)

SETUP

-
1. **Insert Battery:** If the battery is not pre-installed, gently twist the back cover of the MVTAG Tag counter-clockwise to open. Insert the CR2032 battery with the positive (+) side facing up. Close the cover by aligning the marks and twisting clockwise until secure.
 2. **Activate MVTAG Tag:** Press and hold the button on the MVTAG Tag for a few seconds until you hear a beep, indicating it is powered on and ready for pairing.
 3. **Open Find My App:** On your Apple device (iPhone, iPad, or Mac), open the "Find My" application.
 4. **Add Item:** Navigate to the "Items" tab and tap the "+" icon. Select "Add Other Item."
 5. **Pair Device:** Your device will begin searching for nearby items. When "MVTAG Tag" appears in the list, select it to pair. Follow the on-screen prompts to name your item and assign an emoji.
 6. **Enable Lost Mode (Optional):** Within the Find My app, you can enable Lost Mode for your MVTAG Tag. This allows anyone who finds your lost tag to tap their NFC-enabled device against it to access contact information you provide.

OPERATING INSTRUCTIONS

Tracking Your Items

The MVTAG Tag leverages the Apple Find My network to help you locate your belongings.

- **Locate Nearby:** If your MVTAG Tag is within Bluetooth range (approximately 200 feet), open the Find My app, select your item, and tap "Play Sound" to make the tag emit an audible alert.
- **Locate Far Away:** If your MVTAG Tag is out of Bluetooth range, the Find My app will display its last known location on a map. You can use the map navigation feature to guide you to its general vicinity.

ONE-TOUCH NAVIGATION FOR GREATER CONVENIENCE

Cell phone one key to find the location of love pets
Intelligent real-time positioning, stable signal

Image: A smartphone screen showing a map interface with a navigation path, illustrating how the MVTAG Tag can be located using the Find My app, even when attached to a pet.

Left Behind Remind Feature

Receive instant notifications on your Apple device if your MVTAG Tag disconnects from its Bluetooth connection. This feature helps prevent you from leaving important items behind.

Image: The black and white MVTAG Tags are displayed, emphasizing the ease of finding items and the benefit of not losing belongings, supported by the "Left Behind Remind" feature.

NFC Contact Information Access (Lost Mode)

If your MVTAG Tag is found by someone, they can tap their NFC-enabled smartphone against the tag to view the contact information you have pre-set in the Find My app's Lost Mode. This facilitates the safe return of your item.

Versatile Applications

The MVTAG Tag is suitable for a wide range of items, including but not limited to:

- Keys
- Luggage and Backpacks
- Wallets
- Pets (attach securely to collar)
- Bags and Purses
- Remote Controls

SUITABLE FOR A WIDE RANGE OF APPLICATIONS

Unlimited occasions, any search, easy to track items

Image: A visual representation of the MVTAG Tag's diverse applications, including tracking luggage, children's belongings, items for the elderly, and pets, highlighting its versatility.

MAINTENANCE

- **Cleaning:** Wipe the MVTAG Tag with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** The CR2032 battery typically lasts for one year. When the battery is low, the Find My app will notify you. To replace, twist the back cover counter-clockwise, remove the old battery, insert a new CR2032 battery with the positive (+) side up, and securely close the cover.
- **Water Resistance:** The MVTAG Tag has an IP67 water-resistant rating, meaning it can withstand splashes, rain, and brief submersion. However, it is not designed for prolonged submersion or high-pressure water jets. Ensure the battery cover is always securely fastened to maintain water resistance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
MVTAG Tag not pairing.	Battery low or not inserted correctly; device not in pairing mode; too far from Apple device.	Ensure battery is new and correctly inserted. Press and hold the button on the tag to activate pairing mode. Bring the tag closer to your Apple device.
No sound when playing alert.	Tag is out of Bluetooth range; battery is dead.	Check the map for its last known location. Replace the battery if necessary.
"Left Behind Remind" not working.	Feature not enabled in Find My app; app permissions not granted.	Verify "Notify When Left Behind" is enabled for the MVTAG Tag in the Find My app settings. Ensure Find My has necessary location permissions.
NFC contact information not displaying.	Lost Mode not enabled; NFC not active on scanning device; incorrect tapping position.	Enable Lost Mode and input contact details in the Find My app. Ensure the scanning device has NFC enabled and is tapped directly onto the MVTAG Tag.
