## Breezary 52 Inch 5-Blade Ceiling Fan with LED Lights

# Breezary 52 Inch 5-Blade Ceiling Fan with LED Lights Instruction Manual

Model: 52 Inch 5-Blade Ceiling Fan with LED Lights

## 1. IMPORTANT SAFETY INSTRUCTIONS

Please read and understand all instructions before beginning installation. Failure to follow these instructions may result in electric shock, fire, or personal injury.

- **Electrical Safety:** All electrical connections must be made in accordance with local codes, ordinances, and the National Electric Code (NEC). If you are unfamiliar with electrical wiring, consult a qualified electrician.
- **Mounting:** Ensure the ceiling fan is securely mounted to a structural ceiling joist or an outlet box marked "Acceptable for Fan Support of 35 lbs (15.9 kg) or less."
- **Blade Clearance:** Maintain a minimum clearance of 7 feet from the floor to the fan blades. Ensure blades do not obstruct any objects or walls.
- **Power Disconnection:** Always disconnect power at the circuit breaker or fuse box before installing, cleaning, or servicing the fan.
- **Remote Control:** Keep the remote control out of reach of children. Do not mix old and new batteries.

## 2. PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- 1 x 52 Inch 5-Blade Ceiling Fan Unit
- 1 x Remote Control (Batteries NOT INCLUDED)
- 1 x Downrod (5 inches)
- 1 x User Manual
- Mounting Hardware Kit

*Image: Detailed view of the ceiling fan's main components and included accessories.*

### 3. SETUP AND INSTALLATION

Installation of this ceiling fan requires basic electrical knowledge. It is recommended to have the fan installed by a qualified electrician for safety.

#### 3.1 Pre-Installation Checks

- Ensure power is disconnected at the main circuit breaker.
- Confirm the mounting location can support the fan's weight (approximately 10.4 lbs).

#### 3.2 Mounting Options

The fan is designed for downrod mounting and includes a 5-inch downrod. It is also compatible with sloping ceilings up to 15 degrees.

- **Standard Downrod Mount:** Use the provided 5-inch downrod for standard ceiling installations.
- **Sloping Ceiling Mount:** The fan can be installed on ceilings with an incline of up to 15 degrees. Ensure the

canopy is adjusted to maintain proper clearance.

### 3.3 Assembly Steps

Most functional components are pre-assembled. Follow the detailed diagrams in the included user manual for specific wiring and assembly steps.

1. Attach the mounting bracket to the ceiling outlet box.
2. Assemble the downrod and hang the motor assembly onto the mounting bracket.
3. Make electrical connections as per the wiring diagram in the manual.
4. Attach the fan blades to the motor housing.
5. Install the LED light kit and lampshade.
6. Secure the canopy to cover the wiring.

## 4. OPERATING INSTRUCTIONS

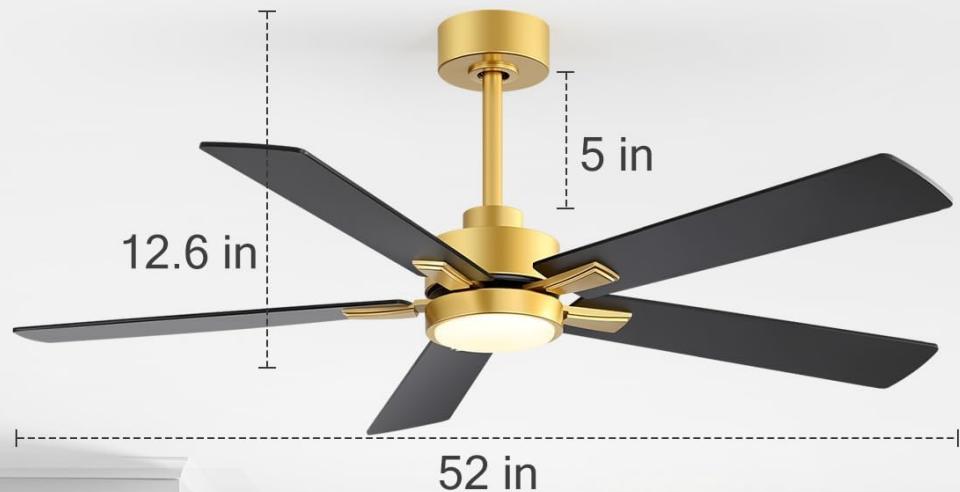

The Breezary ceiling fan is operated using the included remote control.

#### 4.1 Remote Control Functions

Insert 2 AAA batteries (not included) into the remote control. The remote allows independent control of the fan and light.

- **Fan ON/OFF:** Powers the fan on or off.
- **Fan Speed:** Select from 6 adjustable wind speeds.
- **Light ON/OFF:** Powers the LED light on or off.
- **Color Temperature:** Cycle through 3 color temperatures (3000K Warm White, 4000K Natural White, 5000K Cool White).
- **Timer:** Set the fan to turn off after 1, 4, or 8 hours.
- **Forward/Reverse:** Changes the direction of blade rotation.

## 52 INCH SILENT CEILING FAN

Motor Type: DC

Fan Speed: 6 Speeds

Weight: 10.4LBS

Shade Material: Acrylic

Light Type: LED

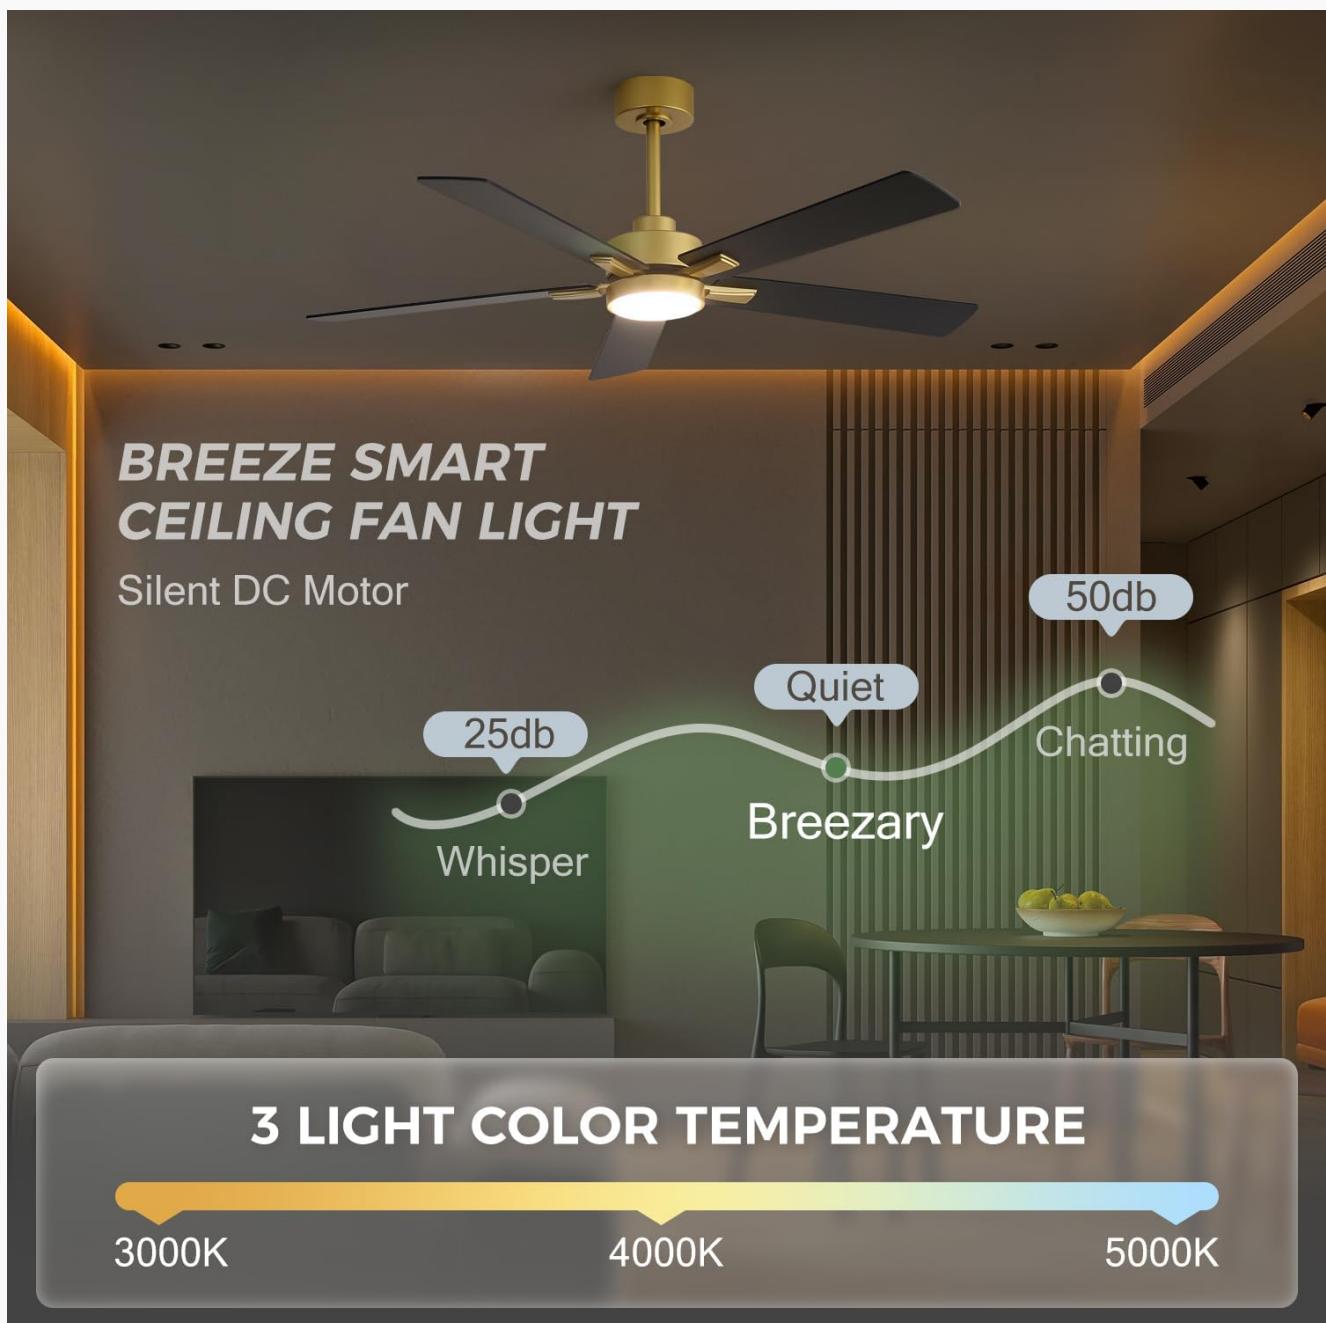

Mouting Option: Flat / Slop( $\leq 12^\circ$ )

*Image: Overview of the multi-function remote control.*

#### 4.2 Reversible DC Motor

The fan features a reversible DC motor for year-round comfort.

- **Summer Mode (Downward Airflow):** Blades rotate counter-clockwise to create a downward breeze, providing a cooling effect.
- **Winter Mode (Upward Airflow):** Blades rotate clockwise to draw cool air up and circulate warm air trapped near the ceiling, enhancing room warmth.

*Image: Visual explanation of reversible motor function for seasonal use.*

#### 4.3 Light Color Temperature Memory

The LED light kit has a memory function for its color temperature setting.

1. Select your desired color temperature using the remote.
2. Turn off the light and wait for more than 15 seconds.
3. Turn on the lights; they will resume the previously set color temperature.

**Note:** If the light is turned on again within 15 seconds of turning it off, the color temperature will switch to the next setting.

**1** Select your desired color temperature.

**2** Turn off the light and wait for more than 15 seconds.

**3** Turn on the lights  
Lights stay at previous settings.

Ensure that the light is turned off for **15 seconds** or more! If you turn on the light again within **15 seconds** of turning it off, the color temperature of the light will switch.

*Image: Steps for utilizing the light color temperature memory feature.*

## 5. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

### 5.1 Cleaning

- **Power Off:** Always ensure power is disconnected before cleaning.
- **Blades:** Wipe fan blades with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Motor Housing:** Clean the motor housing with a soft, dry cloth.
- **Light Kit:** Gently wipe the acrylic lampshade with a soft, dry or slightly damp cloth.

### 5.2 LED Light Kit Replacement

The integrated 18W LED light board is replaceable. Contact customer support for replacement parts and instructions if needed.

*Image: Detail of the replaceable LED light kit.*

## 6. TROUBLESHOOTING

Refer to this section for common issues and their solutions.

| Problem                    | Possible Cause  | Solution  |
|----------------------------|---|---|
| Fan does not start         | No power to the fan; Loose wire connections; Remote control battery low/dead. | Check circuit breaker/fuse; Verify all wire connections are secure; Replace remote control batteries.             |
| Fan makes noise            | Loose screws; Blades unbalanced; Motor housing not properly secured.          | Tighten all screws; Balance blades using a balancing kit (not included); Ensure motor housing is firmly attached. |
| Light does not work        | Loose wire connection; Faulty LED light kit; Remote control battery low/dead. | Check light kit wiring; Contact customer support for LED replacement; Replace remote control batteries.           |
| Remote control not working | Batteries dead or incorrectly inserted; Remote not paired with fan.           | Replace batteries, ensuring correct polarity; Refer to manual for remote pairing instructions.                    |

## 7. SPECIFICATIONS

Key technical specifications for the Breezary 52 Inch 5-Blade Ceiling Fan with LED Lights.

| Feature             | Specification   |
