Joyside 12'x16' Double-Tier Hardtop Gazebo

Joyside 12'x16' Double-Tier Hardtop Gazebo User Manual

Model: 12'x16' Double-Tier Hardtop Gazebo

Brand: Joyside

INTRODUCTION

Thank you for choosing the Joyside 12'x16' Double-Tier Hardtop Gazebo. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new gazebo. Designed with a galvanized double steel roof for enhanced air circulation and wind resistance, this gazebo offers a durable shelter for various outdoor activities. It features built-in ceiling hooks for decorations or fans, and includes zippered privacy curtains and mosquito netting for comfort and protection. Please read this manual thoroughly before beginning assembly or use.

SAFETY INFORMATION

- Always follow all assembly instructions carefully.
- Ensure all bolts and fasteners are securely tightened before use.
- Do not hang excessive weight from the ceiling hook; refer to the maximum weight capacity.
- In strong winds or heavy snow, it is recommended to remove the curtains and netting and, if possible, disassemble the gazebo to prevent damage.
- Regularly inspect the structure for any signs of wear, damage, or loose connections.
- Keep children and pets away from the assembly area.
- Do not use open flames or heating appliances inside the gazebo.

COMPONENTS OVERVIEW

Your Joyside Gazebo includes the following main components:

- Galvanized Double Steel Roof Panels
- Powder-Coated Aluminum Posts and Frame Structure
- Privacy Curtains with Zippers
- Mosquito Netting with Zippers
- Built-in Ceiling Hook
- Anchoring Stakes and Hardware

Product Dimension

SETUP GUIDE

Assembly of the Joyside Gazebo typically requires two or more adults. Follow the detailed instructions provided in the separate assembly manual included with your product packaging. Key steps include:

- 1. Site Preparation:** Choose a level, stable surface for installation. Ensure adequate clearance around the gazebo.
- 2. Frame Assembly:** Connect the aluminum posts and frame components according to the numbered parts and diagrams. Ensure all connections are secure.
- 3. Roof Installation:** Carefully attach the galvanized steel roof panels. The double-tier design allows for improved ventilation.
- 4. Curtain and Netting Attachment:** Install the privacy curtains and mosquito netting onto the double-track system.
- 5. Anchoring:** Utilize the provided anchoring stakes with pre-drilled holes to secure the gazebo to the ground. This is crucial for stability, especially in windy conditions.

Sturdy Triangular Structure

Triangle metal braces make the whole structure more stable and sturdy

OPERATING INSTRUCTIONS

Your gazebo is designed for ease of use and versatility:

- **Privacy Curtains & Mosquito Netting:** The gazebo is equipped with a double-track design, allowing you to adjust the privacy curtains and mosquito netting independently. Use the zippers to fully close for privacy and protection from insects and sun, or tie them back for an open feel.
- **Ceiling Hook:** The built-in ceiling hook is designed to support lamps, fans, or other decorative items. Ensure the total weight does not exceed the maximum capacity of 100 lbs.

Semi Open

max weight capacity: **100 lbs**

Privacy Curtains & Mosquito Netting

Zippered curtains and mosquito netting can provide good ventilation and personal privacy, free of annoying bites and scorching sunshine

Double-track Design

Double-track design allows curtains and nettings to be adjusted individually

Detailed view of key gazebo features, including the built-in ceiling hook for hanging items, the privacy curtains and mosquito netting in both semi-open and fully closed configurations, and the double-track design for independent adjustment.

MAINTENANCE

Regular maintenance will extend the life and appearance of your gazebo:

- **Cleaning:** Clean the galvanized steel roof and aluminum frame with mild soap and water. Rinse thoroughly with clean water. Avoid abrasive cleaners or harsh chemicals.
- **Fabric Care:** The privacy curtains and mosquito netting can be spot cleaned with mild soap and water. Allow them to air dry completely before storing or closing.
- **Inspection:** Periodically check all bolts, screws, and connections to ensure they remain tight. Inspect the roof panels and frame for any signs of damage or corrosion.
- **Winter Storage:** While the gazebo is designed to be durable, consider removing the curtains and netting during winter months or in areas with heavy snowfall to prevent damage.

Double Galvanized Steel Roof

Close-up of the double galvanized steel roof, highlighting its UV protected, rustproof, weather resistant, and ventilation properties. Also shows the powder-coated aluminum posts for enhanced durability.

TROUBLESHOOTING

- **Water Accumulation on Roof:** The gazebo features a drainage design to prevent water buildup. Ensure the gazebo is assembled on a level surface and that the roof panels are correctly installed to facilitate proper water runoff.
- **Gazebo Instability:** Verify that all frame connections are securely tightened. Ensure the anchoring stakes are fully engaged with the ground. If the ground is soft, consider additional anchoring methods.
- **Curtains/Netting Sticking:** Clean the tracks to remove any debris. Ensure the fabric is not caught or twisted.

Drainage Design

Combine slope roof and guttering system to prevent from rainwater accumulation and relieve the load-bearing pressure

Diagram demonstrating the integrated drainage design of the gazebo roof, showing how rainwater is channeled away to prevent accumulation and reduce load-bearing pressure.

SPECIFICATIONS
