3. FEATURES

- **High-Tensile S/S 304 Construction:** The step bars are manufactured from high-grade 304 stainless steel, meeting ASTM standards. The surface undergoes meticulous polishing using a high-speed rotating wheel and abrasive, enhancing its wear and corrosion resistance.
- **Streamlined Design:** Round truck side steps feature computer numerical control (CNC) with 90-degree bent ends, which aids in mud passage and provides protection. The design integrates with your truck's contours for an aerodynamic appearance.
- **Durable Step Pads:** The 3-inch injection-molded polymer step pads have undergone extensive testing, including 10,000 dynamic load trials, 24 hours of static load inspection, and 720 hours under Xenon lamp aging monitoring. These tests confirm minimal pedal surface drop and preservation of ground clearance.
- **Robust Mounting:** The running boards are designed for frame mounting and include all necessary brackets, bolts, and nuts for installation. No additional drilling is required if your vehicle has pre-existing mounting holes.

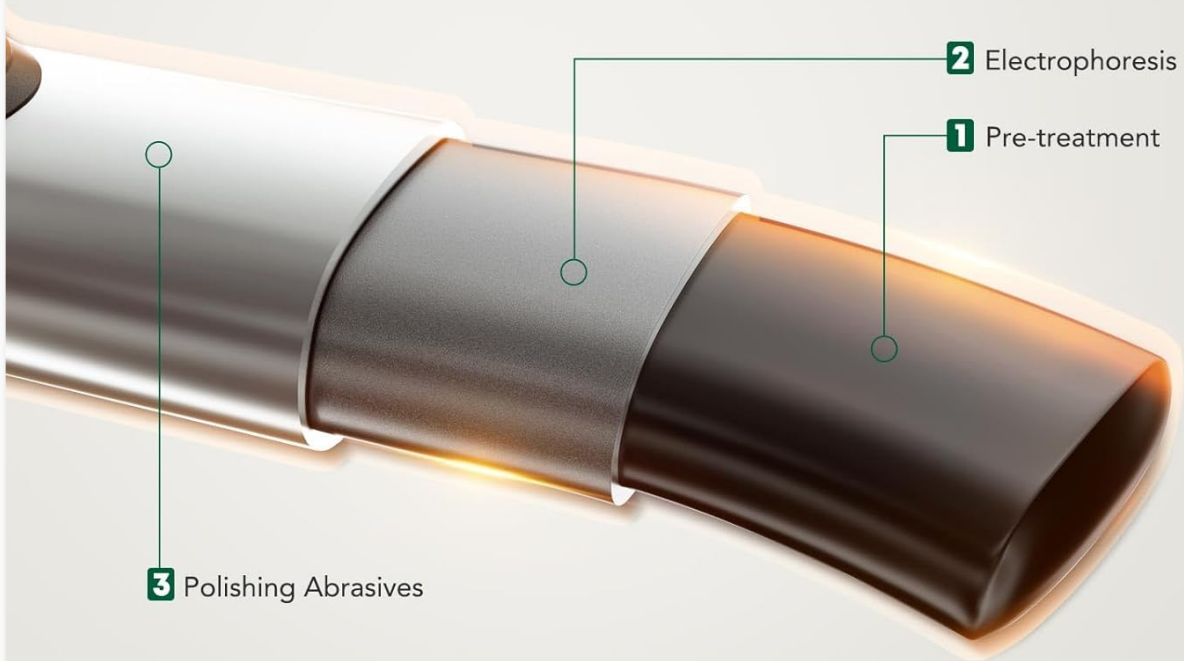

Injection-Molded Polymer Pads

- **Smooth Riding**
- **Easy Entry&Exit**

5. INSTALLATION

Follow these general steps for installing your YHTAUTO Running Boards. For detailed visual instructions, please refer to the installation video below.

1. Align and loosely fasten brackets to the vehicle's frame.
2. Click the running board onto the brackets.
3. Fully tighten all bolts to the specified torque.
4. Check door clearance and test step stability.

6. OPERATING AND USAGE

The running boards provide a stable platform to assist with vehicle entry and exit. Ensure your foot is placed firmly on the step pad when using. The robust design supports a weight limit of 660 pounds.

7. MAINTENANCE

To maintain the appearance and longevity of your running boards:

- Regularly clean the running boards with mild soap and water.
- Avoid abrasive cleaners or harsh chemicals that may damage the polished chrome finish or polymer step pads.
- Periodically inspect all mounting hardware for tightness and re-tighten if necessary.
- Check for any signs of wear or damage to the step pads or the main bar and address them promptly.

8. SPECIFICATIONS

Attribute	Detail
Brand	YHTAUTO
Model Number	YHTSBAR0038
Material	Stainless Steel (304 Grade)
Exterior Finish	Polished Chrome
Color	Chrome
Step Pad Material	Injection-Molded Polymer
Step Pad Width	3 Inches
Mounting Type	Frame Mount
Weight Limit	660 Pounds
Item Weight	46 pounds
Package Dimensions	91.73 x 15.35 x 7.48 inches

Premium Product Metrics

Step Pads

Length	Cab Length
Mounting	Body Mount
Materials	304 Stainless Steel
Design	Round Bent Ends

9. IMPORTANT NOTES & SAFETY

- Ensure the product is designed for your vehicle's specific make, model, year, and configuration before installation.
- During installation, perform a preliminary fastening first. After positioning and calibration, tighten all bolts securely.
- Always take proper precautions and pay particular attention to all cautions and warnings in your vehicle's owner's manual before beginning the installation.
- If you are uncertain about how to install the parts or lack the necessary experience, seek the help of a qualified technician.
- Periodically checking the condition of the parts and keeping them in top condition is highly recommended for safety and performance.

10. WARRANTY AND SUPPORT

For warranty information, technical support, or any inquiries regarding your YHTAUTO Running Boards, please refer to the contact information provided in your product packaging or visit the official YHTAUTO website.
