YHTAUTO YHTSBAR0076-P

YHTAUTO 3-Inch Running Boards Installation and User Manual

Model: YHTSBAR0076-P

INTRODUCTION

This manual provides comprehensive instructions for the safe and proper installation, operation, and maintenance of your YHTAUTO 3-inch running boards. Please read this manual thoroughly before beginning installation or use to ensure optimal performance and longevity of the product. Keep this manual for future reference.

PRODUCT OVERVIEW

The YHTAUTO 3-inch running boards are designed to provide convenient access to your vehicle and offer additional side protection. Crafted from high-strength Q235A steel, these running boards feature an electrophoretic layer and powder coating for enhanced durability and corrosion resistance. The injection-molded polymer step pads are engineered for comfort and safety.

Compatible with Cadillac Models:

Fits 2002-2018 Escalade

Compatible with GMC Models:

Fits 2000-2020 Yukon 1/2 Ton

Compatible with Chevrolet Models:

Fits 2000-2020 Tahoe Excl. 2002-2006 Z71 Model

COMPATIBILITY

These running boards are compatible with the following vehicle models:

- **Chevrolet Tahoe:** 2000-2020 (Excludes 2002-2006 Z71 Model)
- **GMC Yukon:** 2000-2020 (1/2 Ton models only)
- **Cadillac Escalade:** 2002-2018 (Sport Utility Vehicle models only)

Note: Not compatible with Denali and Yukon XL models.

Compatible with **Cadillac** Models:

Fits 2002-2018 Escalade

Compatible with **GMC** Models:

Fits 2000-2020 Yukon 1/2 Ton

Compatible with **Chevrolet** Models:

Fits 2000-2020 Tahoe Excl. 2002-2006 Z71 Model

SAFETY INFORMATION

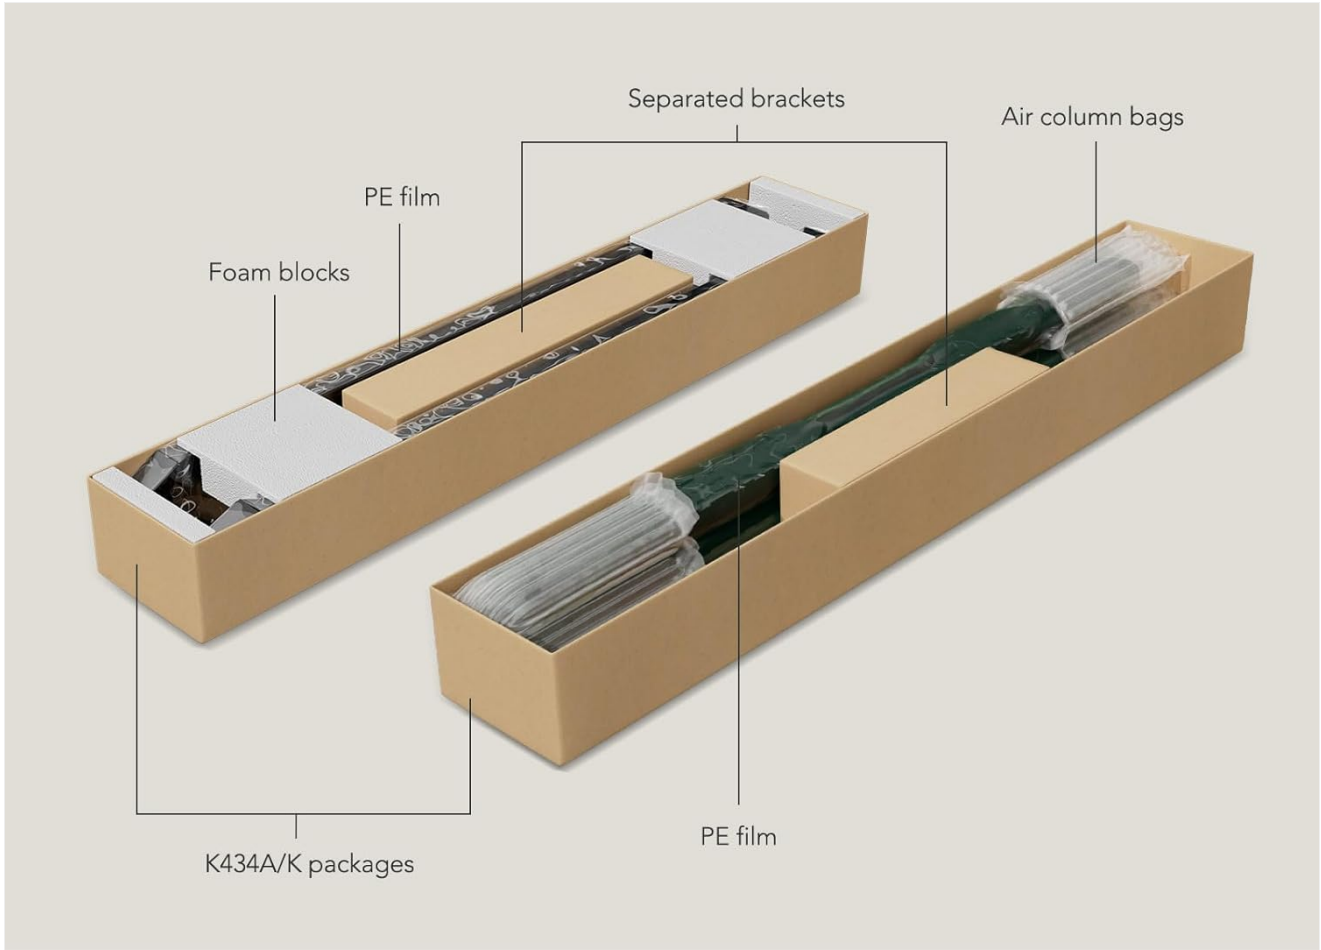

Please observe the following safety precautions:

- Always wear appropriate personal protective equipment (PPE) during installation.
- Ensure the vehicle is parked on a level surface and the parking brake is engaged.
- Use jack stands to support the vehicle if lifting is required.
- Do not exceed the maximum weight limit of 400 pounds on the running boards.
- Periodically inspect all mounting hardware for tightness and signs of wear or damage.
- If you are unsure about any step of the installation process, consult a qualified technician.

PARTS LIST

Before beginning installation, verify that all parts are present and undamaged. Refer to the packing list included with your product. The package includes:

- Running Boards (Left and Right)
- Mounting Brackets
- Bolts
- Nuts
- Washers
- Installation Guide (this document)

INSTALLATION INSTRUCTIONS (SETUP)

No extra drilling is required if your vehicle has existing mounting holes. Follow these steps for installation:

1. **Prepare the Vehicle:** Park the vehicle on a flat, stable surface. Engage the parking brake.
2. **Identify Mounting Points:** Locate the factory mounting holes on the vehicle's frame. These are typically found along the rocker panel.

3. **Attach Brackets:** Align and loosely fasten the mounting brackets to the vehicle's frame using the supplied bolts and nuts. Do not fully tighten at this stage.
4. **Install Running Boards:** Carefully position the running board onto the attached brackets. Ensure proper alignment.
5. **Secure Running Boards:** Fasten the running board to the brackets using the remaining hardware.
6. **Adjust and Tighten:** Adjust the running board for desired position and levelness. Once satisfied, fully tighten all bolts to the specified torque (refer to your vehicle's owner's manual for specific torque values if available, or consult a professional).
7. **Final Check:** Check door clearance and test the stability of the step. Ensure all connections are secure.

OPERATING INSTRUCTIONS

The running boards are designed for easy entry and exit from your vehicle. Step onto the polymer pads for a secure foothold. The 3-inch injection-molded polymer step pads have undergone extensive testing to ensure durability and structural integrity, providing a reliable step surface.

Injection-Molded Polymer Pads

MAINTENANCE

To ensure the longevity and appearance of your YHTAUTO running boards, follow these maintenance guidelines:

- **Regular Cleaning:** Clean the running boards regularly with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the semi-gloss black powder coating.
- **Inspection:** Periodically inspect all mounting hardware (bolts, nuts, brackets) for tightness. Re-tighten any loose fasteners to prevent rattling or instability.
- **Damage Check:** Check for any signs of rust, corrosion, or physical damage to the running boards or mounting components. Address any issues promptly to prevent further deterioration.
- **Polymer Pads:** Ensure the polymer step pads are free from excessive dirt or debris that could reduce traction.

TROUBLESHOOTING

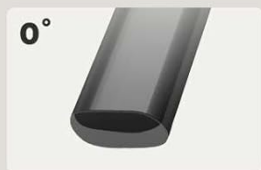

If you encounter any issues with your running boards, refer to the following common problems and solutions:

- **Loose Running Board:** If the running board feels loose or wobbly, inspect all mounting bolts and nuts. Tighten them securely.
- **Rattling Noise:** A rattling noise often indicates loose hardware. Re-check and tighten all fasteners. Ensure no components are rubbing against the vehicle's body.
- **Corrosion/Rust:** While designed for resistance, prolonged exposure to harsh conditions without proper cleaning can lead to corrosion. Clean affected areas and apply a protective coating if necessary. For significant rust, consider professional repair or replacement.
- **Difficulty Stepping:** Ensure the step pads are clean and free of obstructions. If the step height is an issue, verify correct installation and vehicle compatibility.

SPECIFICATIONS

Brand	YHTAUTO
Model Number	YHTSBAR0076-P
Material	Q235A Carbon Steel
Exterior Finish	Semi-gloss black powder
Step Pad Size	3-inch injection-molded polymer
Weight Limit	400 Pounds
Item Weight	28.2 pounds
Package Dimensions	83.86 x 16.93 x 4.33 inches
Special Features	Body Mount, Convenient entry/exit, roof rack-friendly, sleek semi-gloss finish, protective and long-lasting, easy installation, minimal maintenance, unparalleled traction, secure foothold.
