

Valonii M05

Valonii M05 Interactive Automatic Cat Laser Toy User Manual

Model: M05

1. INTRODUCTION

Thank you for choosing the Valonii M05 Interactive Automatic Cat Laser Toy. This device is designed to provide engaging and stimulating play for your indoor cats and dogs, encouraging exercise and mental well-being. Featuring a real random trajectory laser, multiple speed modes, and an automatic on/off cycle, the M05 ensures your pets remain entertained even when you are busy. Please read this manual thoroughly before use to ensure proper operation and safety.

2. SAFETY INFORMATION

- This product uses a Class 1 laser, which is safe for pets under normal operating conditions. Avoid direct eye exposure to the laser beam.
- It is recommended to place the toy on a stable surface at a height of 8-35 inches (20-89 cm) for optimal laser projection and pet interaction.
- Use a 5V/1A charger for normal operation. Using other chargers may affect product lifespan.
- Keep the charging cable away from pets to prevent chewing. If pets tend to chew wires, ensure the toy is used after charging and unplugged.

3. PACKAGE CONTENTS

- Valonii M05 Cat Laser Toy
- USB Charging Cable

4. SETUP

4.1 Charging the Device

Before first use, fully charge the device. The built-in rechargeable battery takes approximately 2.5 hours to fully charge and provides about 2 days of use. Connect the provided USB cable to the charging port on the device and to a 5V/1A USB power adapter (not included).

5. OPERATING INSTRUCTIONS

5.1 Power On/Off and Mode Selection

The Valonii M05 features a simple control button. Press the button to cycle through the available modes:

1. **Fast Mode:** For hyperactive cats.
2. **Slow Mode:** For calmer or older cats.
3. **Mixed Mode:** Combines fast and slow movements for varied play.

The device will automatically shut off after 15 minutes of operation. It will then automatically turn on again for 15 minutes after 3 hours, repeating this cycle to keep your pets engaged throughout the day.

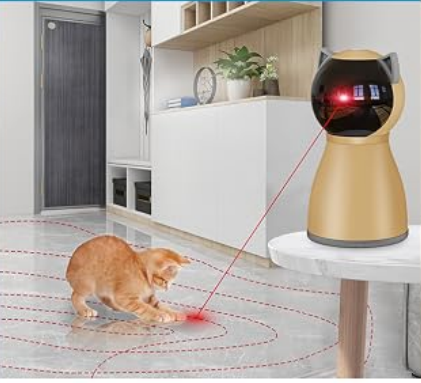

Real Random Pattern	Automatic On /Off	USB rechargeable
		
The only pet automatic laser toy with random pattern available, keeping your cat highly engaged in chasing the laser point	This automatic laser cat toy will automatically shut off after 10 mins of operation with a 3-hour break interval	Built with 1200mAh battery 2.5 hours of charging lasts 3 days

Image: Valonii M05 Cat Laser Toy illustrating its automatic 15-minute on, 3-hour off cycle.

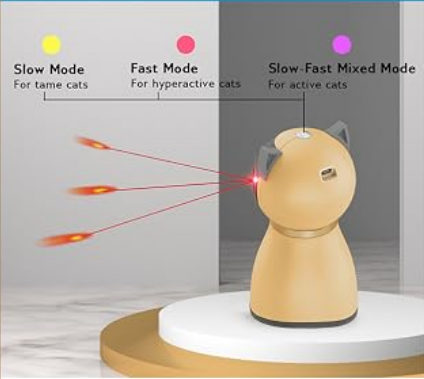

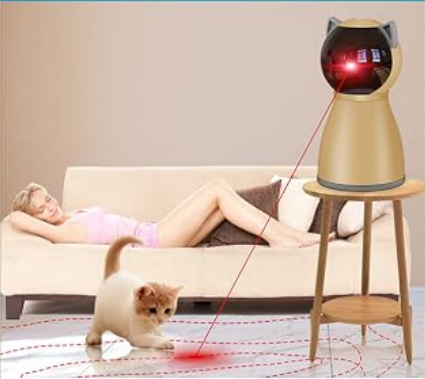

Three Speed Modes	Silence Motor	Adjustable angles
 The toy has 3 speed modes (fast/slow/mixed) to meet different exercise needs of cats	 This toy does not generate any noise, so it will not disturb your work and rest	 The laser head can automatically rotate left and right up to 60°, and manually adjust up and down up to 50°

6. FEATURES

- **Real Random Trajectory:** Dual motor control for horizontal rotation and vertical swinging of the laser head

ensures unpredictable patterns, stimulating pets' hunting instincts.

- **Automatic On/Off Cycle:** Operates for 15 minutes, then rests for 3 hours, repeating the cycle to prevent overstimulation and keep pets engaged throughout the day.
- **Three Speed Modes:** Offers Fast, Slow, and Mixed modes to cater to different activity levels and ages of cats.
- **Built-in Rechargeable Battery:** Equipped with a 1200mAh battery, fully charged in 2.5 hours, providing approximately 2 days of use.
- **Silent and Durable Motor:** Features a gearless dual motor control and precision gear design for quiet operation, ensuring it does not disrupt household activities.
