The dishwasher features six distinct programs to cater to various dishwashing needs:

- **NORMAL:** Standard wash cycle for everyday dishes.

- **STEAM:** Intensive wash for heavily soiled dishes.

- **FRUIT:** Gentle wash cycle specifically for fruits. No detergent is needed for this program.
- **GLASS:** Delicate wash for glassware.
- **AIR REFRESH:** Extra drying mode to ensure dishes are thoroughly dry and fresh.

Detergent Note: Always use standard dishwasher powders or detergents. Regular liquid dish soap is not suitable and can cause operational issues.

The HYGIENE wash cycle is designed for superior sanitization. It boosts the water temperature to 162°F during rinsing and a maximum of 192°F during the main wash. This high temperature effectively tackles stubborn food residues and is ideal for sterilizing baby bottles and children's dinner sets.
