Rythflo WH03

Rythflo WH03 Bluetooth Headphones User Manual

Model: WH03 | Brand: Rythflo

1. INTRODUCTION

Thank you for choosing the Rythflo WH03 Bluetooth Headphones. These wireless earbuds are designed to provide a high-quality audio experience with exceptional battery life and a comfortable, secure fit. This manual will guide you through the setup, operation, and maintenance of your new headphones to ensure optimal performance.

2. WHAT'S IN THE BOX

- Rythflo WH03 Bluetooth Headphones
- USB-C Charging Cable
- Multiple Sizes of Eartips (S, M, L)
- User Manual

3. PRODUCT OVERVIEW

The Rythflo WH03 features a comfortable neckband design with in-ear earbuds and earhooks for a secure fit. The integrated control panel allows for easy management of audio playback and calls.

Components:

- **Earbuds with Earhooks:** Designed for a secure and comfortable fit.
- **Neckband:** Flexible and lightweight, resting around your neck.
- **Inline Control Panel:** Buttons for power, volume, and media control.
- **Microphone:** Integrated for hands-free calls.
- **USB-C Charging Port:** Located on the neckband or control panel.

4. SETUP

4.1 Charging the Headphones

Before first use, fully charge your Rythflo WH03 headphones. A full charge provides up to 150 hours of playtime.

1. Connect the provided USB-C charging cable to the charging port on the headphones.
2. Connect the other end of the cable to a USB power adapter (not included) or a computer's USB port.
3. The LED indicator will show charging status (e.g., red for charging, blue for fully charged).
4. A full charge takes approximately 2 hours. A quick 10-minute charge can provide up to 15 hours of listening time.

Image: A person wearing the Rythflo WH03 headphones in an industrial setting, highlighting the impressive 150-hour battery life and the convenience of a month's playtime on a single charge.

4.2 Pairing with a Bluetooth Device

1. Ensure the headphones are turned off.
2. Press and hold the Multi-function button (usually the power button) for approximately 5-7 seconds until the LED indicator flashes red and blue alternately, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.

4. Select "Rythflo WH03" from the list of found devices.
5. Once connected, the LED indicator will flash blue slowly or turn solid blue.
6. If prompted for a password, enter "0000".

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

- **Power On:** Press and hold the Multi-function button for 3 seconds. The LED will flash blue.
- **Power Off:** Press and hold the Multi-function button for 5-6 seconds. The LED will flash red and then turn off.

5.2 Music Playback

Image: A detailed view of the inline control panel on the Rythflo WH03 headphones, showing the volume up (+), volume down (-), and multi-function buttons. This panel is used for media control and call management.

- **Play/Pause:** Press the Multi-function button once.
- **Volume Up:** Press the '+' button.

- **Volume Down:** Press the '-' button.
- **Next Track:** Press and hold the '+' button.
- **Previous Track:** Press and hold the '-' button.

5.3 Call Management

- **Answer/End Call:** Press the Multi-function button once.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds.
- **Redial Last Number:** Double-press the Multi-function button.

5.4 Voice Assistant

- **Activate Voice Assistant:** Triple-press the Multi-function button (functionality depends on your connected device).

6. MAINTENANCE

6.1 Cleaning

- Gently wipe the earbuds and neckband with a soft, dry, lint-free cloth.
- Remove eartips and clean them with mild soap and water if necessary, ensuring they are completely dry before reattaching.
- Do not use harsh chemicals or abrasive materials.

6.2 Storage

- Store the headphones in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid tangling the cables.

6.3 Water Resistance

The Rythflo WH03 headphones are IPX7 water and sweat resistant, making them suitable for workouts and outdoor activities. However, they are not designed for swimming or submersion in water for extended periods.

Heavy-duty Build

IPX7 waterproof & alloy shell fearless challenges

Image: Rythflo WH03 earbuds partially submerged in water, demonstrating their IPX7 water resistance and heavy-duty build, suitable for challenging environments.

7. TROUBLESHOOTING

7.1 Cannot Power On

- Ensure the headphones are fully charged. Connect to a power source and try again.

7.2 Cannot Pair with Device

- Make sure the headphones are in pairing mode (LED flashing red and blue).
- Ensure Bluetooth is enabled on your device and it is within 10 meters of the headphones.
- Turn off and on both the headphones and your device, then try pairing again.
- Clear the Bluetooth pairing history on your device and re-attempt pairing.

7.3 No Sound or Poor Sound Quality

- Check the volume levels on both the headphones and your connected device.

- Ensure the headphones are properly connected to your device.
- Move closer to your device to avoid interference.
- Try playing different audio sources.
- Ensure eartips are correctly sized and sealed in your ear for optimal bass and clarity.

Hear Every Detail

The large 13mm dynamic driver produces a wide frequency range that uncovers the rich details of every sound
