SETUP GUIDE

Charging the Portable Charger

Before first use, fully charge your SwanScout Portable Watch Charger.

1. Connect the provided Type C to Type C charging cable to the USB-C input port on the portable charger.
2. Connect the other end of the cable to a compatible USB power adapter (not included).
3. The LED indicators on the charger will illuminate to show the charging status. A full charge is indicated when all four LEDs are solid.

OPERATING INSTRUCTIONS

Powering On/Off

- **Power On:** Press the power button once.
- **Power Off:** Double-click the power button.

Charging Your Apple Watch

1. Ensure the portable charger is powered on.
2. Adjust the height of the charging pad if necessary. The silicon pad can be slid to accommodate different watch sizes and ensure proper contact. (Refer to the "Adjustable Height Design" section for details).
3. Place your Apple Watch onto the magnetic charging pad. Ensure the watch is properly aligned and the charging icon appears on your watch screen.
4. The portable charger will begin charging your Apple Watch.

Adjustable Height Design

The charging pad features an adjustable height mechanism. Slide the silicon pad to raise or lower the charging surface. This ensures optimal contact for various Apple Watch models and prevents the watch from slipping.

Image: An image illustrating the adjustable height feature of the charging pad, demonstrating how to slide the silicon pad to ensure optimal contact with the Apple Watch for efficient charging.

Foldable Design

The charger features a foldable design for portability. When not in use, the charging pad can be folded flat to save space, making it ideal for travel.

Foldable Design

MAINTENANCE

- Keep the charger clean and dry. Use a soft, dry cloth to wipe the surface.
- Avoid exposing the charger to extreme temperatures, direct sunlight, or moisture.
- Do not attempt to disassemble or repair the device yourself. Contact customer support for assistance.
- Store the charger in a cool, dry place when not in use.

TROUBLESHOOTING

Watch Not Charging

- Ensure the portable charger is powered on (single press the power button).
- Check the battery level of the portable charger. Recharge if necessary.
- Verify that your Apple Watch is correctly placed on the magnetic charging pad and making proper contact. Adjust the height of the silicon pad if needed.
- Remove any thick watch cases that might interfere with the magnetic connection.

Slow Charging

- Ensure the portable charger itself is fully charged.
- Check if the watch is properly aligned on the charging pad.

Intermittent Connection / Disconnection

- This can occur if the watch is not securely seated or if the adjustable height is not optimized. Ensure the watch is stable and the charging pad has firm contact.
- Avoid placing the charger on unstable surfaces during charging.

WARRANTY AND SUPPORT

This SwanScout product comes with a **One-Year Warranty** from the date of purchase.

For warranty claims, technical support, or any inquiries, please contact SwanScout customer service. Refer to the contact information provided in the original product packaging or visit the official SwanScout website.
