2. Setup

2.1. Charging the Smart Ring

Before initial use, ensure the smart ring is fully charged. The ring is designed for continuous monitoring for 3 to 5 days on a single charge. Use the provided charging cable (if included) and connect it to a compatible USB power source.

2.2. App Installation and Pairing

1. Download the official Smart Ring application from your device's app store (compatible with Android and iOS).
2. Enable Bluetooth on your smartphone.
3. Open the Smart Ring app and follow the on-screen instructions to pair your ring via Bluetooth. The ring may also support quick NFC pairing.
4. Create your user profile and enter necessary personal information for accurate health tracking.

2.3. Wearing the Smart Ring

Wear the smart ring on any finger. For optimal heart rate and temperature monitoring, ensure the sensors on the inner surface of the ring are in firm contact with your skin. The ring is designed for comfort and continuous wear.

3. Operating Instructions

3.1. Activity Tracking

The ring automatically monitors steps, distance, calories burned, and pace during various indoor and outdoor activities. Data is synchronized with the companion app for detailed analysis.

3.5. NFC Functionality

The integrated NFC allows the ring to function as an NFC card, an automatic link sender, and facilitates quick Wi-Fi and Bluetooth connections. Refer to the app for specific NFC setup and usage instructions.

3.6. Smartphone Remote Control

The ring can act as a remote shutter button for your smartphone camera, enabling you to take photos remotely. It also supports functions like video scrolling, electronic book page turning, and music control.

4. Maintenance

4.1. Cleaning

Clean the smart ring regularly with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used. Avoid harsh chemicals or abrasive materials that could damage the finish or sensors.

4.2. Water Resistance

The ring features IP68 waterproof technology, making it suitable for daily waterproofing activities such as swimming, washing hands, bathing, and showering. Ensure the ring is properly sealed and avoid prolonged submersion beyond 1 meter depth.

4.3. Charging Guidelines

To prolong battery life, avoid completely draining the battery frequently. Charge the ring when the battery level is low. Do not expose the ring or charging cable to extreme temperatures.

5. Troubleshooting

- **Cannot connect to the app:** Ensure Bluetooth is enabled on your smartphone and the ring is charged. Restart both the ring and your phone, then try pairing again. Check the app for any specific connection instructions.
- **Data not syncing:** Verify that the ring is connected to the app via Bluetooth. Check your internet connection for app updates. Ensure the app has necessary permissions on your phone.
- **Inaccurate readings:** Ensure the ring is worn correctly, with sensors in firm contact with your skin. Avoid wearing it too loosely or too tightly. Clean the sensors if necessary.
- **Ring not charging:** Check the charging cable and power source for damage. Ensure the charging contacts on the ring and cable are clean and properly aligned.
- **NFC features not working:** Confirm NFC is enabled on your smartphone and the ring is positioned correctly for NFC interaction. Refer to the app for specific NFC setup.
