Peg Perego IMPV07US00DX51TP41

Peg Perego Primo Viaggio Nido Infant Car Seat User Manual

Model: IMPV07US00DX51TP41

PRODUCT OVERVIEW

The Peg Perego Primo Viaggio Nido is a rear-facing infant car seat designed to provide comprehensive protection and comfort for infants from 4 to 30 lbs and up to 32 inches tall. Manufactured in Italy, this car seat integrates advanced safety features and thoughtful design for ease of use and child well-being.

Figure 1: The Primo Viaggio Nido Infant Car Seat with its accompanying base.

Key features include a premium base with a Load Leg and built-in Anti-Rebound Bar, which work together to significantly reduce rotation during an accident. New kinetic pods offer enhanced side impact protection. The car seat also features an extendable Pagoda Hood with UPF 50+ fabric for sun protection and a Dual Stage Cushion System designed to adapt as your baby grows.

SAFETY INFORMATION

Always prioritize safety when installing and using the Primo Viaggio Nido car seat. Adhere to all instructions in this manual and your vehicle's owner's manual.

- **Rear-Facing Only:** This car seat is designed for rear-facing use only for infants weighing 4 to 30 lbs and up to 32 inches tall.
- **Load Leg and Anti-Rebound Bar:** The base includes a Load Leg and Anti-Rebound Bar to reduce rotation by 50% in frontal collisions, enhancing stability and safety.
- **Side Impact Protection:** Energy absorbing EPS foam throughout the shell and head panel, along with new kinetic pods, provide comprehensive side impact protection.

- **Fire Retardant Free Fabric:** The Fresco Jersey fabric is naturally fire retardant, eliminating the need for added harmful chemicals.
- **Proper Installation:** Ensure the base is installed securely, moving no more than 1 inch side-to-side or front-to-back at the belt path.

Benefits of the Load Leg Base

Protects baby stabilizing the seat and reducing rotations by 50% in front collision.

Compatible with Peg Perego Infant Car Seats.

COMPONENTS

The Peg Perego Primo Viaggio Nido system consists of the following main components:

- **Infant Car Seat:** The main seat unit where the child is secured.
- **Car Seat Base:** Provides a stable and secure foundation for the car seat in the vehicle.
- **Load Leg:** An adjustable leg extending from the base to the vehicle floor for added stability.
- **Anti-Rebound Bar:** Integrated into the base to minimize rebound in a crash.
- **Pagoda Hood:** An extendable canopy for sun and element protection.
- **Dual Stage Cushion System:** Removable inserts for proper positioning and comfort for newborns and growing infants.

SETUP AND INSTALLATION

Follow these steps to properly install the Primo Viaggio Nido car seat base in your vehicle using the vehicle's seat belt. Ensure your vehicle is parked on level ground before beginning installation.

1. **Unfold Load Leg:** Unfold the load leg from the bottom of the base until it clicks into the down position.
2. **Position Base:** Place the base rear-facing in the back seat of your vehicle.
3. **Check Level Indicator:** Verify the level indicator at the top of the base. Rotate the knob to adjust the base angle according to your child's weight, ensuring the bubble is within the appropriate range.

Figure 5: The level indicator and adjustment knob on the car seat base.

4. **Open Right Tight Lock Off:** Open the Right Tight lock off mechanism on the base.
5. **Switch Seatbelt to ALR:** Pull the vehicle's seatbelt all the way out to switch it to Automatic Locking Retractor (ALR) mode.
6. **Thread Lap Portion:** Thread the lap portion of the seatbelt through the designated belt path on the base.
7. **Lock Vehicle Belt:** Lock the vehicle belt into its buckle.
8. **Thread Shoulder Strap:** Thread the shoulder strap back through the belt guide.
9. **Tighten Belt:** Press down firmly on the base while pulling the shoulder strap to remove all slack.
10. **Close Right Tight Lock Off:** Close the Right Tight lock off to secure the seatbelt.
11. **Check for Tightness:** Push and pull on the base at the belt path. The base should not move more than 1 inch side-to-side or front-to-back. If it moves more, re-tighten the belt.
12. **Extend Load Leg:** Extend the Load Leg until it firmly touches the floor of the vehicle.
13. **Snap Car Seat into Base:** Align the car seat with the base and snap it securely into place. Listen for a click to confirm proper attachment.
14. **Move Handle:** Move the car seat handle to the rear-most position behind the car seat by pressing the grey buttons on the handle pivots.

OPERATING INSTRUCTIONS

Understanding the various adjustments of your Primo Viaggio Nido car seat ensures optimal safety and comfort for your child.

- **SIP Headrest Adjustment:** The SIP (Side Impact Protection) headrest can be easily adjusted to 6 different positions without re-threading the harness, even with the infant in the seat. This ensures a proper and safe fit as your child grows.
- **Extendable Pagoda Hood:** The hood features an easy-to-use zipper that allows it to extend forward, providing near-complete coverage and shielding your baby from the elements. It also includes mesh side netting for ventilation to maintain airflow. The fabric is UPF 50+ for sun protection.

Figure 6: The car seat with its extendable Pagoda Hood fully deployed.

- **Dual Stage Cushion System:** This system includes two cushions designed to grow with your baby. Stage 1 provides extra support for a newborn's neck and bottom (for infants 4 lbs and up). Stage 2 is enlarged to offer increased protection and comfort for a growing baby. Both cushions are made of soft and breathable Fresco Jersey fabric.

Figure 7: The Dual Stage Cushion System, showing both newborn and infant inserts.

- **Baseless Installation:** The car seat features a European belt path and an innovative handlebar belt path, allowing for easy installation without the base. In this configuration, the handle can also act as an anti-rebound bar.

MAINTENANCE

Regular maintenance helps ensure the longevity and safety of your Primo Viaggio Nido car seat.

- **Fabric Care:** The Fresco Jersey fabric is naturally fire retardant and breathable. Refer to the care labels on the fabric for specific cleaning instructions. Generally, fabrics can be spot cleaned with mild soap and water.
- **Harness System:** Inspect the harness straps regularly for any signs of wear, fraying, or damage. Clean straps

with a damp cloth and mild soap; do not immerse in water.

- **Plastic and Metal Parts:** Wipe plastic and metal parts with a damp cloth and mild soap. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, store the car seat and base in a clean, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Primo Viaggio Nido car seat, consider the following common solutions:

- **Base Not Tight:** If the base moves more than 1 inch at the belt path, ensure the vehicle seatbelt is fully extended to activate ALR mode (if applicable) and pull all slack out while pressing down firmly on the base before closing the Right Tight lock off.
- **Level Indicator Not Correct:** Adjust the base angle using the knob until the bubble in the level indicator falls within the correct range for your child's weight.
- **Car Seat Not Latching to Base:** Ensure the car seat is properly aligned with the base and push down firmly until you hear an audible click. Check for any obstructions.
- **Handle Adjustment:** If the handle is difficult to adjust, ensure both grey buttons on the handle pivots are pressed simultaneously and fully.

For further assistance or issues not covered here, please contact Peg Perego customer support or refer to the full product manual.

SPECIFICATIONS

Feature	Detail
Product Dimensions	17 x 26 x 24 inches
Item Model Number	IMPV07US00DX51TP41
Minimum Weight Recommendation	4 Pounds
Maximum Weight Recommendation	30 Pounds
Maximum Height Recommendation	32 Inches
Material Type	Polyester Blend, Plastic
Material Composition	100% Polyester Blend
Additional Product Features	Base with load leg and anti-rebound bar, EPP & EPS foam throughout the entire shell, right tight system base
Number of Reclining Positions	6
Orientation	Rear Facing
