Garvee 6QT Round

Garvee 6 QT Round Roll Top Chafing Dish Buffet Set

Model: 6QT Round | Brand: Garvee

Important Safety Instructions

Please read all instructions carefully before using the chafing dish. Retain this manual for future reference.

- Always place the chafing dish on a stable, heat-resistant surface.
- Exercise caution when handling hot components, especially the water pan and food pan. Use heat-resistant gloves if necessary.
- Keep fuel cans away from flammable materials and out of reach of children and pets.
- Ensure proper ventilation when using fuel cans indoors.
- Never leave burning fuel cans unattended.
- Do not overfill the water pan or food pan.
- Allow the unit to cool completely before cleaning or storing.
- This product is designed for food service and is not a toy.

Package Contents

Verify that all components are present and undamaged upon unpacking.

- 1 x Water Pan
- 1 x Food Pan (6 QT capacity)
- 1 x Handle (for roll top lid)
- 1 x Dish Frame
- 1 x Fuel Can Holder
- 1 x Food Tong

- 1 x Food Spoon

All components included in the Garvee 6 QT Round Roll Top Chafing Dish Buffet Set.

Setup

Assembly Instructions

1. Place the dish frame on a stable, level surface.
2. Insert the water pan into the dish frame. Ensure it sits securely.
3. Place the food pan inside the water pan.
4. Attach the roll top lid to the dish frame. The lid should open and close smoothly.
5. Place the fuel can holder(s) into the designated slots beneath the water pan.

The fully assembled Garvee 6 QT Round Roll Top Chafing Dish.

Operating Instructions

Keeping Food Warm

1. Fill the water pan with approximately 1-2 inches of hot water. Do not overfill.
2. Place your prepared hot food into the food pan.
3. Insert lit chafing fuel cans (not included) into the fuel can holder(s) beneath the water pan.
4. Close the roll top lid to retain heat. The 180-degree roll top design allows for easy access and heat retention.
5. Monitor water levels in the water pan and refill with hot water as needed to maintain temperature.

Keeping Food Cool

The chafing dish can also be used to keep food cool for serving.

1. Ensure fuel cans are removed from the holder(s).
2. Fill the water pan with ice and a small amount of cold water.
3. Place your prepared cold food into the food pan.
4. Close the roll top lid to maintain coolness.

The 180-degree roll top design allows for convenient serving.

Maintenance and Cleaning

Proper cleaning and maintenance will extend the life of your chafing dish.

- Allow all components to cool completely before cleaning.
- Remove any remaining food from the food pan.
- Empty the water pan.
- Wash the food pan, water pan, and lid with warm, soapy water. Use a soft sponge or cloth to avoid scratching the stainless steel surface.
- Rinse thoroughly with clean water.
- Dry all components immediately with a soft, clean cloth to prevent water spots and maintain shine.
- The dish frame can be wiped clean with a damp cloth and then dried.
- Do not use abrasive cleaners, steel wool, or harsh chemicals, as these can damage the stainless steel finish.
- Store the chafing dish in a clean, dry place when not in use.

Troubleshooting

Problem	Possible Cause	Solution
Food not staying warm	Insufficient water in water pan; fuel cans extinguished or low; lid not closed properly.	Ensure water pan has adequate hot water. Replace or relight fuel cans. Close lid completely.
Water spots on stainless steel	Components not dried immediately after washing.	Dry all components thoroughly with a soft cloth immediately after washing. For existing spots, use a stainless steel cleaner.
Lid not rolling smoothly	Debris in hinge mechanism; improper alignment.	Clean any debris from the hinge area. Re-align the lid if it appears crooked.
