YOTON Y6

YOTON Y6 Bluetooth Projector User Manual

Model: Y6 | Brand: YOTON

1. INTRODUCTION

Thank you for choosing the YOTON Y6 Bluetooth Projector. This manual provides detailed instructions to help you set up, operate, and maintain your projector, ensuring you get the best possible viewing experience. The Y6 projector offers a native 1080P resolution with 4K support, 12000 lumens brightness, and Bluetooth 5.2 connectivity, making it ideal for home cinema, gaming, and presentations.

2. WHAT'S IN THE BOX?

Please check the package contents to ensure all items are present:

- YOTON Y6 Bluetooth Projector
- Power Cord
- Remote Control
- HDMI Cable
- AV Cable

3. SETUP GUIDE

3.1 Initial Placement

Place the projector on a stable, flat surface. For optimal viewing, ensure the projector is positioned directly in front of the projection surface (wall or screen). The ideal projection distance varies based on desired screen size. For example, a 200-

inch screen can be achieved at approximately 6.5 meters.

3.2 Power Connection

Connect the provided power cord to the projector's power input and then plug it into a standard electrical outlet. The power indicator light will illuminate.

4. OPERATING THE PROJECTOR

4.1 Basic Operation

Press the power button on the projector or the remote control to turn the unit on or off. The projector will display the main interface upon startup.

4.2 Adjusting Brightness

The Y6 projector allows brightness adjustment from 0-100%. Use the remote control or the projector's menu to navigate to the brightness settings and adjust as needed for your viewing environment. Lower brightness is recommended for dark rooms to reduce eye strain, while higher brightness is suitable for brighter spaces.

4.3 Focus and Keystone Correction

Use the focus ring near the lens to sharpen the image. If the image appears trapezoidal, use the keystone correction feature (manual or digital, depending on the model) to adjust the image shape until it is rectangular.

5. CONNECTIVITY

The YOTON Y6 projector supports various input sources for versatile use.

Bluetooth makes your projection more free

Image: An illustration detailing the various connectivity options, including HDMI, AV, AUX, USB, and Micro SD, compatible with devices like laptops, TV sticks, gaming consoles, and speakers.

5.1 HDMI Connection

Connect your laptop, gaming console (PS5), DVD player, or Fire Stick to the projector using the provided HDMI cable. The Y6 features dual HDMI ports for convenience. This connection ensures stable image transmission without delay.

5.2 USB/MicroSD Connection

Insert a USB drive or MicroSD card into the respective ports on the projector to play media files directly. The projector's built-in media player supports various formats.

5.3 Bluetooth Audio Connection

The Y6 projector features Bluetooth 5.2, allowing you to pair it with external Bluetooth speakers or headphones for an enhanced audio experience. Navigate to the Bluetooth settings in the projector's menu to pair your audio device.

Image: The projector connected wirelessly to a Bluetooth speaker and headphones, indicating its audio output capabilities. Note: Bluetooth function is only available for Bluetooth audio devices; smartphones cannot connect to the projector via Bluetooth for screen mirroring.

6. MAINTENANCE

6.1 Cleaning

Regularly clean the projector lens with a soft, lint-free cloth specifically designed for optical surfaces. Use a soft brush or compressed air to remove dust from the vents. Do not use liquid cleaners directly on the lens or housing.

6.2 Storage

When not in use, store the projector in a cool, dry place away from direct sunlight and excessive dust. It is recommended to use the original packaging or a protective case to prevent damage.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your YOTON Y6 projector.

Problem	Solution
No image or distorted image	Check all cable connections (HDMI, AV). Adjust focus ring and keystone correction. Ensure the correct input source is selected.
No sound or low sound	Adjust volume on the projector and connected device. Ensure external speakers are properly connected or paired via Bluetooth.
Cannot screen mirror from phone directly	Due to copyright restrictions, the Y6 projector does not support direct screen mirroring from phones. Use an HDMI cable with a USB to HDMI adapter (not included) to connect your phone, or use a TV Stick (not included) for streaming.
Cannot access streaming media directly	The projector does not support direct access to streaming media apps. Connect a TV Stick (recommended), laptop, or other streaming device via HDMI.
Bluetooth cannot connect to phone/laptop	The Bluetooth function is for connecting to Bluetooth audio devices (speakers, headphones) only, not for connecting to phones or laptops for data transfer or screen mirroring.
Projector turns off unexpectedly	Ensure proper ventilation and clear any obstructions from the vents. Check power connection stability. If the issue persists, contact customer support.
