MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials.
- **Sensor Cleaning:** Occasionally clean the optical sensor on the underside of the mouse with a cotton swab to ensure optimal tracking performance.
- **Cable Care:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage. The mouse features a pull-resistant braided wire for durability.
- **Storage:** Store the mouse in a clean, dry environment when not in use.

TROUBLESHOOTING

- **Mouse Not Responding:**
 - Ensure the USB cable is securely plugged into a working USB port.
 - Try plugging the mouse into a different USB port.
 - Restart your computer.
- **DPI Not Changing:**
 - Ensure you are pressing the correct DPI+ or DPI- buttons.
 - Check if the mouse software is running and configured correctly.
- **RGB Lighting Not Working/Customizing:**
 - Verify that the mouse software is installed and updated.
 - Check lighting settings within the software.
- **Macro Keys Not Working:**
 - Ensure the macro software is installed and macros are properly assigned and saved.
 - Check for any conflicts with other software or system settings.
- **Tracking Issues:**
 - Clean the optical sensor on the bottom of the mouse.
 - Use the mouse on a clean, uniform surface or a quality mouse pad.
