YUNCHE-AUTO 41007440423

YUNCHE-AUTO Front Sand Board Bracket L

Model: Part No. 41007440423

Instruction Manual

1. INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your YUNCHE-AUTO Front Sand Board Bracket L, Part Number 41007440423. Please read these instructions carefully before proceeding with installation to ensure safe and correct usage. This bracket is designed to securely hold a sand board on the front of a vehicle.

2. PRODUCT OVERVIEW

The YUNCHE-AUTO Front Sand Board Bracket L (Part No. 41007440423) is a durable metal component designed for vehicle cargo management. It is specifically engineered to provide a stable mounting point for a sand board, typically used in off-road recovery situations. The bracket features multiple mounting holes for secure attachment to your vehicle's frame or bumper, depending on the specific vehicle model and existing mounting points.

Figure 2.1: YUNCHE-AUTO Front Sand Board Bracket L, showing its general shape and mounting points.

The bracket is constructed from robust metal, ensuring longevity and resistance to environmental elements. Its design incorporates bends and reinforcements for structural integrity, capable of supporting the weight and forces associated with carrying a sand board.

3. SETUP AND INSTALLATION

Important: Before beginning installation, verify that this bracket is compatible with your specific vehicle model and intended mounting location. If you are unsure about part suitability, please send your Vehicle Identification Number (VIN) to YUNCHE-AUTO customer support for verification.

1. **Gather Tools:** Ensure you have the necessary tools, which may include wrenches, sockets, a drill (if new holes are required), and appropriate fasteners (not included unless specified).
2. **Identify Mounting Location:** Determine the precise location on your vehicle where the sand board bracket will be installed. This is typically on the front bumper or a dedicated mounting bar.
3. **Test Fit:** Carefully position the bracket in the intended location to confirm alignment with existing mounting points. Mark any new drilling locations if necessary.
4. **Secure Bracket:** Attach the bracket using appropriate high-strength bolts, washers, and nuts. Ensure all fasteners are tightened to the vehicle manufacturer's recommended torque specifications. Do not overtighten.
5. **Final Check:** After installation, gently tug on the bracket to ensure it is securely fastened and does not wobble.

4. OPERATING (FUNCTION)

Once installed, the YUNCHE-AUTO Front Sand Board Bracket L serves as a dedicated and secure attachment point for your sand board. Ensure the sand board is properly secured to the bracket using appropriate straps or clamps (not included) to prevent movement during vehicle operation. Regularly check the security of the sand board and the bracket, especially before and after off-road excursions.

5. MAINTENANCE

To ensure the longevity and optimal performance of your bracket, follow these maintenance guidelines:

- **Regular Inspection:** Periodically inspect the bracket for any signs of wear, damage, or corrosion. Check all fasteners for tightness.
- **Cleaning:** Clean the bracket with mild soap and water to remove dirt, mud, or road grime. Rinse thoroughly and dry to prevent rust.
- **Corrosion Protection:** If the bracket is exposed to harsh conditions (e.g., road salt, extreme moisture), consider applying a rust-inhibiting spray or coating to prolong its life.
- **Fastener Check:** Re-tighten all mounting bolts as needed, especially after the first few uses or after driving on rough terrain.

6. TROUBLESHOOTING

If you encounter issues with your YUNCHE-AUTO Front Sand Board Bracket L, consider the following:

- **Bracket Does Not Fit:** Double-check the part number against your vehicle's requirements. If you are uncertain about compatibility, contact YUNCHE-AUTO customer support with your VIN for assistance.
- **Loose Bracket:** Ensure all mounting bolts are correctly installed and tightened to the appropriate torque. Over time, vibrations can loosen fasteners, requiring re-tightening.
- **Corrosion:** If rust appears, clean the affected area thoroughly and apply a rust-inhibiting primer and paint. Regular maintenance can prevent this.

7. SPECIFICATIONS

Attribute	Detail
Part Number	41007440423
Brand	YUNCHE-AUTO
Included Components	ABS Resin (Note: Main bracket is metal; ABS resin may refer to a small accessory or packaging component.)
ASIN	B0CS2CY5Y4
First Available Date	January 11, 2024

8. WARRANTY AND SUPPORT

YUNCHE-AUTO is committed to providing quality service to our customers. For any questions regarding this product, installation, or warranty claims, please contact YUNCHE-AUTO customer support. Please have your part number (41007440423) and vehicle VIN available when contacting support for efficient assistance.

For support, please refer to the seller information on your purchase platform or visit the official YUNCHE-AUTO website (if available).

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
