Outsunny 13' x 13' Gazebo Replacement Mosquito Netting Instruction Manual

MODEL: 84C-142V04

Introduction

Thank you for choosing the Outsunny Replacement Mosquito Netting for your 13' x 13' gazebo. This netting is designed to provide an enclosed space, protecting you from insects while allowing air circulation. Please read this manual thoroughly before installation and use to ensure proper setup and to maximize the lifespan of your product. This package includes the mosquito netting only; the gazebo frame and canopy top are not included.

Safety Information

To ensure safe use and prevent damage, please observe the following:

- **Secure Attachment:** Always ensure the netting is securely attached to your gazebo frame. Loose netting can be damaged by wind or pose a tripping hazard.
- **Handle with Care:** During installation and removal, handle the netting and its components carefully to prevent tears or damage to zippers and rings.
- **Weather Conditions:** While designed for outdoor use, consider removing the netting during extreme weather conditions such as strong winds or heavy snow to prevent damage to both the netting and your gazebo structure.
- **Children and Pets:** Keep children and pets away during installation to avoid accidental injury or entanglement.

Package Contents

Please verify that all components are present before beginning installation:

- 4 x Mosquito Netting Panels (Cream White)
- Plastic Chute Hooks (for slotted aluminum pipe hooks)
- Open C-Rings (for ordinary round pipe slides)

Note: Gazebo metal frame and canopy top are NOT included.

Specifications

Model Number	84C-142V04
Product Dimensions (Single Panel)	158.3" L x 81.5" H (402 cm L x 207 cm H)
Material	Nylon (Netting), Polyester (Curtain Fabric)
Color	Cream White
Compatibility	Most 13' x 13' (4x4m) gazebos with four panels
Assembly Required	Yes

(2.07 m).

Important: Please measure your gazebo size carefully before purchasing to ensure compatibility.

Setup and Installation

Follow these steps for quick and easy installation:

1. **Identify Gazebo Rail Type:** Determine if your gazebo has ordinary round pipe slides or slotted aluminum pipe hooks for hanging curtains.
2. **Select Appropriate Hooks:** Use the provided open C-rings for round pipe slides or the plastic chute hooks for slotted aluminum pipe hooks.
3. **Attach Hooks to Netting:** Securely attach the chosen hooks along the top edge of each mosquito netting panel.
4. **Hang Netting Panels:** Carefully hang each panel onto the corresponding rails or hooks of your gazebo frame. Ensure the panels are evenly distributed around the gazebo.
5. **Connect Panels:** Use the zippers on the vertical edges of each panel to connect them, forming a continuous enclosure.

Image: An illustration demonstrating the two types of attachment methods: open C-rings for tube slides and plastic chute hooks for slotted slides.

Operating Instructions

The mosquito netting is designed for flexible use:

- **Enclosing the Gazebo:** To fully enclose your gazebo, zip all four panels together using the smooth zippers. This creates a barrier against insects and provides a degree of privacy.
- **Opening for Access:** Unzip panels as needed to create entry and exit points. The panels can be tied back to the gazebo posts using integrated straps (if available) or separate ties to keep them open.
- **Light and Airflow:** The mesh design allows for light to pass through and maintains airflow, ensuring comfort while keeping pests out.

Maintenance

Proper care will extend the life of your mosquito netting:

- **Cleaning:** Hand wash the netting with mild soap and cool water. Avoid harsh detergents or bleach, which can damage the fabric. Rinse thoroughly.

- **Drying:** Air dry completely before folding or storing. Do not machine dry.
- **Storage:** When not in use for extended periods or during off-season, remove the netting, clean it, ensure it is completely dry, and store it in a cool, dry place away from direct sunlight and pests.
- **Zipper Care:** Periodically check zippers for smooth operation. If they become stiff, a small amount of zipper lubricant can be applied.

Troubleshooting

Problem	Possible Cause	Solution
Netting does not fit gazebo.	Incorrect gazebo size or model.	Verify your gazebo dimensions against the product specifications (13' x 13' / 4x4m). This netting is designed for specific sizes.
Zippers are difficult to operate.	Dirt, debris, or lack of lubrication.	Clean zippers with a soft brush. Apply a silicone-based zipper lubricant if needed. Avoid forcing the zipper.
Netting is torn or damaged.	Sharp objects, excessive force, or weather damage.	Small tears can be repaired with a fabric repair kit. For significant damage, replacement may be necessary.

Warranty and Support

This Outsunny product comes with a **90-day warranty against manufacturer defects**. Please retain your proof of purchase for warranty claims.

For further assistance, questions, or to report a defect, please contact Aosom Canada, the manufacturer, at:
