1. SETUP AND ASSEMBLY

This Tribesigns Executive Desk is designed for straightforward assembly. Please ensure you have all components before beginning. The desk and cabinet may arrive in two separate parcels, potentially at different times.

1.1 Unpacking and Inventory

Carefully unpack all components and compare them against the included parts list in your assembly guide. Verify that all numbered parts and hardware are present.

1.2 Assembly Recommendations

- **Recommended Personnel:** Two people are recommended for assembly to ensure stability and ease of handling larger components.
- **Tools:** All necessary assembly tools are included with the product.
- **Alignment:** When assembling the desktop panels, do not fully tighten screws until all sections are aligned. This allows for minor adjustments to prevent gaps and uneven seams.
- **Lifting:** When moving the assembled desk, lift it by the metal frame rather than the wooden panels to prevent damage.

- **Recommended Uses:** Ideal for gaming, working, writing, and other home office activities.
- **Legroom:** The desk provides generous legroom (29.5 inches height) for comfortable use.

- **Small Drawer:** A dedicated small drawer is available for storing office supplies and personal items.

3. CARE AND MAINTENANCE

Proper care will ensure the longevity and appearance of your Tribesigns Executive Desk.

3.1 Cleaning Instructions

- **General Cleaning:** For routine cleaning, wipe the desk surfaces with a soft, dry cloth.
- **Spot Cleaning:** For spills or stubborn marks, use a damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

3.2 Protecting the Finish

- The desk features a scratch-resistant laminate finish, designed to protect against daily wear and tear.
- Avoid placing extremely hot or cold items directly on the surface without protective coasters.
- Do not drag sharp or heavy objects across the desktop to prevent scratches.

4. TROUBLESHOOTING

This section addresses common issues you might encounter during assembly or use.

4.1 Assembly Challenges

- **Missing Parts:** If any parts are missing upon unboxing, please contact customer service immediately with your product model number and a description of the missing component.
- **Misaligned Panels/Gaps:** Ensure all screws are only hand-tightened during initial assembly. Once all panels are in place and aligned, then proceed to fully tighten all fasteners. This allows for minor adjustments.
- **Bent or Dented Metal Parts:** While rare, if metal components are slightly bent, gentle force may be applied to straighten them for assembly. If parts are significantly damaged, contact customer service for replacements.

4.2 Stability Issues

- **Wobbling Desk:** Check that all assembly screws are securely tightened. Utilize the adjustable leveling feet (refer to Figure 4) at the base of the desk to compensate for uneven floor surfaces.
- **Uneven Desktop Panels:** If desktop panels are not perfectly level after assembly, small washers can be used between the frame and the desktop panels to achieve a level surface.

4.3 General Inquiries
