

VTech 80-572360

VTech 2-in-1 Map and Go Scooter Instruction Manual

Model: 80-572360

Brand: VTech

1. IMPORTANT SAFETY INFORMATION

Please read all instructions before using this product. Keep this manual for future reference.

- **Adult Assembly Required:** This product contains small parts prior to assembly. Adult supervision is required during assembly and play.
- **Age Recommendation:** Intended for children aged 12 to 36 months.
- **Weight Limit:** Maximum user weight is 42 pounds (19 kg).
- **Battery Safety:** Requires 2 AA batteries. Batteries included are for demo purposes only; new batteries are recommended for regular use. Ensure batteries are inserted with correct polarity (+/-). Do not mix old and new batteries or different types of batteries. Remove exhausted batteries promptly.
- **Supervision:** Always supervise children during play to prevent falls or injuries.
- **Usage Environment:** Use on flat, stable surfaces. Avoid stairs, inclines, or uneven terrain.

2. WHAT'S IN THE BOX

Verify that all components are present before beginning assembly:

- VTech 2-in-1 Map and Go Scooter (main body)
- Quick Start Guide

3. SETUP AND ASSEMBLY

3.1 Battery Installation

1. Locate the battery compartment, typically on the underside or dashboard of the scooter.
2. Using a Phillips head screwdriver, loosen the screw on the battery compartment cover.
3. Insert 2 new AA batteries, ensuring correct polarity (+ and -).
4. Replace the cover and tighten the screw securely.

3.2 Transforming from Trike to Scooter

The VTech 2-in-1 Map and Go Scooter is designed to grow with your child, transforming from a stable three-wheeled trike to a two-wheeled scooter.

1. **Trike Mode (Initial Setup):** The product comes pre-assembled in trike mode, providing maximum stability for younger toddlers. Ensure the rear wheels are spread wide for a stable base.
2. **Scooter Mode Transformation:** When your child is ready for more advanced balance and coordination, the rear wheels can be adjusted. Locate the locking mechanism near the rear axle. Follow the specific instructions in the Quick Start Guide to safely bring the two rear wheels closer

together, forming a single, wider wheel for scooter mode. Ensure the mechanism clicks securely into place.

4. OPERATING INSTRUCTIONS

Familiarize yourself with the interactive features of the scooter's dashboard.

4.1 Power On/Off

- Locate the power switch, usually on the dashboard. Slide it to the 'On' position to activate the toy.
- To conserve battery life, slide the switch to the 'Off' position when not in use.

4.2 Interactive Dashboard Features

- **Ignition Key:** Turn the ignition key to hear realistic engine sounds, enhancing imaginative play.
- **Roller Map:** Explore different locations by spinning the roller map.
- **Headlight Ring:** Twist the outer headlight ring to activate various sounds and phrases, including those from the Bear character.
- **Dashboard Buttons:** Press the various buttons on the dashboard to hear counting, traffic and road

safety phrases, as well as engaging songs and melodies.

- **Directional Buttons (Left/Right):** Press the 'Left' or 'Right' buttons to hear corresponding directional cues and sounds.
- **Horn Button:** Press the horn button to activate a horn sound.

4.3 Motion-Activated Sounds

The scooter features motion-activated motor sounds that engage as the child rides, adding to the immersive play experience.

5. MAINTENANCE

5.1 Cleaning

Wipe the toy with a damp cloth and mild soap. Do not immerse the toy in water. Avoid using harsh cleaners or abrasives.

5.2 Storage

Store the scooter in a cool, dry place away from direct sunlight. If storing for an extended period, remove the batteries to prevent leakage.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Toy does not turn on or has no sound.	Batteries are low or incorrectly installed.	Check battery polarity. Replace with new AA batteries. Ensure the power switch is in the 'On' position.
Sounds are distorted or intermittent.	Low battery power.	Replace with new AA batteries.
Wheels are not rolling smoothly.	Debris caught in wheels or worn wheels.	Inspect wheels for any obstructions and remove them. Ensure the toy is used on appropriate surfaces.

7. SPECIFICATIONS

- **Product Dimensions:** 14.48 x 23.26 x 21.06 inches (36.78 x 59.08 x 53.49 cm)
- **Item Weight:** 6.42 pounds (2.91 kg)
- **Item Model Number:** 80-572360
- **Manufacturer Recommended Age:** 12 months - 3 years
- **Batteries:** 2 AA batteries required (included for demo purposes)
- **Maximum Weight Capacity:** 42 pounds (19 kg)
- **Release Date:** July 23, 2025
