## Berilona X60

# Berilona X60 4G Kids Smartwatch Phone User Manual

MODEL: X60 | BRAND: BERILONA

## 1. Introduction

---

The Berilona X60 4G Kids Smartwatch Phone is designed to provide a secure and feature-rich experience for children aged 4-12. It offers essential communication features, parental controls, and various entertainment and educational functions, all within a comfortable and durable design.

## 2. What's in the Box

---

- Kids Smart Watch
- Charging Cable
- User Manual

## 3. Product Overview

---

Figure 3.1: Front view of the Berilona X60 4G Kids Smartwatch Phone.

The Berilona X60 features a large 1.54-inch curved HD IPS display, providing clear and vibrant visuals. The watch is equipped with a soft, breathable silicone strap for comfortable wear throughout the day. It includes physical buttons on the side for easy navigation and quick access to functions like the SOS emergency call.

## 4. Setup

### 4.1. SIM Card Activation

The Berilona X60 comes with a 4G SIM card included in the package for convenient setup. To activate the SIM card, follow the instructions provided with the watch. This typically involves visiting a specific activation page online and entering the SIM card number and other required information. Once activated, insert the SIM card into the designated slot on the watch and power it on to enable calling features.

## 4.2. Initial Power On

After inserting the activated SIM card, press and hold the power button located on the side of the watch until the screen illuminates. The watch will boot up and display the main interface.

## 5. Operating Instructions

### 5.1. Basic Navigation

The watch features an HD touch screen for intuitive navigation. Swipe left or right to browse through different applications and functions. Tap on an icon to open the corresponding feature.

# MAIN FUNCTIONS

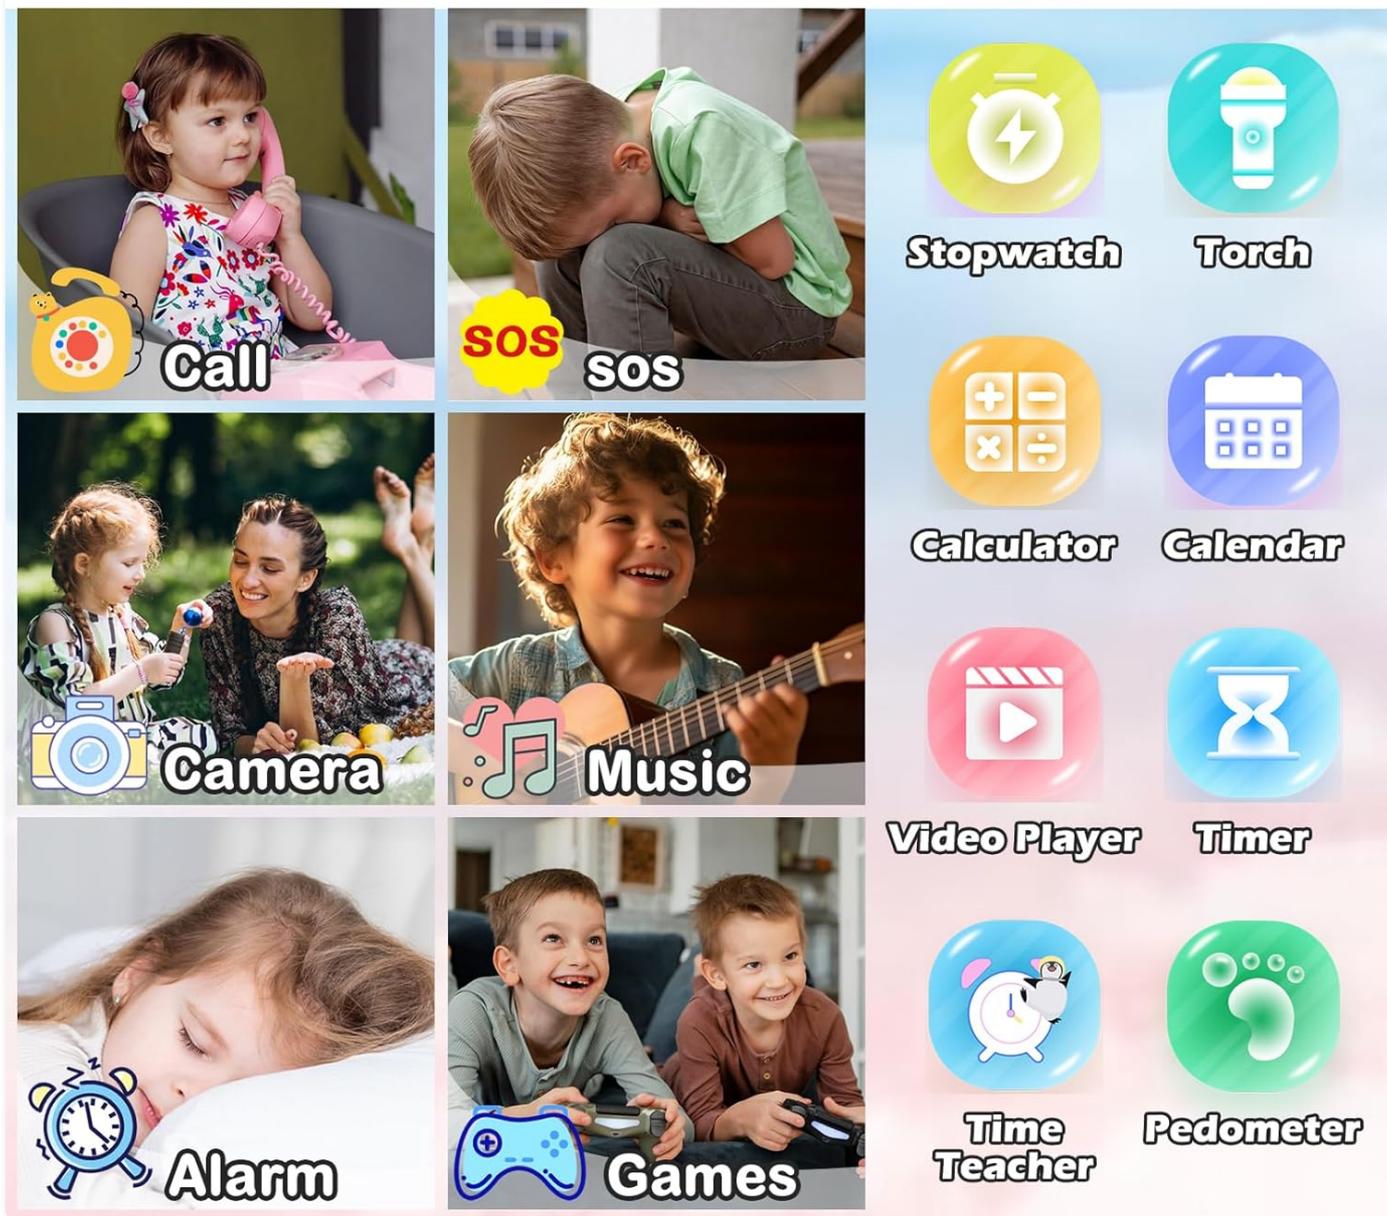

Figure 5.1: Overview of the smartwatch's main functions including Call, SOS, Stopwatch, Torch, Calculator, Calendar, Camera, Music, Video Player, Timer, Alarm, Games, Time Teacher, and Pedometer.

## 5.2. Calling Features (SOS & Contacts)

The 4G connectivity allows for two-way calls. You can add contacts to the watch's phonebook. In case of an emergency, pressing the SOS button for 3-5 seconds will automatically dial up to 3 pre-set SOS numbers in two rounds and send messages to guardians, ensuring timely assistance for your child.

## 5.3. Parental Controls & Games

The smartwatch includes parental control functions to manage game time and prevent over-indulgence. Parents can set limits on how long children can play games directly from the watch settings.

#### 5.4. Multimedia (Camera, Video, Music)

The watch features a built-in camera for taking photos and videos. It also includes a video and music player, allowing children to enjoy their favorite content. Audiobooks are also supported.

## 6. Maintenance

### 6.1. Charging

Use the provided charging cable to charge the smartwatch. Connect the cable to the watch's charging port and a compatible USB power source. Ensure the watch is fully charged before initial use and when the battery level is low.

### 6.2. Cleaning

To clean the smartwatch, gently wipe the screen and strap with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the device.

## 7. Troubleshooting

### 7.1. SIM Card Not Working / No Calls

If the watch cannot make or receive calls, ensure the SIM card is properly activated and inserted. Verify that the SIM card has an active plan and sufficient balance. Some users have reported issues with device certification or APN settings; consult your SIM card provider's support or the watch manufacturer's support for specific APN configuration if needed.

### 7.2. Parental Control Issues

While the watch offers parental controls for game time, some users have noted that these settings might be easily bypassed by children directly on the watch. Regularly check the settings to ensure they are active and functioning as intended.

### 7.3. Battery Life

Battery life can vary based on usage. If the battery drains quickly, ensure all unnecessary background applications are

closed. Reduce screen brightness and adjust screen timeout settings to conserve power. Ensure the watch is fully charged using the correct charging cable.

## 8. Specifications

---

Feature	Detail
