1. Introduction

Thank you for choosing the Urban Deco 55-75 Gallon Fish Tank Stand. This stand is designed to provide a stable and stylish platform for your aquarium or terrarium, supporting up to 900 lbs. Its dual-layer design offers versatile storage and display options. Constructed from reinforced steel with a protective powder coating, it ensures durability and resistance to wear. This manual provides detailed instructions for assembly, setup, maintenance, and troubleshooting to ensure safe and proper use of your product.

75 Gallon Fish Tank Stand

Urban Deco

- 900LBS Capacity
- Dual-Layer Design
- Easy Assembly
- Built to Last

Modern Minimalist Design

Superior Size

2. Safety Information

Please read and understand all safety warnings before assembly and use. Failure to follow these instructions may result in product damage, property damage, or personal injury.

- **Weight Capacity:** Do not exceed the maximum load capacity of 900 lbs. This stand is designed for 55-75 gallon aquariums. Overloading can cause structural failure.
- **Level Surface:** Always place the stand on a flat, level, and stable surface to prevent tipping or wobbling.
- **Proper Assembly:** Ensure all screws and fasteners are securely tightened during assembly. Periodically check for tightness.
- **Children and Pets:** Keep children and pets away from the stand during assembly. Do not allow children to climb or play on the stand.
- **Water and Electricity:** Exercise extreme caution when handling water and electrical components near the stand. Ensure all electrical cords are properly routed and secured to prevent hazards.
- **Moving the Stand:** Never attempt to move the stand with an aquarium or terrarium filled with water or contents. Empty the tank completely before relocating the stand.

3. Parts List

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

Part	Description	Quantity
A	Side Frame (Left)	1
B	Side Frame (Right)	1
C	Top Support Bar	4
D	Middle Support Bar	2
E	Bottom Shelf	1
F	Adjustable Foot	4
G	Screws (M6x15mm)	Appropriate quantity
H	Hex Key	1

Note: The exact quantity of screws may vary slightly. Ensure you have enough for all connection points.

4. Assembly Instructions

Follow these steps carefully to assemble your Urban Deco Fish Tank Stand. It is recommended to have two people for assembly.

1. Assemble the Base Frame:

Connect the two Side Frames (A and B) using the Bottom Support Bars (D). Secure them with screws (G) using the provided Hex Key (H). Ensure the frames are oriented correctly.

Your browser does not support the video tag.

Video: This video demonstrates the step-by-step assembly process of the Urban Deco Fish Tank Stand, from connecting the side frames to installing the shelves and top supports.

2. Attach Adjustable Feet:

Screw the Adjustable Feet (F) into the pre-drilled holes at the bottom of the assembled base frame. These feet help level the stand on uneven surfaces.

3. Install Middle Shelf:

Place the Bottom Shelf (E) onto the Middle Support Bars (D). Secure it from underneath with screws (G).

4. Attach Top Support Bars:

Connect the Top Support Bars (C) between the upper sections of the Side Frames (A and B). Secure them with screws (G). These bars provide the primary support for your aquarium.

Reinforced Steel & Rust Resistant

Durable materials and a protective coating ensure a long-lasting stand for your fish tank stand.

Image: Detail showing the reinforced steel construction and protective powder coating, highlighting the durability of the stand.

5. Final Check:

Once all components are assembled, gently shake the stand to ensure it is stable. Tighten any loose screws. Use the adjustable feet to level the stand if necessary.

5. Setup

Proper setup is crucial for the safety and longevity of your aquarium and stand.

- 1. Choose Location:** Select a permanent, level location for your stand. Ensure it is away from direct sunlight, heat sources, and high-traffic areas.
- 2. Level the Stand:** Use a spirit level to ensure the stand is perfectly level. Adjust the adjustable feet as needed. An unlevel stand can cause stress on the aquarium glass.
- 3. Place Aquarium:** Carefully place your 55-75 gallon aquarium onto the top surface of the stand. Ensure it is centered and fully supported by the frame.
- 4. Utilize Lower Shelf:** The lower shelf can be used for additional smaller tanks, storage of aquarium supplies, or decorative items. Ensure any items placed on the lower shelf do not exceed its weight capacity and are distributed evenly.

Dual-Layer Versatility Maximized Space Efficiency

Supports multiple tanks or storage – versatile for all your aquarium setups.

Image: The dual-layer design of the stand, illustrating how the top supports a main aquarium while the bottom shelf provides space for a smaller tank or supplies.

6. Operating the Stand

The Urban Deco Fish Tank Stand is designed to be a static support structure. Proper 'operation' involves ensuring the aquarium is correctly seated and maintained.

- **Aquarium Placement:** Always ensure your aquarium is placed directly on the top frame of the stand, with its weight evenly distributed.
- **Weight Distribution:** When filling your aquarium, do so gradually to allow the stand to settle and to check for any signs of instability.
- **Access:** The open design allows for easy access to filters, heaters, and other equipment placed behind or around the tank. The lower shelf provides convenient storage for frequently used items.

Heavy-Duty Support

900 lbs Capacity

Image: Visual representation of the stand's 900 lbs heavy-duty support capacity, emphasizing its robust construction.

7. Maintenance

Regular maintenance will help preserve the appearance and structural integrity of your stand.

- **Cleaning:** Wipe the stand with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the powder coating.
- **Inspection:** Periodically inspect all screws and connections to ensure they remain tight. Retighten if necessary.
- **Level Check:** Recheck the stand's level periodically, especially after moving or if you notice any changes in stability. Adjust the feet as needed.
- **Rust Prevention:** While the stand has a protective powder coating, promptly wipe away any spilled water to prevent potential rust, especially in areas where the coating might be compromised.

8. Troubleshooting

If you encounter any issues with your Urban Deco Fish Tank Stand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Stand is wobbly or unstable.	Uneven floor surface; loose screws; improper assembly.	Ensure the stand is on a flat, level surface. Adjust the leveling feet. Check and tighten all assembly screws. Review assembly steps.
Aquarium does not sit flush on the top frame.	Stand is not level; aquarium dimensions are incompatible.	Verify the stand is perfectly level using the adjustable feet. Confirm your aquarium's dimensions are within the recommended range for this stand (48.4"x19.7").
Difficulty during assembly.	Misaligned parts; incorrect orientation of components.	Refer to the assembly video and diagrams. Ensure parts are oriented correctly before tightening screws. Do not overtighten screws until all parts are loosely fitted.

9. Specifications

Feature	Detail
Product Dimensions (L x W x H)	48.43 x 19.69 x 31.5 inches
Load Capacity	900 Pounds
Recommended Tank Size	55-75 Gallon
Item Weight	41.5 pounds
Material	Reinforced Steel
Finish Type	Powder Coated
Color	Black
Special Features	Dual-layer functionality, minimalist design, robust construction, adjustable feet
Assembly Required	Yes

Superior Size Designed for Large Aquariums
