2. **Identify Parts:** Refer to the parts list in the included assembly diagram to identify each component.
3. **Assemble Base Frame:** Begin by assembling the main metal frame structure according to the diagrams. Do not fully tighten bolts until all parts are loosely connected.
4. **Attach Ladder:** Securely attach the ladder to the designated side of the bed frame.
5. **Install Desk and Shelves:** Mount the desk surface and the various shelves to the frame using the provided hardware. Ensure they are level and stable.
6. **Install Bed Slats:** Place and secure the bed slats onto the upper bunk frame.
7. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and screws. Do not overtighten.
