- **Cleaning:** Wipe the track and components with a dry, soft cloth. Avoid using water or harsh cleaning agents, as the product is made of paper/cardboard.

If you encounter any issues with your racing track, consider the following:

- **Track Pieces Not Connecting:** Ensure that each road piece is aligned correctly and gently pressed into place. The interlocking design requires proper orientation.
- **Cars Not Rolling Smoothly:** Check for any debris on the track surface or on the car wheels. Ensure the track is laid on a flat, even surface.
