KEY FEATURES

This camera is equipped with several advanced features to enhance your security:

- **1080p HD Video:** Provides clear, high-definition live streaming and recordings.
- **Weatherproof Durability:** Built to withstand various outdoor conditions (IP65 rated).
- **Customizable Motion Detection:** Define specific zones to detect people, animals, or vehicles, reducing false alerts.
- **2-Way Audio:** Communicate with visitors or deter intruders remotely.
- **Advanced Night Vision:** Ensures clear monitoring even in complete darkness.
- **Voice Control:** Compatible with Amazon Alexa and Google Home for hands-free operation.
- **Cloud & Local Storage:** Options for secure cloud storage (subscription may be required) and local storage via microSD card.

SETUP GUIDE

Follow these steps to set up your Mercurly Smart Outdoor Security Camera:

1. Download the Mercurly Smart App:

Scan the QR code below or search for "Mercurly Smart" in your mobile device's app store to download and install the application. Create an account or log in if you already have one.

EASY SET UP

Follow the step-by-step in-app instructions to setup your new smart camera.

1

Scan QR code
to Download App

2

Power on
the Camera

3

Connect with

Image: A visual guide showing three easy setup steps: scanning a QR code to download the app, powering on the camera, and connecting with the camera via the app. The QR code for app download is prominently displayed. For direct app download, visit <https://qr.link/QJKDcN>.

2. Power On the Camera:

Connect the camera to a power source using the provided power adapter. The camera will power on and indicate its status, usually with an LED light.

3. Connect with the App:

Open the Merkury Smart app, tap the '+' icon to add a new device, and follow the on-screen instructions to connect your camera to your Wi-Fi network. Ensure your phone is connected to a 2.4GHz Wi-Fi network during setup.

4. Mounting the Camera:

Choose a suitable outdoor location for optimal coverage. Use the included mounting hardware to securely attach the camera to a wall or ceiling. Ensure the camera has a clear line of sight and is within range of your Wi-Fi signal.

OPERATING INSTRUCTIONS

Once your camera is set up, you can utilize its various functions through the Merkury Smart app:

Live View

Access real-time video footage from your camera anytime, anywhere, directly from your smartphone.

NEVER MISS A THING

Check back at home from anywhere using your smartphone.

Motion Detection & Custom Zones

Configure the camera to detect motion and receive instant alerts. You can customize specific motion zones within the camera's view to focus on critical areas and minimize unnecessary notifications.

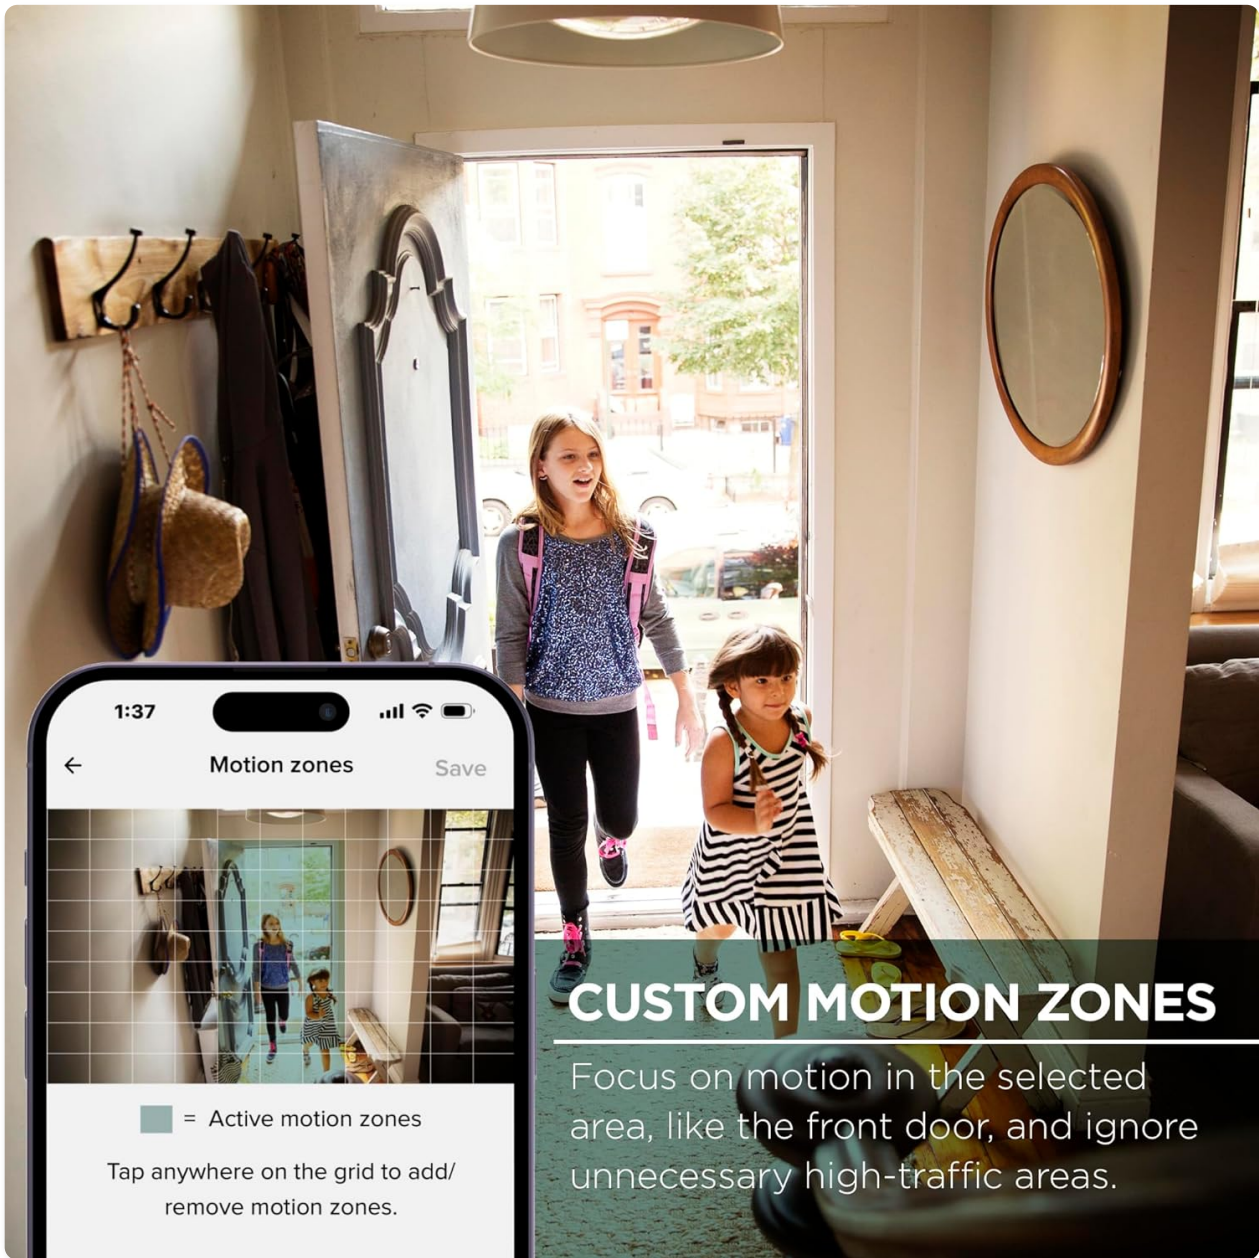

Image: A smartphone displaying the Mercury Smart app interface, showing how to set up custom motion zones by tapping on a grid overlay on the camera's live view.

2-Way Audio

Use the built-in microphone and speaker to communicate with anyone near the camera, or to deter unwanted visitors.

Image: The Merkurs Smart camera mounted on an exterior wall next to a blue door, with a thought bubble suggesting a conversation, illustrating its 2-way audio capability.

Night Vision

The camera automatically switches to night vision mode in low-light conditions, providing clear black-and-white footage up to a certain distance.

NIGHT VISION

Peace of mind 24/7, even in the dark.

Image: The Mercurry Smart camera mounted outdoors at night, with its infrared lights active, demonstrating its night vision capability under a starry sky.

Voice Control

Integrate your camera with smart home assistants like Amazon Alexa or Google Home for convenient voice commands.

VOICE CONTROL

Check your camera with simple voice commands.

"Hey Google, show me the outdoor camera."

Image: A smart display showing a live feed from the Mercury Smart camera, with logos indicating compatibility with Google Assistant and Amazon Alexa, demonstrating voice control functionality.

Storage Options

Your camera supports both cloud storage (via subscription) and local storage using a microSD card (up to 128GB, sold separately).

MAINTENANCE

To ensure optimal performance and longevity of your Mercurly Smart Outdoor Security Camera, follow these maintenance guidelines:

- **Cleaning:** Periodically wipe the camera lens and body with a soft, damp cloth to remove dust, dirt, or water spots. Avoid using harsh chemicals or abrasive materials.
- **Weatherproofing:** While the camera is weatherproof (IP65 rated), ensure all cables and connections are securely sealed and protected from direct exposure to extreme weather conditions. Regularly check for any signs of wear or damage to the casing or seals.
- **Firmware Updates:** Keep your camera's firmware updated through the Mercurly Smart app to benefit from the latest features, security enhancements, and bug fixes.

WEATHERPROOF

Durable with crystal clear imaging through any storm.

Image: The Mercury Smart camera being sprayed with water, illustrating its weatherproof durability and ability to function effectively in various weather conditions.

TROUBLESHOOTING

If you encounter issues with your Mercury Smart Outdoor Security Camera, refer to the following common problems and solutions:

Problem	Possible Solution
Camera not connecting to Wi-Fi	Ensure your Wi-Fi network is 2.4GHz. Check Wi-Fi signal strength at the camera's location. Restart your router and the camera. Re-attempt the connection process in the app.
Poor video quality	Check your Wi-Fi signal strength. Ensure the camera lens is clean. In the app, verify the video resolution setting is set to 1080p HD.
Motion alerts are too frequent or not triggering	Adjust motion detection sensitivity in the app. Configure custom motion zones to exclude high-traffic areas or focus on specific regions.

Problem	Possible Solution
2-Way Audio not working	Ensure microphone and speaker permissions are enabled for the Mercury Smart app on your phone. Check the volume settings in the app.
Night vision is unclear	Ensure there are no obstructions blocking the camera's infrared lights. Clean the camera lens.
Camera is offline	Check if the camera is powered on. Verify your Wi-Fi network is active and stable. Restart the camera and check the app for connection status.

If these solutions do not resolve your issue, please refer to the support section or the Mercury Smart app for further assistance.
