Key Features:

- **Lithium-ion Battery:** Provides exceptional cordless performance with up to 180 minutes of runtime.
- **Quick Charge System:** A full 3-hour charge provides 5 hours of cordless use. A 20-minute quick charge offers 40 minutes of use.
- **Robust Metallic Design:** Ensures durability and a premium feel.
- **Japanese Steel T-Blade:** Ultra-sharp for precise 0.2mm finishing, ideal for contours and details.
- **Adjustable Guide Combs:** Two combs for short beards (1-6mm) and longer beards (7-12mm).
- **100% Waterproof:** Suitable for wet or dry use and easy cleaning.
- **USB Charging Stand:** Convenient charging and storage.

1. Initial Charging

Before first use, fully charge the trimmer for 3 hours. The digital indicator will show the battery level. Place the trimmer on the USB charging stand or connect the USB cable directly to the trimmer.

2. Attaching Guide Combs

The trimmer comes with two adjustable guide combs:

- One comb for lengths 1-6mm.
- One comb for lengths 7-12mm.

To attach a comb, align it with the trimmer head and push gently until it clicks into place. To remove, pull the comb away from the trimmer head.

OPERATING INSTRUCTIONS

1. Powering On/Off

Press the power button located on the trimmer handle to turn the appliance on or off.

2. Adjusting Cutting Length

With a guide comb attached, use the integrated dial on the comb to select your desired cutting length. Ensure the comb is securely locked at the chosen setting before trimming.

3. Trimming Technique

For best results, ensure your beard is clean and dry. Trim against the direction of hair growth, using smooth, even strokes. For detailing and outlining, remove the guide comb and use the bare blade.

MAINTENANCE

1. Cleaning the Trimmer

The BaByliss T996E is 100% waterproof, allowing for easy cleaning. After each use, turn off the trimmer and rinse the blade head and guide combs under running water. For a more thorough clean, you can detach the blade head (refer to specific instructions in the full manual if available) and rinse it separately. Ensure all parts are dry before reassembling or storing.
