Model: BJ-115 | Brand: Merax

INTRODUCTION

Thank you for choosing the Merax 36-inch Freestanding Bathroom Vanity with Sink. This manual provides detailed instructions for the safe assembly, operation, and maintenance of your new vanity. Please read all instructions carefully before beginning installation and retain this manual for future reference.

SAFETY INFORMATION

Warning: To avoid the risk of electrical shock, do not install or use this product without proper grounding. Always hire a licensed professional for installation. Keep the area around the vanity dry and free of water to prevent slips and falls. Always ensure all connections are secure and leak-free after installation. Do not overload drawers or shelves to prevent tipping or damage. Use appropriate safety gear during assembly and installation.

PRODUCT OVERVIEW

The Merax 36-inch Bathroom Vanity with Sink is designed for both functionality and aesthetic appeal. It features a solid wood frame and MDF construction for durability, a 36-inch countertop with an integrated sink, and ample storage with two doors and two drawers.

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of the Merax Bathroom Vanity requires careful attention to detail. Please ensure all parts are present before beginning. Refer to the included assembly instructions for detailed diagrams and step-by-step guidance. Professional installation is recommended for plumbing connections.

Required Tools (Not Included):

- Phillips Head Screwdriver
- Flat Head Screwdriver
- Adjustable Wrench
- Level
- Silicone Sealant (for sink installation)

Assembly Steps:

1. **Unpack and Inspect:** Carefully unpack all components and inspect for any damage. Verify all parts listed in the packing list are present.
2. **Assemble Cabinet Frame:** Follow the provided diagrams to assemble the main cabinet frame using the designated hardware. Ensure all connections are tight and secure.
3. **Install Drawers and Doors:** Attach drawer slides to the cabinet and assemble drawers. Install the soft-close hinges onto the cabinet doors and attach them to the frame. Adjust hinges for proper alignment.
4. **Place Countertop and Sink:** Carefully place the vanity top with the integrated sink onto the assembled cabinet. Apply silicone sealant around the edges to secure it and prevent water leakage.
5. **Connect Plumbing:** A large cutout on the back panel provides access for plumbing. Connect the faucet (not included), drain, and water supply lines according to local plumbing codes. *It is highly recommended to hire a licensed plumber for this step.*
6. **Level the Vanity:** Use a level to ensure the vanity is perfectly horizontal. Adjust the feet if necessary.

OPERATING INSTRUCTIONS

The Merax Bathroom Vanity is designed for ease of use. The drawers and cabinet doors feature smooth operation and soft-close mechanisms for quiet and gentle closing. The integrated sink is ready for use once plumbing connections are complete.

- **Drawers:** Gently pull to open and push to close. The soft-close feature will engage automatically.
- **Cabinet Doors:** Use the handles to open and close the doors. The soft-close hinges will ensure a smooth and quiet closure.
- **Sink:** Ensure the faucet is properly installed and water supply is connected before use. The overflow drain helps prevent accidental spills.

MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your Merax Bathroom Vanity.

- **Cleaning the Cabinet:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that can damage the painted finish.
- **Cleaning the Sink/Countertop:** The glossy countertop and integrated sink are easy to clean. Use mild soap and water with a soft cloth. Rinse thoroughly and dry to prevent water spots. Do not use abrasive pads or cleaners containing bleach or ammonia.
- **Hardware:** Periodically check and tighten any loose screws on handles, hinges, or drawer slides.
- **Water Exposure:** Wipe up any water spills immediately to prevent moisture damage to the wood and MDF components.

TROUBLESHOOTING

This section addresses common issues you might encounter with your vanity.

Problem	Possible Cause	Solution
Drawers do not close smoothly or align properly.	Misaligned drawer slides or obstructions.	Check that drawer slides are correctly installed and aligned. Ensure no items are obstructing the drawer's path. Adjust drawer slides if necessary.
Cabinet doors are misaligned or do not close completely.	Hinges are loose or require adjustment.	Tighten hinge screws. Adjust the three-way adjustable hinges to align the doors.
Water leakage from sink or plumbing connections.	Loose connections or improper sealant application.	Check all plumbing connections for tightness. Reapply silicone sealant around the sink if necessary. If issues persist, contact a licensed plumber.
Vanity feels unstable or wobbly.	Uneven floor or loose leg connections.	Adjust the leveling feet at the bottom of the vanity. Ensure all leg connections are securely tightened.
