onerbl 12V AC/DC Adapter Instruction Manual

Compatible with Nood KCA423 The Flasher 2.0 IPL Light Hair Removal Handset

1. Introduction

This manual provides essential instructions for the safe and effective use of your onerbl 12V AC/DC Adapter. Please read this manual thoroughly before using the product and retain it for future reference. This adapter is designed to provide reliable power to compatible devices, specifically the Nood KCA423 The Flasher 2.0 Corded IPL Light Hair Removal Handset.

2. Product Overview

The onerbl 12V AC/DC Adapter is a high-quality replacement power charger designed for consistent performance. It features a universal input for worldwide compatibility and incorporates multiple safety protections.

Key Features:

- **Input:** AC 100-240V 50/60Hz Auto (Worldwide AC Input)
- **Output:** DC 12V (Specific amperage will vary based on model, typically 3A)
- **Safety Protections:** Over Voltage Protection, Over Heat Protection, Short-Circuit Protection, Over-Current Protection
- **Durable Design:** Constructed with quality materials for extended lifespan.

Image: Detailed dimensions of the adapter and its cables. The total cable length is approximately 127.8 inches, with the adapter body measuring 4.2 inches in length.

Image: Illustration of the adapter's smart chip providing multiple layers of protection, including short-circuit, over-voltage, and over-current safeguards.

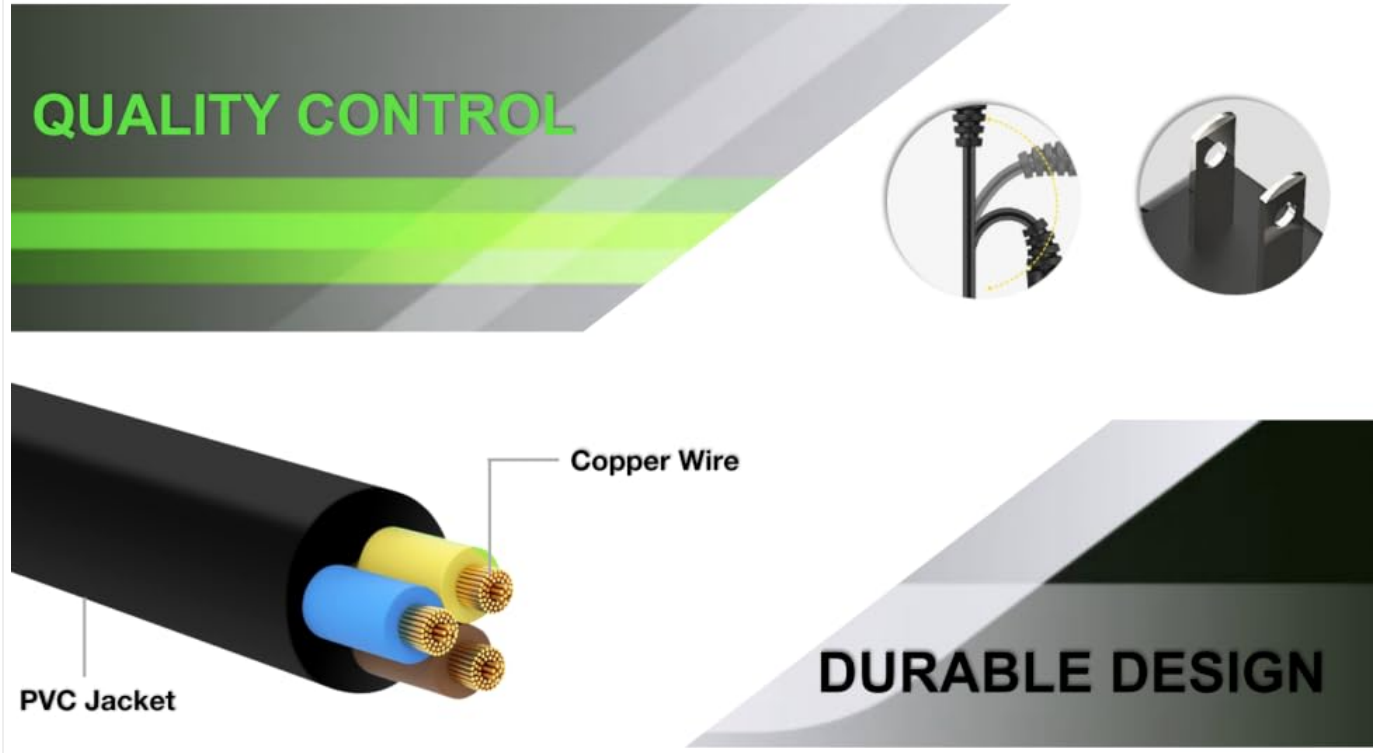

Image: Cross-section view of the power cable, showing the copper wire and PVC jacket, emphasizing the durable design and quality control in manufacturing.

Image: Visual representation of extended cord designs, showing examples of 10 ft and 6.6 ft cable lengths for flexible placement.

Image: Diagram illustrating the wide range of applications for this power adapter, compatible with various electronic devices beyond the specified IPL handset.

3. Specifications

Feature	Description
Model Number	8e06878a-70aa-4120-ba22-186a12af22d6
Input Voltage	AC 100-240V, 50/60Hz
Output Voltage	DC 12V
Compatibility	Nood KCA423 The Flasher 2.0 Corded IPL Light Hair Removal Handset, and other compatible 12V devices.
Protection Features	Over Voltage Protection, Over Heat Protection, Short-Circuit Protection, Over-Current Protection
Manufacturer	Shenzhen Waweis Technology Co., Ltd

4. Setup Instructions

Follow these steps to properly set up your onerbl 12V AC/DC Adapter:

1. **Inspect the Adapter:** Before use, visually inspect the adapter and its cables for any signs of damage. Do not use if damaged.
2. **Connect to Device:** Plug the DC output connector of the adapter into the power input port of your Nood KCA423 The Flasher 2.0 IPL Light Hair Removal Handset. Ensure a secure connection.
3. **Connect to Power Outlet:** Plug the AC input plug of the adapter into a standard AC 100-240V wall outlet.
4. **Verify Power:** Once connected, your device should receive power. Refer to your device's manual for specific power

indicators.

Image: The onerbl AC/DC adapter properly connected to a wall outlet and powering a device, demonstrating a typical setup.

5. Operating Instructions

The onerbl 12V AC/DC Adapter operates automatically once connected to a power source and a compatible device. No manual operation is required for the adapter itself.

- Ensure the adapter is always connected to a stable power source.
- Disconnect the adapter from the wall outlet when not in use for extended periods.
- Always use the adapter with devices that match its voltage and current specifications to prevent damage.

6. Safety Information

To ensure safe operation and prevent damage, please observe the following safety precautions:

- Do not expose the adapter to water, moisture, or high humidity.
- Do not use the adapter in extremely hot or cold environments.
- Avoid dropping or subjecting the adapter to strong impacts.
- Do not attempt to open, modify, or repair the adapter. Refer all servicing to qualified personnel.
- Keep the adapter away from children and pets.
- Ensure proper ventilation around the adapter during use to prevent overheating.
- Only use the adapter with devices that require 12V DC input and whose current draw does not exceed the adapter's maximum output.

7. Maintenance

The onerbl 12V AC/DC Adapter requires minimal maintenance:

- **Cleaning:** Disconnect the adapter from the power outlet and device before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place when not in use. Avoid wrapping the cable too tightly to prevent damage.

8. Troubleshooting

If you encounter issues with your adapter, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not powering on	Adapter not properly connected; Power outlet not working; Device fault; Adapter fault.	Ensure all connections are secure. Test the power outlet with another device. Try the adapter with another compatible device. If the adapter is faulty, discontinue use.
Adapter feels hot	Normal operation; Poor ventilation; Overload.	A slight warmth is normal. Ensure adequate airflow around the adapter. Disconnect if excessively hot and check device compatibility.
Intermittent power	Loose connection; Damaged cable.	Check all connections. Inspect cables for damage. If damaged, discontinue use.

If the problem persists after attempting these solutions, please contact customer support.

9. Warranty and Support

This onerbl product is designed for reliability and performance. For information regarding warranty coverage or technical support, please refer to the documentation provided with your purchase or contact the seller directly. Protection plans may be available for extended coverage.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
