# Vilbocr PowerBait Fishing Dough Bait Instruction Manual

Model: PowerBait Fishing Dough Bait Glitter Trout Bait

## PRODUCT OVERVIEW

---

The Vilbocr PowerBait Fishing Dough Bait is designed to attract various freshwater fish species, including carp and trout, through its unique scent dispersion technology. This versatile bait can be used independently or combined with other fishing attractants to enhance its effectiveness.

## KEY FEATURES

- **Variety of Flavors:** Available in red (sweet potato), green (fruity sour), and black (fishy) to suit different fish species and water conditions.
- **Long-lasting Formula:** Designed to remain on the hook for extended periods, with user data suggesting up to 3 hours of fishing per capsule.
- **Flexible and Customizable:** The bait can be easily cut and trimmed to an appropriate size based on the target fish population and personal preference, minimizing waste.
- **Multifunctional Application:** Can be used as a standalone bait, or in conjunction with tri-color aromatic rice or other powdered baits. It disperses scent rapidly upon contact with water.
- **Easy Operation:** Simple to use; just remove from the container, attach to the hook, and adjust size as needed.

## PREPARATION AND USAGE

This dough bait is designed for straightforward application. Follow these steps for optimal results:

1. **Selection:** Choose the flavor (red, green, or black) that best suits the fish species you are targeting and the specific water conditions.
2. **Baiting the Hook:** Take a piece of the dough bait from the container. It can be directly linked to your fishing hook.
3. **Sizing:** Trim the bait to an appropriate size for the local fish population. This flexibility allows for efficient use and reduces waste.
4. **Enhancement (Optional):** For increased attraction, the bait can be dipped in water directly to adhere to tri-color aromatic rice or other powdered baits. The bait is formulated to release its aroma and "fruit pulp" within 2 seconds of entering the water.

### BAIT CHARACTERISTICS AND EFFECTIVENESS

The Vilbocr PowerBait is designed for maximum appeal to fish. Its key characteristics include:

- **Scent Dispersion:** Upon entering the water, the bait quickly releases its scent and flavor, creating an attractive plume for fish.
- **Texture:** The dough bait maintains a springy and firm texture, ensuring it stays on the hook effectively during casting and while submerged.
- **Longevity:** Each piece of bait is formulated to last for an extended period, reducing the need for frequent re-baiting.

**Directly throwing it into the target fishing area can attract the school of fish**

**Adsorb onto the main ingredient or bait for fishing achieving the effect of attracting taste**

## STORAGE AND MAINTENANCE

To maintain the quality and effectiveness of your Vilbocr PowerBait Fishing Dough Bait, store it in its original container in a cool, dry place away from direct sunlight. Ensure the lid is securely closed after each use to prevent drying out and preserve its scent and texture.

## TROUBLESHOOTING

While this bait is designed for high effectiveness, fishing success can depend on various factors. If you are not experiencing desired results, consider the following:

- **Bait Size:** Ensure the bait size is appropriate for the target fish. Smaller fish may require smaller bait pieces.
- **Location and Conditions:** Fish activity is highly dependent on water temperature, time of day, weather, and specific fishing location. Adjust your approach based on these variables.
- **Flavor Choice:** Experiment with different flavors (red, green, black) to determine which is most appealing to the fish in your specific fishing environment.

- **Presentation:** Ensure the bait is presented naturally on the hook and that your fishing technique is suitable for the target species.
