- **Weight capacity:** Do not exceed the recommended weight capacity of 350 lbs for the bed.
- **Mattress thickness:** Use a mattress no thicker than 6 inches to ensure the safety of the guardrails.

3. PACKAGE CONTENTS

Before assembly, verify that all parts and hardware are present. If any items are missing or damaged, please contact customer support.

While a detailed parts list is typically included in the physical packaging, expect the following main components:

- Bed frame components (legs, side rails, end panels)
- Metal slats for mattress support
- 4-tier storage shelf unit
- Ladder components
- Guardrails
- Hardware pack (bolts, screws, washers, Allen wrench)

4. SETUP & ASSEMBLY INSTRUCTIONS

Assembly requires at least two adults. Clear a spacious area for assembly. Do not fully tighten bolts until instructed.

4.1 Tools Required

- Included Allen Wrench
- Phillips Head Screwdriver (not included, for some hardware)

4.2 Assembly Steps

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a soft, clean surface to prevent scratches. Refer to the parts list in your physical manual to identify each piece.
2. **Assemble the Main Bed Frame:** Connect the main vertical support posts and horizontal rails using the provided bolts and nuts. Ensure all connections are finger-tight only at this stage.
3. **Attach the Storage Shelf Unit:** Secure the 4-tier storage shelf unit to the designated side of the bed frame. This unit also functions as the ladder. Ensure it is firmly attached to the main frame.
4. **Install Guardrails:** Attach the full-length guardrails to the top bunk frame. These are crucial for safety.
5. **Insert Metal Slats:** Place and secure the 20 heavy-duty metal slats onto the bed frame. Ensure they are evenly spaced and properly fastened to provide adequate mattress support.
6. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and screws using the Allen wrench and screwdriver. Do not overtighten.
7. **Stability Check:** Gently shake the assembled bed to ensure it is stable and all connections are secure.

5.1 Loft Bed

- Ensure a twin-size mattress no thicker than 6 inches is used on the top bunk.
- Always use the integrated ladder for safe access to and from the top bunk.
- The under-bed space can be utilized for play, storage, or a workstation.

5.2 Storage Shelves

- The 4-tier shelves are designed for books, decor, and light storage items.
- Distribute weight evenly across the shelves. Avoid placing excessively heavy items on any single shelf.

6. MAINTENANCE

- **Cleaning:** Wipe down the metal frame and shelves with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections. Tighten any that have become loose to maintain structural integrity and safety.

- **Damage Inspection:** Regularly check for any signs of wear, damage, or structural fatigue. Discontinue use if significant damage is found and contact customer support.
