4. GAME PLAY (OPERATING INSTRUCTIONS)

The objective is to capture villains and collect the most Batarangs by the end of the game.

4.1 Taking a Turn

1. Roll both the standard die and the action die.
2. Move your character token clockwise around the board the number of spaces indicated by the standard die.
3. Activate your character's special ability based on the action die roll (refer to your Character Card for details).
4. Follow the instructions of the space you land on.

4.2 Capturing Villains

Instead of properties, the board spaces feature famous Gotham villains. When you land on an uncaptured villain space, you may choose to capture them by paying the indicated Batarang cost. If you capture a villain, take their Villain Calling Card and place an Arkham Marker on their space on the board. If another player lands on a villain you have captured, they must pay you Batarangs as a fee. The fee increases if you own both villains of the same color set.

4.3 Batarangs (Currency)

Batarangs replace traditional Monopoly money. Collect Batarangs when passing 'GO' or from other players when they land on your captured villains. Pay Batarangs to capture villains or when landing on other players' captured villains.

Various Batarang tokens, serving as the game's currency, are shown in silver (value 1) and gold (value 5).
