- **Cleaning:** For general cleaning, vacuum the velvet upholstery regularly using a soft brush attachment. For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, consult a professional upholstery cleaner.

- **Moving:** When moving the sofa, lift it rather than dragging to prevent damage to the legs and frame.

7. TROUBLESHOOTING

- **Squeaking Noises:** Check all bolts and screws for tightness. Re-tighten any loose connections.
- **Sleeper Mechanism Sticking:** Ensure the area around the pull-out mechanism is clear of obstructions. Apply a silicone-based lubricant to the moving parts if necessary.
