Havit H2230D

Havit H2230D Gaming Headset User Manual

Model: H2230D

1. INTRODUCTION

Thank you for choosing the Havit H2230D Wired Over-Ear Gaming Headset. This manual provides essential information for setting up, operating, and maintaining your headset to ensure optimal performance and longevity. Please read this manual thoroughly before using the product.

2. PRODUCT OVERVIEW

The Havit H2230D is a wired over-ear gaming headset designed for immersive audio experiences and clear communication. It features a comfortable design and a sensitive microphone, making it suitable for extended gaming sessions.

Key Features:

- **Speaker:** 50mm (High Magnetic) for powerful sound.
- **Sensitivity:** 116dB \pm 3dB for clear audio output.
- **Microphone:** 6.0 \times 2.7mm for effective voice capture.
- **Microphone Sensitivity:** -38dB \pm 3dB.
- **Connectivity:** Standard 3.5mm jack with a 1.8m cable length.

3. SETUP

1. **Connect the Headset:** Insert the 3.5mm jack into the corresponding audio port on your device (desktop computer, laptop, tablet, mobile phone, or car audio system). Ensure the connection is secure.
2. **Adjust the Headband:** Extend or retract the adjustable headband to fit comfortably over your head. The earcups should fully cover your ears without excessive pressure.
3. **Position the Microphone:** Adjust the flexible microphone boom to bring the microphone close to your mouth for optimal voice pickup.
4. **Initial Volume Check:** Before starting your audio, set the volume control on the headset or your device to a low level to prevent sudden loud sounds.

4. OPERATING INSTRUCTIONS

The Havit H2230D headset features intuitive controls for easy audio management during use.

Controls:

- **Volume Control:** Use the integrated volume wheel on the earcup or cable to adjust the audio output level. Rotate it up to increase volume and down to decrease.
- **Microphone Mute Button:** A dedicated button allows you to quickly mute or unmute your microphone. Press once to toggle the microphone status.

For optimal performance, ensure your device's audio settings are configured to use the Havit H2230D as the default input and output device.

5. MAINTENANCE

Proper maintenance will extend the life of your headset and ensure consistent performance.

- **Cleaning:** Use a soft, dry cloth to wipe down the earcups and headband. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the speaker grilles or microphone. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store the headset in a clean, dry place away from direct sunlight and extreme temperatures. Avoid tangling the cable by coiling it loosely.
- **Cable Care:** Do not pull on the cable to disconnect the headset. Always grasp the 3.5mm jack directly. Avoid sharp bends or kinks in the cable, as this can damage the internal wiring.

6. TROUBLESHOOTING

If you encounter issues with your Havit H2230D headset, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from headset	Loose connection, low volume, incorrect audio output device selected.	Ensure 3.5mm jack is fully inserted. Increase volume on headset and device. Check device's audio settings to confirm Havit H2230D is selected as output.
Microphone not working	Microphone muted, loose connection, incorrect audio input device selected.	Press the microphone mute button to unmute. Re-insert the 3.5mm jack. Check device's audio settings to confirm Havit H2230D is selected as input.
Sound is distorted or unclear	Volume too high, poor connection, audio source issue.	Lower the volume. Ensure the 3.5mm jack is securely connected. Test with a different audio source or device.
Headset feels uncomfortable after long use	Improper adjustment, prolonged use without breaks.	Adjust the headband and earcups for a better fit. Take short breaks during extended use.

7. SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
