## Stewerom difusores-aroma-automoción

# Stewerom Smart Car Air Freshener User Manual

Model: difusores-aroma-automoción

## 1. INTRODUCTION

The Stewerom Smart Car Air Freshener is designed to enhance your driving environment with adjustable fragrance and intelligent air purification. Crafted from high-quality aluminum alloy, this device offers a durable and elegant solution for maintaining fresh air in your vehicle. It features a built-in intelligent purification system, multiple functional modes, quiet operation, and a long-lasting battery.

## 2. SAFETY INFORMATION

---

- Read all instructions before use.
- Keep out of reach of children and pets.
- Do not disassemble or modify the device.
- Use only the provided or recommended essential oil bottles.
- Avoid direct contact of essential oils with skin or eyes. In case of contact, rinse thoroughly with water.
- Ensure the device is securely installed in the car's air outlet to prevent dislodgement during driving.
- Do not expose to extreme temperatures or direct sunlight for prolonged periods.
- Dispose of batteries and the device according to local regulations.

## 3. PACKAGE CONTENTS

---

Verify that all items are present in your package:

- 1 x Smart Car Air Freshener Device
- 3 x Essential Oil Bottles (Fresh, Intense, Ocean Flavour)
- 1 x USB Type-C Charging Cable
- 1 x User Manual (this document)

## 4. SETUP INSTRUCTIONS

1. **Prepare the Essential Oil Bottle:** Unscrew the cap from one of the essential oil bottles. Hold the bottom of the essential oil bottle and open it counterclockwise to remove the inner stopper.
2. **Insert the Oil Bottle:** Carefully insert the prepared essential oil bottle into the bottom of the Smart Car Air Freshener device. Ensure it is seated firmly.
3. **Install in Vehicle:** Place the Smart Car Air Freshener securely into a suitable car air outlet. The device is designed to fit most horizontal, round, or oblique air outlets.
4. **Charge the Device:** Before first use, ensure the device is fully charged using the provided Type-C charging cable.

# How to use

**Step 1**

**Step 2**

**Step 3**

1. **Unscrew essential oil bottle.**
2. **Hold the bottom of the essential oil bottle and open it counterclockwise.**
3. **Insert the oil bottle into the product.**

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off and Automatic Operation

The Smart Car Air Freshener features an intelligent sensor that automatically starts spraying fragrance when the vehicle is in motion and stops when the vehicle is stationary or turned off. This ensures efficient use of fragrance and battery life.

# START-STOP WITH THE CAR

Intelligent Fragrance Diffusing

Real-time Monitoring of Vehicle Air Conditions

Automatic Sleep Micromotion Recognition Chip

# INTELLIGENT SENSOR SPRAYS FRAGRANCE

- Built-in micro sensor chip
- Quick sensing, start and stop with the vehicle

Image: The diffuser actively spraying fragrance, illustrating its intelligent sensor capabilities for automatic operation based on vehicle status.

## 5.2 Adjusting Fragrance Intensity

The device offers three levels of adjustable intensity, indicated by different ambient light colors. Press the control button on the device to cycle through the modes:

- **Green Light:** Sprays once every 300 seconds (lowest intensity).
- **Blue Light:** Sprays once every 90 seconds (medium intensity).
- **Purple Light:** Sprays once every 10 seconds (highest intensity).

### 3 COLORS OF AMBIENT LIGHTS

Observable light color to identify gear position

#### Purple

Spray once every  
10 seconds

#### Blue

Spray once every  
90 seconds

#### Green

Spray once every  
300 seconds

Image: Close-up views of the diffuser's light indicators for Green, Blue, and Purple, detailing the corresponding spray frequencies for each intensity level.

## 6. MAINTENANCE

- **Cleaning:** Wipe the exterior of the device with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Essential Oil Replacement:** When an essential oil bottle is empty, replace it by following the "Setup Instructions" in reverse to remove the old bottle, and then insert a new one.
- **Charging:** Recharge the device when the battery indicator shows low power. Use a standard USB Type-C charger.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not spraying fragrance.	<ul style="list-style-type: none"> <li>Essential oil bottle is empty.</li> <li>Device battery is low or depleted.</li> <li>Essential oil bottle not inserted correctly.</li> <li>Vehicle is stationary (intelligent sensor).</li> </ul>	<ul style="list-style-type: none"> <li>Replace the essential oil bottle.</li> <li>Charge the device.</li> <li>Re-insert the essential oil bottle firmly.</li> <li>Ensure the vehicle is in motion.</li> </ul>
Weak or no scent.	<ul style="list-style-type: none"> <li>Intensity setting is too low.</li> <li>Essential oil level is low.</li> <li>Device placement is not optimal.</li> </ul>	<ul style="list-style-type: none"> <li>Adjust to a higher intensity setting (Blue or Purple light).</li> <li>Check and replace essential oil if needed.</li> <li>Ensure the device is placed in a location with good airflow.</li> </ul>
Device not charging.	<ul style="list-style-type: none"> <li>Charging cable is faulty.</li> <li>Power source is not working.</li> </ul>	<ul style="list-style-type: none"> <li>Try a different USB Type-C cable.</li> <li>Connect to a different power source.</li> </ul>
