Alpina EWL Athletic Trekking Sneakers Instruction Manual

INTRODUCTION

This manual provides essential information for the use and care of your Alpina EWL Athletic Trekking Sneakers. Designed for outdoor enthusiasts, these shoes offer breathability, lightweight construction, and reliable traction for various activities.

PRODUCT FEATURES

- **Ideal for Outdoor Enthusiasts:** Suitable for hiking, camping, and exploration.
- **Breathable Synthetic & Mesh Upper:** Ensures comfort and airflow during extended wear.
- **Lightweight Construction:** Facilitates easier movement across challenging terrains.
- **Interchangeable Footbed:** Allows for customized fit and enhanced comfort.
- **Durable Rubber Outsole:** Provides exceptional traction and stability on various surfaces.
- **Adjustable Lace-Up Closure System:** Secures the foot, minimizing slips and blisters.

WEARING AND ADJUSTMENT

To ensure optimal comfort and support, follow these steps when wearing your Alpina EWL sneakers:

1. **Loosen Laces:** Fully loosen the lace-up closure system to allow your foot to slide in easily.
2. **Insert Foot:** Place your foot into the shoe, ensuring your heel is comfortably seated at the back.
3. **Adjust Laces:** Tighten the laces evenly from the toe towards the ankle. The fit should be snug but not overly tight, allowing for natural foot movement.
4. **Secure Laces:** Fasten the laces securely to prevent them from coming undone during activity.
5. **Footbed Customization:** The shoes feature an interchangeable footbed. If you require a different level of arch support or cushioning, you may replace the factory footbed with a suitable aftermarket option.

USAGE GUIDELINES

These sneakers are designed for light to moderate outdoor activities. Consider the following for optimal performance:

- **Terrain:** Suitable for trails, light hiking paths, and general outdoor exploration. The durable rubber outsole provides grip on varied surfaces.
- **Weather Conditions:** The breathable mesh upper is ideal for warm to moderate conditions. While the shoes offer some water resistance, they are not fully waterproof and may not be suitable for heavy rain or deep puddles.
- **Activity Level:** Best for activities requiring agility and comfort, such as walking, light jogging, or casual trekking.

MAINTENANCE AND CARE

Proper care will extend the lifespan of your Alpina EWL sneakers:

- **Cleaning:** Remove loose dirt with a soft brush. For stubborn stains, use a mild soap solution and a damp cloth. Avoid harsh chemicals.
- **Drying:** Allow shoes to air dry naturally at room temperature. Do not expose them to direct heat sources like radiators or direct sunlight, as this can damage materials.
- **Storage:** Store in a cool, dry place away from direct sunlight. If storing for extended periods, consider stuffing them with newspaper to maintain their shape.
- **Footbed:** The interchangeable footbeds can be removed and air-dried separately if they become damp or require cleaning.

SPECIFICATIONS

Feature	Detail
Item Weight	1.21 Pounds
Department	womens
Manufacturer	Alpina
Sole Material	Vibram
Outer Material	Ethylene Vinyl Acetate (EVA)
Closure Type	Lace-Up

Feature	Detail
Water Resistance Level	Water Resistant

Size Guide

Refer to the following size chart for accurate fitting:
