TWINS PARFUM No.11161

TWINS PARFUM Solid Perfume User Manual

Model: No.11161 | Scent: MFK Bac. Rou 540 Extrait Impression

PRODUCT OVERVIEW

The TWINS PARFUM No.11161 Solid Perfume offers a unique and convenient way to experience fragrance. This unisex solid perfume, inspired by MFK Bac. Rou 540 Extrait, features a floral and oriental scent profile with top notes of Saffron and Bitter Almond, middle notes of Egyptian Jasmine and Cedar, and base notes of Ambergris, Musk, and Woody notes. Its compact form makes it ideal for on-the-go application, providing a light yet lasting scent for 6-8 hours.

APPLICATION INSTRUCTIONS

Applying your TWINS PARFUM solid perfume is simple and effective. Follow these steps for optimal fragrance release:

1. **Prepare the Perfume:** A solid perfume is best applied after warming it slightly. To do this, gently rub the surface of the solid perfume with your fingertips. Your body heat will help soften the product and activate the fragrance, making it easier to distribute.
2. **Identify Pulse Points:** For the most effective and lasting scent, apply the solid perfume to the "hot" points of your body. These are areas where the skin is thinnest and warmest, which enhances fragrance intensity.
 - Wrists
 - Elbow bends
 - Neck
 - Temples

- Chin
- Behind the ears

3. **Apply:** After warming the perfume on your fingers, dab or gently rub a small amount onto your chosen pulse points. Allow the perfume to warm up on your skin for a few moments before moving on.

Images: Demonstrations of warming the solid perfume on fingertips and applying it to the neck, a common pulse point.

USAGE GUIDELINES

The TWINS PARFUM solid perfume is designed for personal fragrance enhancement. It provides a subtle yet noticeable scent that typically lasts an impressive 6-8 hours on the skin. Reapply as desired throughout the day to refresh the fragrance. This product is intended for external use only. Avoid contact with eyes and mucous membranes.

CARE AND STORAGE

To maintain the quality and longevity of your solid perfume, proper care and storage are essential:

- **Temperature:** Keep the product out of direct sunlight. Store at temperatures ranging from +5°C to +25°C (41°F to 77°F). Extreme temperatures can affect the consistency and fragrance integrity of the solid perfume.
- **Container:** Always ensure the tin is securely closed after each use to prevent drying out and to preserve the scent.

TROUBLESHOOTING

TWINS PARFUM solid perfumes are designed for reliable performance. If you encounter any issues, please consider the following:

- **Fragrance Intensity:** If the scent seems weak, ensure you are applying it to pulse points and warming the product sufficiently with your fingers before application. Body heat is crucial for activating the fragrance.
- **Product Consistency:** If the solid perfume is too hard, it may be stored in too cool an environment. Warm it gently in your hands or by rubbing it with your fingers. If it's too soft, it might be too warm; store it in a cooler place.

For any persistent concerns or questions not addressed here, please contact TWINS PARFUM customer support.

SPECIFICATIONS

Feature	Detail
