Linkind A19 E26 60W 800LM 4 Pack

Linkind Matter Smart Light Bulb User Manual

Brand: Linkind | **Model:** A19 E26 60W 800LM 4 Pack

1. PRODUCT OVERVIEW

The Linkind Matter Smart Light Bulb offers versatile lighting solutions with smart home integration. These bulbs provide millions of colors, tunable white light, and can be controlled via various smart home platforms or the AiDot app.

Figure 1: Linkind Matter Smart Light Bulbs (4-pack) with included remote and compatibility logos for Apple Home, Alexa, Google Home, SmartThings, and AiDot.

Key Features:

- **Matter Compatibility:** Seamless integration with Apple Home, Alexa, Google Home, and SmartThings (requires Matter-certified hub).
- **RGBTW Color Changing:** Millions of colors and tunable white light (1800K-6500K).
- **Music Sync:** Lights can dance to the rhythm of music sensed by your phone's microphone.
- **Voice & Group Control:** Control bulbs with voice commands and group multiple bulbs for simultaneous control.
- **Wake-Up Mode:** Simulate natural light cycles for comfortable sleep and waking.
- **Energy Efficient:** 9W equivalent to 60W incandescent bulbs, with a long lifespan.

2. SETUP GUIDE

Follow these steps to set up your Linkind Matter Smart Light Bulbs.

2.1. Initial Installation

1. Screw the Linkind smart light bulb into a standard E26 light socket.
2. Ensure the light fixture's power switch is in the ON position.

2.2. Adding Lights to the App

The Linkind Matter Smart Light Bulbs can be added to various Matter-compatible smart home platforms or directly to the AiDot app.

Do I need a hub to set up Matter?

1

Matter compatible hub required

1.Must be IPv6 network connection
2.Not support Thread

2

No hub required

Linkind's Official App

1. No extra or hidden costs
2. Ensure avoidance of pirated apps

*Stable 2.4 GHz WiFi network, not support 5 GHz.

*Please update both the apps and hubs to the latest versions for enhanced compatibility. Please refer to the image Version Update.

*Please refer to our User Guide PDF, Troubleshooting PDF, and video available on the detailed product page. These tips will help you successfully connect.

Figure 2: Matter-compatible platforms (Apple Home, Alexa, Google Home, SmartThings) require a Matter-certified hub (e.g., HomePod, Echo Dot, Nest, SmartThings Hub). The AiDot app can be used without a hub.

For detailed app setup, refer to the video below:

Your browser does not support the video tag.

Video 1: This video demonstrates the process of adding Linkind smart lights to the AiDot app, linking them to Wi-Fi, and configuring light shows. It covers steps like selecting devices, entering Wi-Fi passwords, and finishing the setup process within the application.

Steps to Add Lights:

1. Download and open the AiDot app (or your preferred Matter-compatible app).
2. Ensure Bluetooth is enabled on your mobile device and you are connected to a stable 2.4 GHz Wi-Fi network (5 GHz is not supported).
3. In the app, navigate to the device addition section. The app should detect nearby Linkind bulbs.
4. Select the bulbs you wish to add and follow the on-screen prompts to connect them to your Wi-Fi network.
5. If using a Matter-compatible platform, you may need to scan a Matter code (usually found on the bulb or packaging).

Figure 3: The Linkind Bluetooth smart button is exclusively compatible with the Linkind official AiDot App and Linkind/AiDot Smart Bulbs.

3. OPERATING INSTRUCTIONS

Maximize your lighting experience with these operational guidelines.

3.1. Control Methods

- **App Control:** Use the AiDot app or your Matter-compatible smart home app to adjust brightness, color, and set scenes.
- **Voice Control:** Integrate with voice assistants like Amazon Alexa or Google Assistant for hands-free control. Simply use commands such as "Hey Google, turn on the light" or "Siri, dim the light to red."

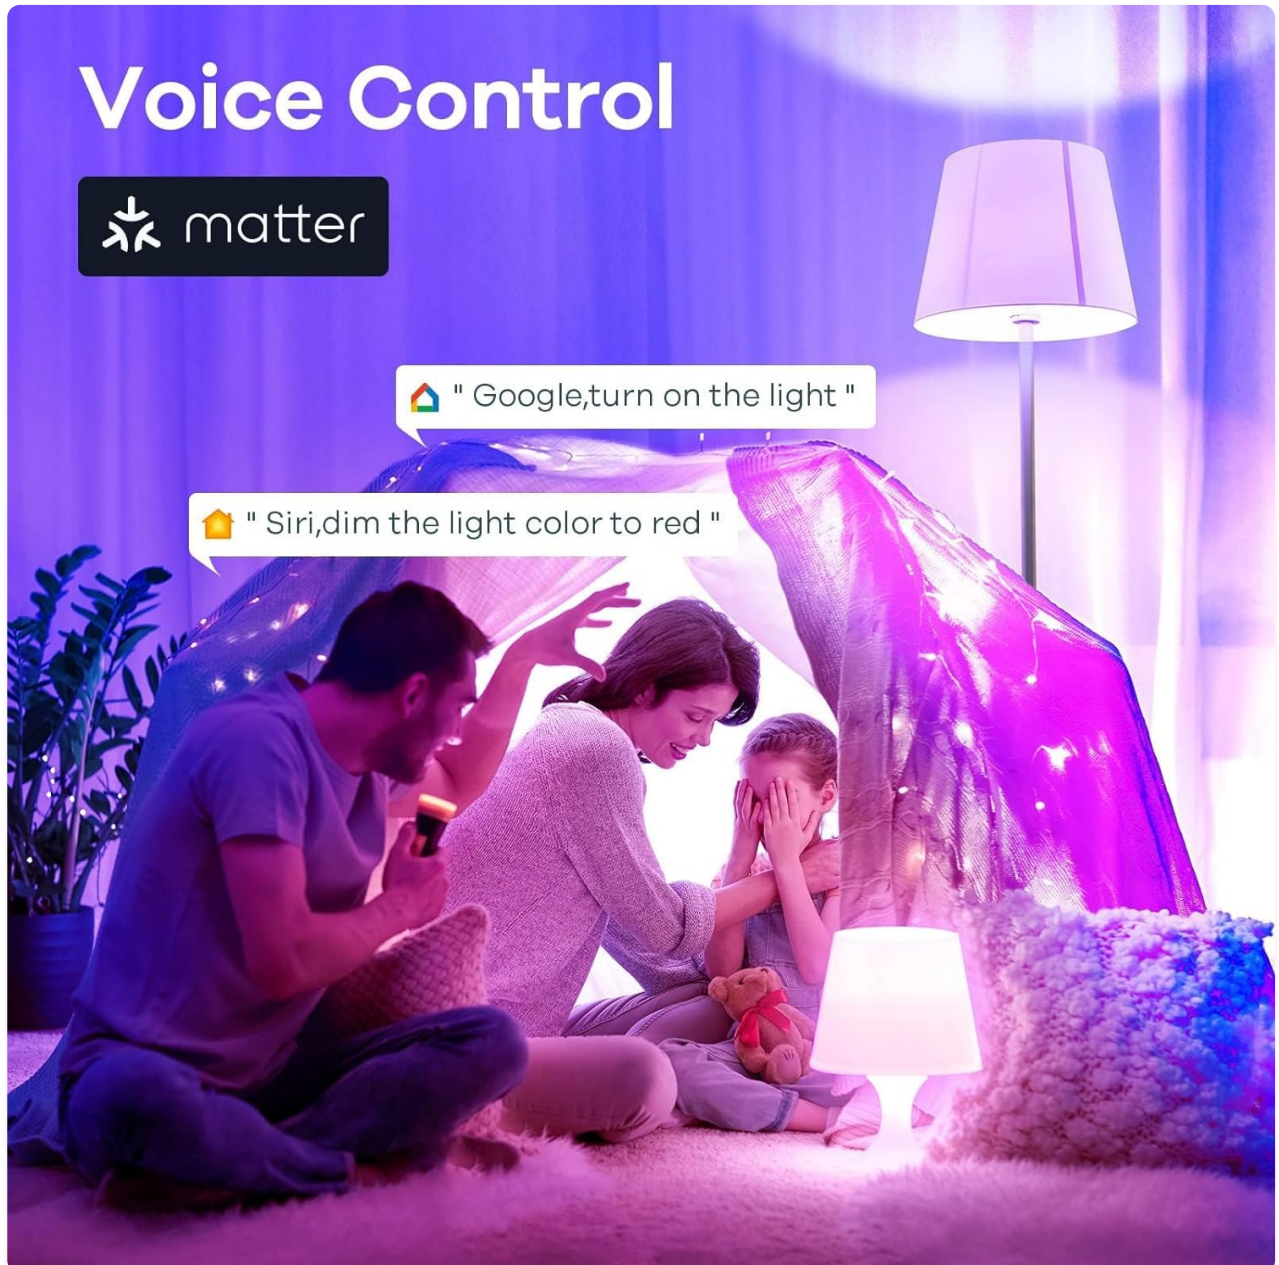

Figure 4: Voice control allows for convenient adjustment of lighting settings using simple commands through compatible smart assistants.

- **Remote Button Control (if included):** The optional Linkind Bluetooth smart button provides instant control. A single press turns lights ON/OFF, a double press cycles through color temperatures (2700K, 4000K, 6500K), and a hold press adjusts brightness (5% to 100%).

One Button, Full Feature

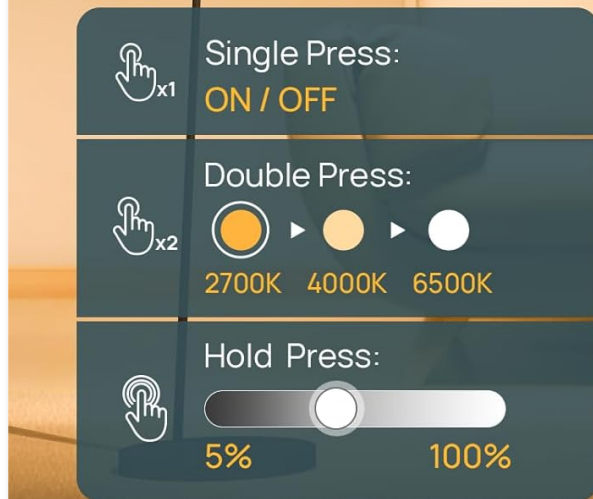

Figure 5: The smart button offers quick access to ON/OFF, color temperature changes, and dimming functions.

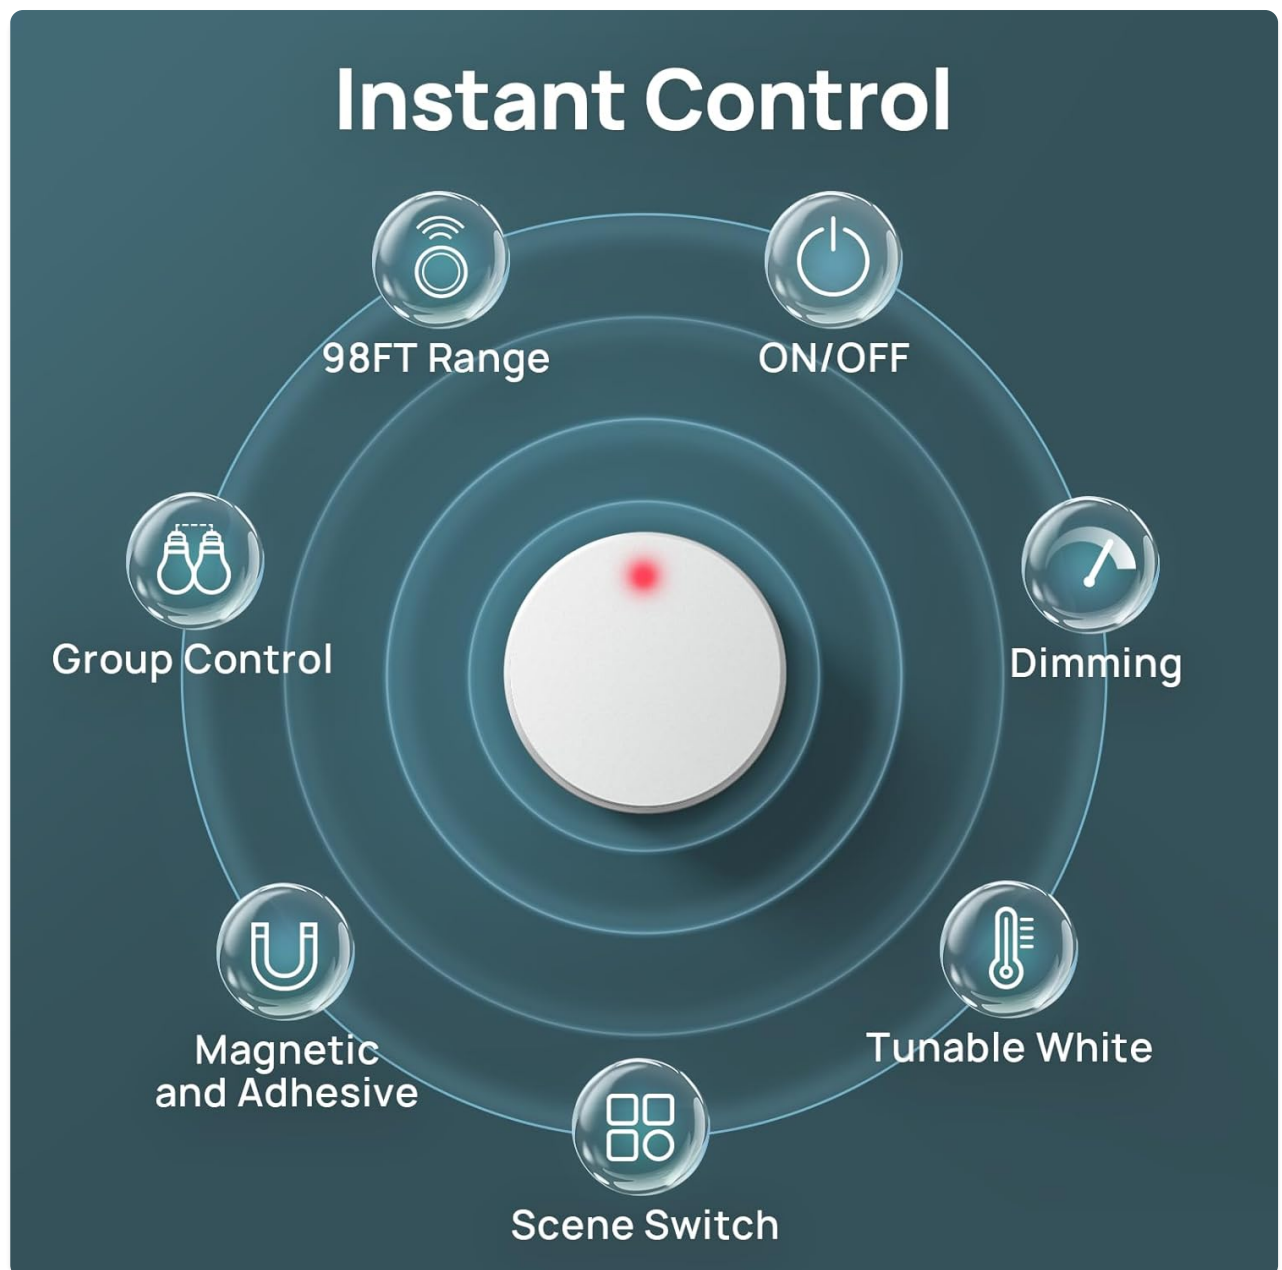

Figure 6: The smart button features a 98ft range, ON/OFF, dimming, tunable white, scene switch, magnetic and adhesive mounting, and group control capabilities.

3.2. Advanced Lighting Features

- **DIY Color & Music Scene:** Customize millions of colors and dynamic scenes for various moods. The bulbs can sync with music via your phone's microphone.

How to Connect

1. Launch App

2. Enable Bluetooth and 2.4GHz Wi-Fi

3. Pair with the smart speaker

4. Power on

5. Scan Matter Code

6. Success

Figure 7: Experience a wide spectrum of colors with millions of options to choose from, enhancing any environment.

Figure 8: Adapt your lighting to various activities, from immersive gaming and vibrant music sessions to lively parties.

- **Wake-Up Mode & Timer:** Program the bulbs to gradually change colors over 24 hours, simulating natural sunlight. Set schedules for automatic on/off times.

Figure 9: Utilize the 24-hour auto change and timer functions to gradually dim lights at night and brighten them in the morning, promoting a comfortable sleep cycle.

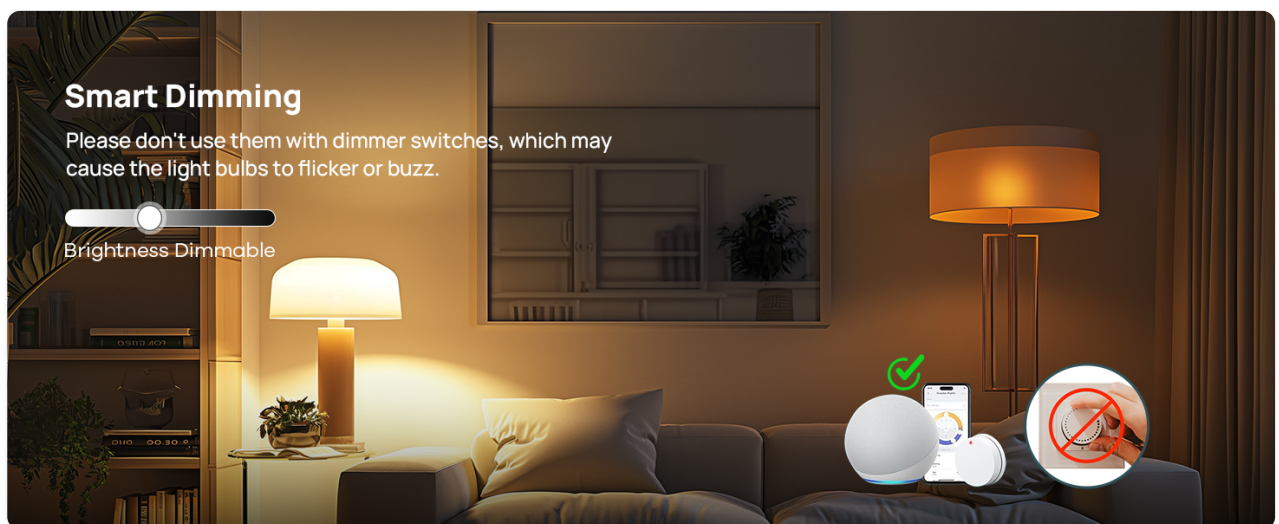

Figure 10: The app allows for setting a circadian rhythm, adjusting light color and brightness throughout the day to align with natural light patterns.

- **Group Control:** Easily add multiple LED light bulbs to be controlled together simultaneously.

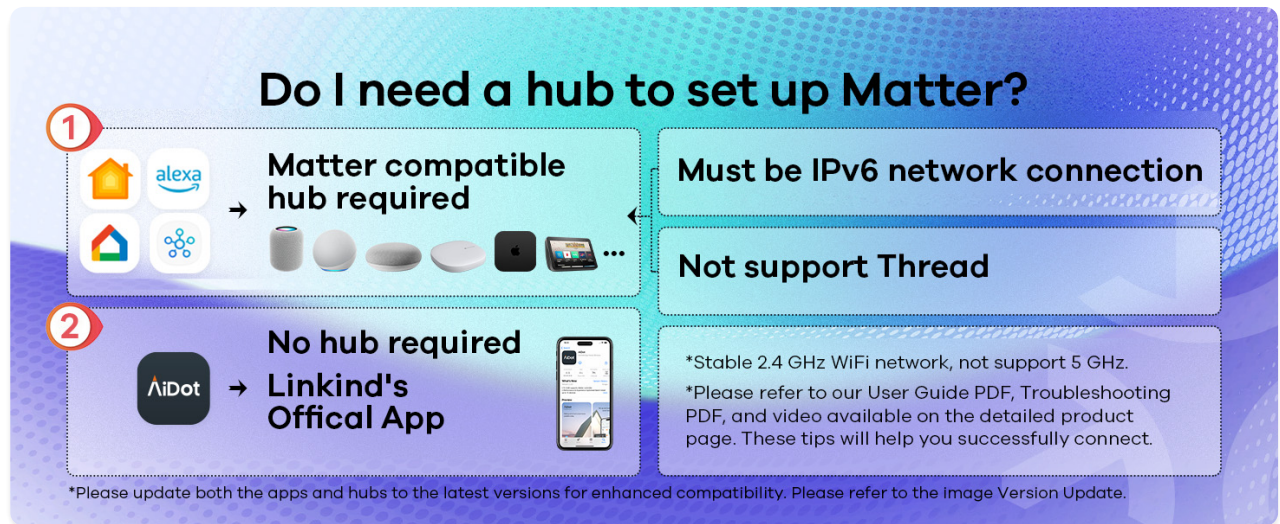

Figure 11: Group multiple smart lights together for unified control, simplifying the management of lighting in a room or area.

4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Linkind Matter Smart Light Bulbs.

4.1. Cleaning

- Ensure the bulb is powered off and cool before cleaning.
- Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.

4.2. Important Notes

- Linkind smart bulbs are generally **not compatible with traditional dimmer switches**. Using them with dimmer switches may cause flickering or buzzing.
- The bulbs are designed for a long lifespan, estimated at approximately 15 years if used 4 hours a day.
- These bulbs feature a low blue-ray hazard design, with strong heat dissipation aluminum, a flame-retardant lampshade for soft light and eye protection, and a nickel-plated head for strong conductivity.

Figure 12: The bulb's design prioritizes eye comfort with low blue-ray emission, efficient heat dissipation, and a flame-retardant lampshade.

5. TROUBLESHOOTING

If you encounter issues with your Linkind Matter Smart Light Bulbs, refer to the following common solutions or consult the official guides.

Common Issues:

- **Bulb not connecting:** Ensure your Wi-Fi is 2.4 GHz, not 5 GHz. Check Wi-Fi signal strength. Make sure the bulb is within range of your router or Matter hub.
- **Flickering or buzzing:** This often indicates incompatibility with a traditional dimmer switch. Ensure the bulb is connected to a non-dimmable switch.
- **Voice control not working:** Verify that your smart home hub (e.g., HomePod, Echo Dot, Nest) is properly configured and connected to the bulbs. Check app and hub versions for compatibility.
- **Color or brightness issues:** Ensure the app and bulb firmware are updated to the latest versions.

For more detailed troubleshooting, please refer to the official [Troubleshooting Guide \(PDF\)](#) and [User Guide \(PDF\)](#) available on the product page.

6. SPECIFICATIONS

| Attribute | Value |
|---------------------------------|--|
| Brand | Linkind |
| Light Type | LED |
| Special Feature | Color Changing, Energy Efficient, Remote Control, Timer, Tunable |
| Wattage | 9 watts |
| Bulb Shape Size | A19 |
| Bulb Base | E26 |
| Incandescent Equivalent Wattage | 60 Watts |
| Voltage | 120 Volts |
| Unit Count | 4.0 Count |
| Number of Items | 4 |
| Brightness | 800 Lumen |
| Shape | Arbitrary(A) |
| Material | Aluminum, Plastic |
| Connectivity Technology | Infrared |
| Controller Type | Amazon Alexa, Google Assistant |

| Attribute | Value |
|-----------------------|------------------------|
| Color Rendering Index | 90 |
| Power Consumption | 9 Watts |
| Light Source Type | LED |
| Light Source Wattage | 9 Watts |
| Control Method | App, Remote, Voice |
| Average Life | 25000 Hours |
| Item Weight | 9.9 ounces |
| Package Dimensions | 5.08 x 5 x 4.72 inches |

7. WARRANTY AND SUPPORT

Linkind provides comprehensive support for its products.

7.1. Warranty Information

The Linkind Matter Smart Light Bulbs come with a **2-year warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use.

7.2. Customer Support

For any inquiries or assistance, please contact Linkind customer service. Live customer service is available Monday to Friday, from 9 AM to 5 PM PST.

You can also find additional resources and support through the AiDot app's "Feedback" section.
