TIMBOOTECH G70

TIMBOOTECH Wireless HDMI Transmitter and 2 Receivers (Model G70) - Instruction Manual

Model: G70 | Brand: TIMBOOTECH

1. INTRODUCTION

This manual provides comprehensive instructions for the TIMBOOTECH Wireless HDMI Transmitter and 2 Receivers. This device allows for wireless transmission of HDMI signals from a source device to multiple display units, supporting high-definition video and audio.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1x Wireless HDMI Transmitter
- 2x Wireless HDMI Receivers
- 3x HDMI Cables
- 3x USB-C Charging Cables
- 2x Mini/Micro HDMI Adapters
- 1x User Manual

Plug and Play

No Bluetooth, no apps, no settings needed - our wireless HDMI are pre-paired and ready to use straight out of the box. Supports up to 8 receivers.

3. PRODUCT OVERVIEW

The TIMBOOTECH Wireless HDMI system consists of a transmitter (TX) and multiple receivers (RX). It operates on a 5.8G chip for stable, low-latency transmission.

3.1 Key Features

- Real-Time Sharing:** Supports sharing to 2 TVs and up to 6 mobile devices simultaneously.
- High Resolution:** 4K input decoding and 1080P@60Hz output for clear visuals.
- Plug and Play:** Pre-paired units require no Wi-Fi or Bluetooth setup.
- Multi-Receiver Support:** One transmitter can connect to up to 8 receivers or touchscreens.
- App Functionality:** Use a dedicated app to turn iOS/Android devices into wireless monitors.
- Extended Range:** Transmits up to 165ft (50m) with minimal delay.
- Wide Compatibility:** Works with various devices including laptops, PCs, cameras, and game consoles.

4. SETUP INSTRUCTIONS

The devices are pre-paired at the factory for a plug-and-play experience. Follow these steps for initial setup:

4.1 Basic Connection

- 1. Connect Transmitter (TX):** Plug the HDMI end of the transmitter into the HDMI output port of your source device (e.g., laptop, PC, camera). Connect a USB-C charging cable to the transmitter and a power source (e.g., USB port on your device or a USB power adapter).
- 2. Connect Receiver (RX):** For each receiver, plug its HDMI end into an HDMI input port on your display device (e.g., TV, monitor, projector). Connect a USB-C charging cable to the receiver and a power source.
- 3. Power On:** Ensure both the transmitter and all receivers are powered on.
- 4. Automatic Mirroring:** Wait approximately 5 seconds for the screen to automatically mirror from the source device to the displays.

Image: Visual guide for connecting the transmitter and receivers to source and display devices.

4.2 Re-pairing or Adding Multiple Receivers

If the connection is abnormal or you wish to add more receivers (up to 8 total), follow these steps:

- 1. Connect and Power TX:** Connect the TX (Transmitter) to your HDMI output device and ensure it is powered.
- 2. Connect and Power RX:** Connect the RX (Receiver) to your HDMI input device and ensure it is powered.
- 3. Initiate Pairing:** Long press the RX button for 5 seconds, then press the TX button for 10 seconds. Wait for the devices to pair.
- 4. Verify Connection:** After successful pairing, the screen should display the mirrored content.

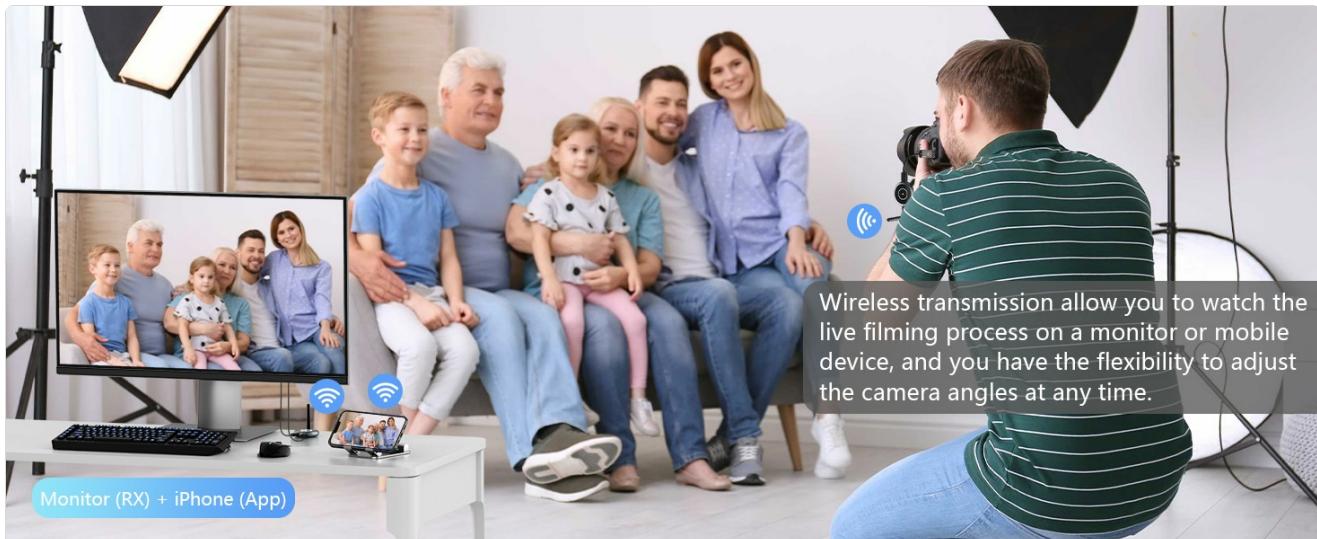

Image: Visual steps for re-pairing or adding additional receivers.

5. OPERATING INSTRUCTIONS

5.1 Multi-Screen Display

The system supports displaying content from one transmitter to multiple receivers simultaneously, allowing for multi-screen setups in various environments.

Wide Compatibility

Transmitter-(TX)		Recriver-(RX)	
			
Cable box	Camera	TV	Monitor
			
Laptop	PS3/4	Splitter	Projector
			
Surveillance cameras	DVD/ Blu-ray Player	Transmitter + Laptop	Touch Screens

HDCP Support

5.2 App Functionality (iOS/Android)

Utilize the dedicated app to extend your display to iOS or Android mobile devices. This feature is ideal for monitoring camera feeds or sharing content with nearby users.

- 1. Connect TX:** Connect the transmitter to your HDMI output device and power it.
- 2. Install App:** Download and install the "TuTuLink" app on your iOS/Android device.
- 3. Connect to Wi-Fi:** Open the app, connect to the Wi-Fi hotspot broadcast by the transmitter (SSID and password usually provided on the screen or manual).
- 4. Start Streaming:** Open the app again, and it should automatically sync and display the content.

Image: Guide for using the TuTuLink app to mirror content to mobile devices.

5.3 Adjusting Wireless Channels

In environments with heavy Wi-Fi traffic, you can adjust the wireless channel via the app for optimal performance and signal stability.

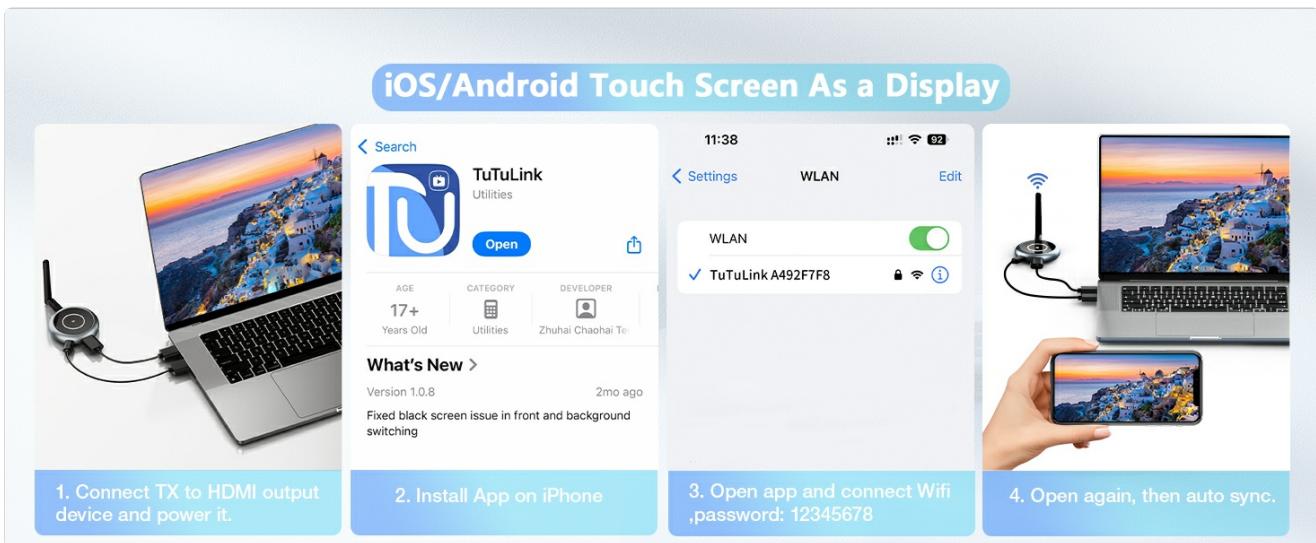

Image: Adjusting wireless channels via the app for improved signal.

6. COMPATIBILITY

The TIMBOOTECH Wireless HDMI system offers broad compatibility with various devices and supports HDCP.

6.1 Compatible Source Devices (Transmitter - TX)

- Laptops
- PCs
- Cameras (DSLR, Surveillance)
- Blu-ray Players
- Set-top Boxes / Cable Boxes / Fire TV Stick
- Game Consoles (PS3/4, PS5)

6.2 Compatible Display Devices (Receiver - RX)

- TVs

- Monitors
- Projectors
- HDMI Splitters
- iOS/Android Touch Screens (via App)

6.3 Model Compatibility Note

This system is compatible only with the latest TIMBOOTECH receiver models (ASIN: B0DNF72YK1 for blue interface version, B0CSFS69XF for black interface version).

7. TROUBLESHOOTING

If you encounter issues, please refer to the following common solutions:

- **No Signal/Connection:**
 - Ensure both transmitter and receivers are properly powered via their USB-C cables.
 - Verify HDMI cables are securely connected to both source and display devices.
 - Perform the re-pairing process (Section 4.2) if devices are not connecting automatically.
 - Check if the HDMI input on your display is set to the correct port.
- **Intermittent Signal/Poor Quality:**
 - Ensure there are no major physical obstructions (walls, large furniture) between the transmitter and receivers.
 - Adjust the wireless channel via the TuTuLink app to avoid interference from other Wi-Fi networks (Section 5.3).
 - Ensure devices are within the recommended 165ft (50m) transmission range.
 - Check for strong electromagnetic interference from other electronic devices.
- **Audio/Video Sync Issues:**
 - Restart both the transmitter and receivers.
 - Ensure all cables are securely connected.
- **App Connection Issues:**
 - Check if the TuTuLink app is updated to the latest version.
 - Try restarting the app or device.
 - Verify the app has the necessary permissions.
 - Check for network connectivity issues.

- Ensure your mobile device is connected to the correct Wi-Fi hotspot broadcast by the transmitter.
- Verify the Wi-Fi password (usually provided on the screen or manual).
- Restart the app and the transmitter.

8. SPECIFICATIONS

Feature	Detail
Brand	TIMBOOTECH
Model Number	G70
Connectivity Technology	Wireless (5.8G)
Input Resolution	Up to 4K
Output Resolution	1080P@60Hz
Transmission Range	Up to 165ft (50m)
Latency	Low (approx. 0.1s)
Multi-Receiver Support	Up to 8 receivers/touchscreens
HDCP Support	Yes
Item Weight	7 ounces
Product Dimensions	1.97 x 1.57 x 1.18 inches

9. WARRANTY AND SUPPORT

TIMBOOTECH offers 24/7 support for a worry-free experience. Please contact customer service for any issues.

- **Support:** 24/7 customer support is available.
- **Money-Back Guarantee:** 30-day money-back return and refund guarantee.
- **Warranty:** 1-year free replacement.
