3. **Attach Legs:** Align each leg with the corresponding mounting plate on the underside of the chair. Insert the bolts with washers through the holes and tighten them using the provided Allen wrench. Do not overtighten initially.
4. **Final Tightening:** Once all four legs are loosely attached, place the chair upright on a level surface. Apply gentle pressure to ensure even contact with the floor, then fully tighten all bolts.
5. **Check Stability:** Gently rock the chair to ensure it is stable and does not wobble. If wobbling occurs, re-check leg attachments and adjust as needed.
