omzer Self-Cleaning Cat Litter Box User Manual

Model: OM-CLB-01

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your omzer Self-Cleaning Cat Litter Box. Please read this manual thoroughly before using the product to ensure proper function and safety.

The omzer Self-Cleaning Cat Litter Box is designed to provide a convenient and hygienic solution for cat owners, featuring automatic cleaning, odor control, and smart app connectivity for remote management and health tracking.

SAFETY INFORMATION

- Ensure the device is placed on a stable, level surface.

- Do not immerse the main unit in water. Clean only as instructed in the maintenance section.

- Keep children and pets away from the device during cleaning cycles.

- Use only recommended cat litter types (clumping clay litter, tofu litter, etc.). Avoid non-clumping or crystal litter.

- Unplug the device before performing any maintenance or cleaning.

- The device is designed for cats weighing between 1.5kg (3.3 lbs) and 8kg (17.6 lbs).

PRODUCT COMPONENTS

The omzer Self-Cleaning Cat Litter Box package includes the following components:

- Main Litter Box Unit

- Waste Collection Bin

- Power Adapter

- Waste Bags (starter pack)

- User Manual (this document)

SETUP GUIDE

1. **Unpacking and Placement**

   Carefully remove all components from the packaging. Place the main litter box unit on a firm, level surface in a well-ventilated area, away from direct sunlight or heat sources. Ensure there is enough space around the unit for proper operation and maintenance.

2. **Installing the Waste Collection Bin**

   Locate the waste collection bin at the bottom front of the unit. Pull it out, insert a waste bag, and then slide it back into place until it clicks securely.

Extra-Large Litter Box

100L Self-Clean Cat Litter Box: Accommodate Your Big Cats with Ease!

15 DAY

85L

15L

It is recommended to use cats with 2-22LB.

Image: The omzer litter box highlighting its extra-large capacity and the pull-out waste drawer.

3. **Adding Cat Litter**

Open the top lid of the drum. Pour clumping cat litter into the drum, ensuring the litter level is between the MIN and MAX lines indicated inside the drum. Do not overfill. The recommended litter capacity is approximately 5-7 liters.

Simplify Your Cat's Litter Routine

Easily add litter through the top opening of the drum and with just one click, effortlessly dispose of it.

Tips:Ensuring a parallel level with the silicone edge to prevent waste from sticking to the bottom.

Max

4. **Power Connection**

Connect the power adapter to the power input port on the back of the unit, then plug the adapter into a standard electrical outlet. The unit will power on and perform an initial self-check.

5. **App Download and Wi-Fi Connection**

Download the "omzer Smart Cat Litter Box" app from your smartphone's app store. Follow the in-app instructions to connect the device to your 2.4GHz Wi-Fi network. This will enable remote control and health tracking features.

OPERATING INSTRUCTIONS

Cleaning Modes

The omzer Self-Cleaning Cat Litter Box offers multiple cleaning modes:

- **Automatic Cleaning:** The device detects when your cat has left the litter box and initiates a cleaning cycle after a set delay (configurable via app).
- **Scheduled Cleaning:** Set specific times for cleaning cycles through the mobile app.
- **Manual Cleaning:** Press the clean button on the unit or initiate a cleaning cycle via the app at any time.

Image: Visual representation of the three cleaning modes: button control, scheduled cleaning via app, and automatic cleaning triggered by cat entry/exit.

Smart Features and Sensors

The litter box is equipped with advanced sensors for safety and monitoring:

- **Entrance Infrared Sensor:** Detects cat presence and immediately halts rotation to prevent injury.

- **Waste Collecting Box Infrared Sensor:** Alerts you when the waste bin is full and needs emptying.

- **Gravity Sensor:** Differentiates between multiple cats and tracks individual usage (requires app setup for multiple cats).

Image: A diagram illustrating the location and function of the various sensors within the omzer self-cleaning litter box, including entrance infrared, waste box infrared, and gravity sensors.

Odor Control System

The unit features an integrated odor control system:

- **Fresh Air Exhaust Duct:** Circulates air to reduce odors.
- **Negative Ion Deodorization:** Actively neutralizes unpleasant smells.

Smarter and Safer

All-round Sensors

Entrance Infrared Sensor

Which immediately halts the machine's rotation upon detecting your cat's presence.

Waste Collecting Box Infrared Sensor

When the waste compartment reaches full capacity, it will alert you to clean it.

Gravity Sensor

Allow you to differentiate between multiple cats in your household.

MAINTENANCE

Emptying the Waste Bin

When the waste bin full sensor is triggered (or as needed), pull out the waste bin, tie the waste bag, and dispose of it. Replace with a new waste bag and slide the bin back into place.

Excellent Odor Control

Freshing Air Exhaust Duct

Negative Ion Deodorization

Cleaning the Drum and Unit

For thorough cleaning, the drum can be disassembled and washed. Ensure the unit is unplugged before proceeding.

1. Remove the top cover of the unit.
2. Lift up the roller shaft pressure plate.
3. Carefully remove the drum from the main unit.
4. Wash the drum with mild soap and water. Ensure it is completely dry before reassembling.
5. Wipe down the interior and exterior of the main unit with a damp cloth. Do not use abrasive cleaners.

Image: Step-by-step guide for disassembling and washing the drum of the omzer litter box.

Filter Selection

The omzer litter box supports different filter types based on the cat litter particle size. Ensure you use the appropriate filter for your chosen litter.

Choose Approoriate Size Filter
We provide two sizes of filters, and you can install appropriate filters according to your own requirements.

Large Particle Sifter

Upgraded Sifter

Image: A comparison showing two types of sifters: one for large particle litter and an upgraded sifter for finer litter, allowing users to choose based on their litter type.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit not powering on.	Power cable not connected; power outlet issue.	Ensure power cable is securely plugged into the unit and a working outlet.
Cleaning cycle not starting.	Cat still inside; waste bin full; litter level too high/low.	Check if cat has exited; empty waste bin; adjust litter level.

Problem	Possible Cause	Solution
Odor persists.	Waste bin not emptied regularly; filter needs cleaning/replacement; poor ventilation.	Empty waste bin more frequently; clean/replace filters; ensure good room ventilation.
App connectivity issues.	Incorrect Wi-Fi password; 5GHz Wi-Fi network; router too far.	Ensure correct 2.4GHz Wi-Fi network and password; move unit closer to router.
Litter sticking to drum.	Litter type not suitable; drum needs cleaning.	Use high-quality clumping litter; clean the drum regularly.
