3. ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults. Clear a spacious area for assembly. Do not fully tighten screws until all parts are aligned.

1. Step 1: Prepare Components

Unpack all components and hardware. Lay them out on a soft, clean surface to prevent scratches. Identify each part using the Package Contents list.

2. Step 2: Assemble Bed Frame Sides

Attach the side rails (C) to the headboard (A) and footboard (B) using the provided bolts and nuts from the hardware pack (F). Ensure the guardrails on the side rails are facing upwards and inwards. Hand-tighten only for now.

3. Step 3: Install Bed Slats

Place the bed slats (D) across the side rails, ensuring they are evenly spaced and secured to the pre-drilled holes. Use the provided screws to fasten each slat. This provides the mattress support.

4. Step 4: Assemble Storage Drawers

Follow the separate instructions within the hardware pack (F) to assemble the two storage drawers (E). This typically involves attaching the sides, bottom, and wheels. Once assembled, slide them into the designated space under the bed frame.

5. Step 5: Final Tightening

Once all components are assembled and aligned, use the Allen wrench to fully tighten all bolts and screws. Do not overtighten. Ensure the bed frame is stable and level.

4. USAGE AND OPERATION

This Bellemave Kids Twin Bed Frame is designed for comfortable and safe sleeping for children, featuring integrated storage and guardrails.

- **Mattress Placement:** Place a standard twin-size mattress directly onto the bed slats. No box spring is required.
- **Storage Drawers:** The two under-bed storage drawers can be easily pulled out and pushed in on their wheels. They are ideal for storing toys, books, bedding, or clothes, helping to keep the room tidy. The drawers can be installed on either the left or right side of the bed during assembly.
- **Guardrails:** The integrated guardrails on both sides of the bed provide added safety, preventing accidental falls during sleep.

5. CARE AND MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn marks, use a mild soap solution and immediately dry with a clean cloth. Avoid abrasive cleaners or harsh chemicals, as they can damage the finish.
- **Hardware Check:** Periodically check all bolts, screws, and connections to ensure they remain tight. Retighten as necessary to maintain stability and prevent squeaking.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the wood finish to fade or crack.
- **Humidity Control:** Maintain a stable room temperature and humidity level to prevent wood from warping or cracking.

6. TROUBLESHOOTING

Refer to the table below for common issues and their solutions.

Problem	Possible Cause	Solution
