Nanoblock NBC_271 Playing Cat Micro Sized Building Blocks Instruction Manual

INTRODUCTION

Welcome to the world of Nanoblock! This instruction manual guides you through the assembly of the Nanoblock NBC_271 Playing Cat model. Nanoblocks are micro-sized building blocks designed for creating intricate 3D models with exceptional detail and authenticity. This set allows you to construct a charming playing cat figure, perfect for display.

The smallest blocks measure just 4x4mm, enabling the creation of highly detailed designs. Please follow the included detailed color instructions carefully for the best building experience.

SETUP AND ASSEMBLY

1. Unpacking the Kit

Carefully open the product packaging. Inside, you will find the Nanoblock pieces sorted by color, along with a detailed color instruction booklet. Ensure all components are present before beginning assembly.

2. Assembly Instructions

Refer to the included step-by-step color instruction manual for precise assembly guidance. Each step illustrates the placement of blocks to gradually form the playing cat model. Pay close attention to the orientation and color of each block as indicated.

- **Identify Pieces:** Before each step, identify the required block shapes and colors.
- **Precise Placement:** Due to their micro size, ensure each block is firmly pressed into place to secure the connection.
- **Follow Sequence:** Adhere strictly to the numerical sequence of steps in the instruction booklet.

BUILDING PROCESS

1. Block Placement Techniques

When placing blocks, apply gentle, even pressure to ensure they snap securely onto the studs of the blocks below. Avoid forcing blocks, as this can damage them. For smaller blocks, tweezers may be used for greater precision, though this is not typically required.

2. Disassembly (If Needed)

If a block needs to be removed, gently pry it apart using a block separator tool (not included) or by carefully wiggling it. Avoid using excessive force or sharp objects, which could scratch or break the blocks.

CARE AND STORAGE

1. Cleaning Your Model

To clean your assembled Nanoblock model or individual blocks, use a soft, dry cloth to gently wipe away dust. For more thorough cleaning, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.

2. Storage Recommendations

Store your Nanoblock model in a stable location away from direct sunlight and extreme temperatures to prevent discoloration or warping. Keep any unused blocks in a sealed container to prevent loss and protect them from dust.

TROUBLESHOOTING

1. Missing Pieces

If you believe you are missing pieces, first thoroughly check the packaging and your building area. Due to their small size, blocks can be easily overlooked. If pieces are genuinely missing, please contact Nanoblock customer support for assistance.

2. Model Instability

If your model feels unstable, review the most recently assembled sections. Ensure all blocks are fully pressed down and securely connected to the studs. Incorrect block placement or loose connections are common causes of instability.

PRODUCT SPECIFICATIONS

Model Number:	NBC_271
Number of Pieces:	110
Material Type:	Plastic
Colour:	Playing Cats
Product Dimensions:	6.79 x 2.8 x 3.99 cm; 49.9 g

Assembly Required:	Yes
Recommended Age:	12 - 18 years (Manufacturer recommended)
Educational Objective:	Artistic
Special Features:	Non Toxic

CUSTOMER SUPPORT

For further assistance, questions regarding your Nanoblock set, or to report missing components, please refer to the contact information provided on the product packaging or visit the official Nanoblock website. Always provide your model number (NBC_271) when contacting support.
