### 3. KEY FEATURES

- **Multi-layer Filtration System:** Constructed from multiple layers of fabric, including melt-blown fiber and non-woven fabric, to capture up to 99.9% of dust, debris, hair, and other fine particles. This system helps maintain a clean home environment and effectively reduces odors.
- **2.5L Large Capacity:** Each dust bag offers a generous 2.5-liter capacity, allowing for up to 60 days of hands-free cleaning before replacement is needed, depending on usage frequency.
- **Self-sealing Design:** The innovative self-sealing design automatically closes the bag opening when removed from the station, preventing dust and debris from escaping and ensuring hygienic disposal.

# Up to 99.9% Filtration

**Dust bag can block 99.9% of dustdebris and particles, ensuring healthy and clean home environment**

# 2.5L Large Capacity

Hold up to 60 days Dust

Image 5: The 2.5L large capacity dust bag shown in context with a self-emptying station, highlighting its ability to hold up to 60 days of dust.

## 4. INSTALLATION AND REPLACEMENT

Follow these steps to replace the dust bag in your vacuum cleaner's self-emptying station:

1. Open the lid of your vacuum cleaner's self-emptying station.
2. Locate the used dust bag. It typically has a cardboard collar that slides into a slot.
3. Gently pull up on the cardboard collar leading to the vacuum port and lift the dust bag out of the canister. The self-sealing design will automatically close the bag opening.
4. Dispose of the used dust bag in a waste bin.
5. Unfold a new Chuancheng replacement dust bag.
6. Insert the new dust bag into the canister, ensuring the cardboard collar slides securely into the designated slot.
7. Close the lid of the self-emptying station. Ensure it is properly latched.

# Easy to Replace

It is recommended to replace the dust bag every 3-6 months for high performance, depending on your using frequency

## 5. MAINTENANCE AND RECOMMENDED REPLACEMENT FREQUENCY

To ensure optimal performance of your vacuum cleaner and maintain air quality, it is recommended to replace the dust bag every 2-3 months. This frequency may vary depending on your usage habits, the amount of debris collected, and the presence of pets in your home.

## 6. TROUBLESHOOTING

### Reduced Suction or Odor:

- **Check Dust Bag:** If you notice a decrease in suction power or persistent odors, the dust bag may be full or improperly installed. Replace the dust bag if it is full.
- **Inspect for Obstructions:** Ensure there are no obstructions in the vacuum's intake port or the self-emptying station's pathway.

## Bag Not Sealing Properly:

- **Re-insert Bag:** Remove the bag and re-insert it, ensuring the cardboard collar is fully seated in its slot.
- **Check for Damage:** Inspect the bag for any tears or damage that might prevent proper sealing. Replace if damaged.

## 7. SPECIFICATIONS

---

Feature	Specification
Brand	Chuancheng
Capacity	2.5 Liters
Number of Items	9 Pack
Filtration Efficiency	Up to 99.9%
Material	Multi-layer fabric (melt-blown fiber, non-woven fabric)
Special Features	Self-sealing, Lightweight
Item Weight	6.7 ounces (0.19 Kilograms)
Package Dimensions	8.5 x 6.22 x 2.2 inches

## 8. SAFETY INFORMATION

---

Always ensure the vacuum cleaner and self-emptying station are powered off and unplugged before attempting to replace the dust bag. Keep replacement bags out of reach of children to prevent accidental ingestion or suffocation hazards.
