WHAT'S IN THE BOX

Verify that all items are present in your BLU G63 package:

- BLU G63 Smartphone
- Rugged Case
- Quick Guide
- SIM Key
- Charger

- USB-C Cable
- Sticker (BLU branded)

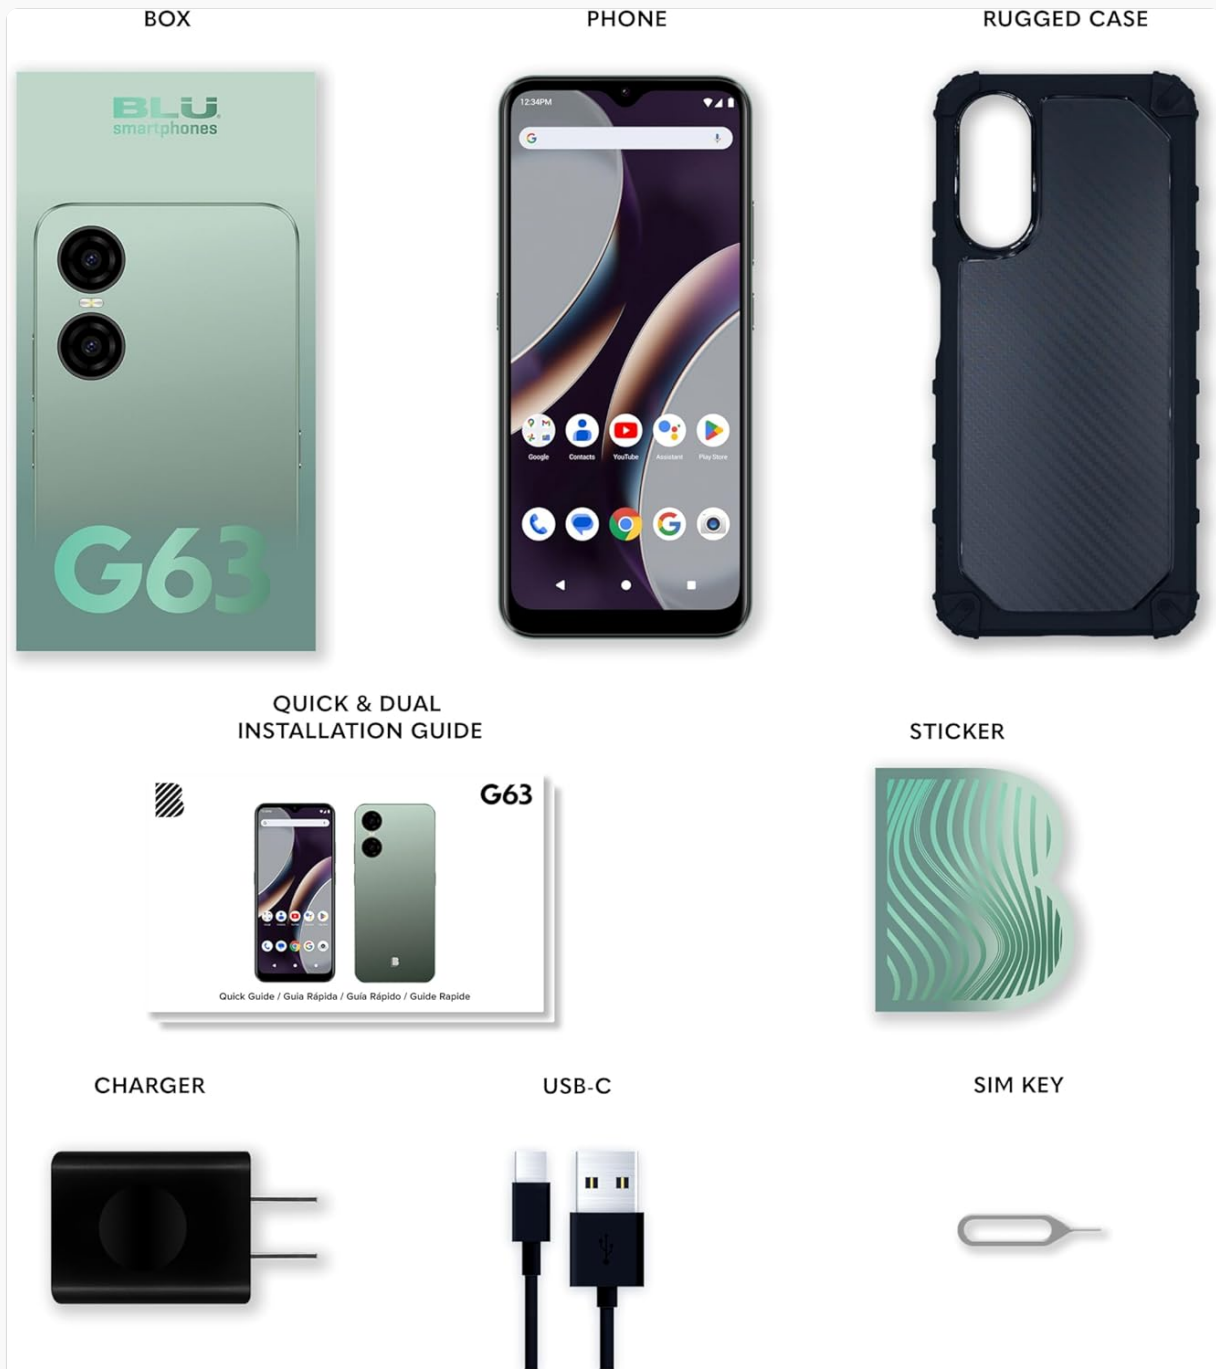

Image: All items included in the BLU G63 retail package.

SETUP

1. SIM Card Installation

1. Locate the SIM card tray on the side of your BLU G63.
2. Insert the provided SIM key into the small hole next to the tray and gently push until the tray ejects.
3. Place your GSM Nano-SIM card(s) into the designated slots on the tray. Ensure the gold contacts face downwards.
4. Carefully reinsert the SIM tray into the phone.

Note: This device is GSM unlocked and compatible with carriers such as T-Mobile and Metro PCS. It is not compatible

with AT&T/Cricket new activations or CDMA networks like Verizon and Sprint. Consult your service provider for network compatibility.

2. Initial Power On

Press and hold the Power button (located on the side) until the BLU logo appears on the screen. The phone will guide you through the initial setup process.

3. Basic Setup

- **Language Selection:** Choose your preferred language.
- **Wi-Fi Connection:** Connect to a Wi-Fi network to download updates and complete setup.
- **Google Account:** Sign in with your Google account or create a new one to access Google services and the Play Store.
- **Security Setup:** Set up a screen lock (PIN, pattern, password) and configure the side-mounted fingerprint sensor for secure access.

OPERATING YOUR BLU G63

Display and Navigation

The BLU G63 features a 6.8-inch HD+ Infinity Display with a resolution of 720 x 1600 pixels. Navigate the interface using touch gestures:

- **Tap:** Select items or open applications.
- **Swipe:** Scroll through screens, menus, or web pages.
- **Pinch:** Zoom in or out on images and web content.

Image: The BLU G63 held in hand, highlighting its 6.8-inch display.

Fingerprint Sensor

The side-mounted fingerprint sensor provides quick and secure access to your device. To set up or manage fingerprints, navigate to **Settings > Security > Fingerprint**

Camera Usage

The BLU G63 is equipped with a dual 13MP rear camera system with flash and an 8MP front-facing selfie camera.

- Open the **Camera** application from your home screen or app drawer.
- Tap the shutter button to take photos.
- Switch between front and rear cameras using the camera toggle icon.
- Explore various modes such as Portrait, Panorama, and Video.

Battery Management

The BLU G63 features a 5000mAh battery designed for extended use. To optimize battery life:

- Adjust screen brightness.
- Close unused applications running in the background.
- Enable Battery Saver mode when needed.
- Charge your device using the provided USB-C cable and charger.

Storage and Performance

The device comes with 128GB of internal storage and 4GB of RAM, powered by a 1.6GHz Octa-Core processor. This configuration supports smooth multitasking and application usage. Storage can be expanded via a microSD card (up to 128GB).

Operating System

The BLU G63 runs on Android 13.0, offering the latest features and security updates. Regularly check for system updates in **Settings > System > System update** to ensure optimal performance and security.

MAINTENANCE

- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body of the phone. Avoid harsh chemicals.
- **Software Updates:** Keep your device's software updated to the latest version for improved performance and security.
- **Battery Care:** Avoid extreme temperatures. Do not leave the phone fully charged or fully discharged for extended periods.
- **Physical Protection:** Use the provided rugged case to protect your phone from drops and scratches. Consider a screen protector for added display protection.

TROUBLESHOOTING

If you encounter issues with your BLU G63, try the following steps:

- **Device Not Responding:** Press and hold the Power button for approximately 10-15 seconds to force

a restart.

- **SIM Card Issues:** If the phone is not recognizing the SIM card, ensure it is correctly inserted. Power off the device, re-insert the SIM card, and restart. Verify compatibility with your carrier.
- **Battery Draining Quickly:** Check for background apps, reduce screen brightness, and ensure Wi-Fi/Bluetooth are off when not in use.
- **Network Connectivity:** Ensure mobile data is enabled. Try toggling Airplane Mode on and off. If issues persist, contact your service provider.

For further assistance, refer to the official BLU support resources.
